## 71301T Valid Guide Files, 100% 71301T Exam Coverage

And you can also use the Avaya 71301T PDF on smart devices like smartphones, laptops, and tablets. The second one is the web-based Avaya 71301T practice exam which can be accessed through the browsers like Firefox, Safari, and Google Chrome. The customers don't need to download or install excessive plugins or software to get the full advantage from web-based 71301T Practice Tests.

## Avaya Aura Communication Applications Implement Sample Questions (Q16-Q21):

### NEW QUESTION # 16

When Avaya Aura Presence Services is implemented, which statement is true about Port Management?

- A. It allows independent management capabilities to filter out undesired message to every Avaya Aura Presence Services user.
- B. It collects statistics about Port-Usage from each Presence-compatible endpoint across the network.
- C. Port 5222 is used for one-X Endpoints, while Port 5269 is open for connecting with other XMPP 3rd-Party Servers.

- D. It allows multi-media services over a standard Web-Browser.

**Answer: C**

Explanation:

Port 5222: XMPP connection configuration

The Connection Manager runs by default when you install the XCP server. It is configured with a JSM Command Processor and two XMPP directors. The XMPP directors handle communication with IM clients. One of the directors is configured to use port 5222 and the other is configured to use port 5223 for secure communications.

Port 5269: Example Obtaining the Server-to-Server Port from an Openfire server Procedure

1. Log in to the Openfire Web console.
2. Click Server > Server Settings > Server to Server.
3. In the Service Enabled section, the Enabled check box should be checked, and the port value is contained in the box to the right of Remote servers can exchange packets with this server on port. By default the value is 5269, and it is recommended that this default value be maintained.

### NEW QUESTION # 17

To provide the customized music, prompts, and/or error announcements when using the Avaya Call Park and Page, which Avaya application server is used?

- A. Avaya Breeze
- B. Avaya Aura Communication Manager (CM)
- **C. Avaya Aura Media Server (MS)**
- D. Avaya Security Module

**Answer: C**

Explanation:

In the modern Avaya Aura architecture, particularly when utilizing the Call Park and Page feature, the Avaya Aura Media Server (AAMS) serves as the engine for all specialized audio processing.

Customization: While Communication Manager (CM) handles the call logic (the "where" and "when"), it offloads the actual audio delivery to the Media Server. The AAMS is where you upload and manage the high-fidelity audio files used for customized music, specific page prompts, and error announcements.

Scalability: Using a software-based Media Server allows for more simultaneous announcements and better audio quality compared to older hardware-based announcement boards (like the G450's VAL resources).

Integration: The Media Server is designed to store and play back these files via the SIP or H.248 protocol, allowing the system to provide a tailored user experience during the Park and Page workflow.

### NEW QUESTION # 18

When registering as a Remote Worker via the Avaya Session Border Controller for Enterprise (ASBCE), which IP address should be configured in the Server List of the Avaya one-X Communicator?

- A. The Avaya Aura Session Manager (SM) Security Module IP Address
- B. ASBCE Internal (Private) Interface IP address allocated for Remote Workers
- C. Avaya Aura Session Manager (SM) External (Public) Interface IP address allocated for Remote Workers
- **D. ASBCE External (Public) Interface IP address allocated for Remote Workers**

**Answer: D**

Explanation:

When a user is working remotely (outside the corporate network), their client cannot "see" the internal Avaya Aura infrastructure directly. The Avaya Session Border Controller for Enterprise (ASBCE) serves as the secure entry point.

Public Visibility: The Remote Worker's device (such as Avaya one-X Communicator) must point to a reachable IP address on the public internet. This is the External (Public) Interface of the ASBCE.

The Relay Mechanism: Once the client sends its registration request to the ASBCE's public IP, the ASBCE performs NAT (Network Address Translation) and security checks before relaying that signaling to the internal Session Manager.

Security: By using the ASBCE External IP, the internal topology (like the Session Manager's actual IP) remains hidden from the public internet, protecting the core of the Avaya Aura network from direct attacks.

### NEW QUESTION # 19

Which statement about enabling IM and Presence for a user is true?

- A. In SMGR, edit the Communication Profile of the user to assign an Avaya E.164 handle and check the Presence profile checkbox.
- **B. In SMGR, edit the Communication Profile of the user to assign an Avaya SIP handle and check the Presence profile checkbox.**
- C. In SMGR, edit the Communication Profile of the user to assign an Avaya Presence/IM handle and check the Presence profile checkbox.
- D. In SMGR, edit the Communication Profile of the user to assign a XMPP handle and check the Presence profile checkbox.

**Answer: B**

Explanation:

Communication Profile tab: Presence Profile

Fields include:

\* The SIP Entity field used to route SIP based messages through the Presence Services.

\* IM Gateway The IP address of the IM gateway

Note: Avaya SMGR stands for Avaya System Manager.

### NEW QUESTION # 20

What identifies that the Avaya Breeze™ server is using Identity Certificates that have been signed by Avaya Aura System Manager (SMGR)?

- A. if the replication status is showing 'Synchronized' with a green background color
- B. if the Entity Link between Avaya Aura Session Manager (SM) and Avaya Breeze™ server is up
- C. if a successfully installed WebRTC snap-in is used
- **D. if the Issuer Name states "O=AVAYA, OU=MGMT, CN= System Manager CA" for the Security Module SIP Identity Certificate**

**Answer: D**

### NEW QUESTION # 21

.....

They are committed to assisting you in Avaya 71301T exam preparation and boosting the 71301T exam candidate's confidence to pass it.
