In accordance with the actual exam, we provide the latest NCP-US exam dumps for your practices. With the latest NCP-US test questions, you can have a good experience in practicing the test. Moreover, you have no need to worry about the price, we provide free updating for one year and half price for further partnerships, which is really a big sale in this field. After your payment, we will send the updated NCP-US Exam to you immediately and if you have any question about updating, please leave us a message on our NCP-US exam questions.

Nutanix NCP-US Exam is an essential certification for IT professionals who want to demonstrate their expertise in Nutanix Unified Storage solutions. Nutanix Certified Professional - Unified Storage v6.5 certification is highly valued by employers and is recognized globally. NCP-US exam covers a wide range of topics, and passing it demonstrates that the candidate has a deep understanding of Nutanix architecture, storage configuration, data protection, disaster recovery, and troubleshooting.

The NCP-US v6 certification exam is an advanced-level certification that is designed to help IT professionals to expand their skills and knowledge on Nutanix unified storage solutions. Nutanix Certified Professional - Unified Storage v6.5 certification exam covers a wide range of topics, including the architecture and components of Nutanix storage solutions, the deployment of Nutanix storage solutions, the configuration of storage services, and the management of Nutanix storage solutions.

The Nutanix NCP-US Exam is divided into two sections, the first section covers the configuration and management of Nutanix storage, while the second section tests the candidate's knowledge of Nutanix storage architecture. NCP-US exam consists of multiple-choice questions and is designed to be completed in 90 minutes.

New NCP-US Test Topics - Mock NCP-US Exam

We are specializing in the career to bring all our clients pleasant and awarded study experience and successfully obtain their desired certification file. With our NCP-US exam guide, your exam will become a piece of cake. We can proudly claim that you can be ready to pass your NCP-US Exam after studying with our NCP-US study materials for 20 to 30 hours. Since our professional experts simplify the content, you can easily understand and grasp the important and valid information.

Nutanix Certified Professional - Unified Storage v6.5 Sample Questions (Q78-Q83):

NEW QUESTION # 78

When naming an Object Store instance, which two naming rules must be followed? (Choose two.)

- A. Must be unique across all existing object store names in Objects.
- B. Must begin with a number and end with a letter or number.
- C. Must be a minimum of three and a maximum of 32 characters long.
- D. Must begin with a letter, and end with a letter or number.

Answer: C,D

NEW QUESTION # 79

An existing Objects bucket was created for backups with these parameters:

- A) WORM policy of three years
- B) Versioning policy of two years
- C) Lifecycle policy of two years

The customer reports that the cluster is nearly full due to backups created during a recent crypto locker attack. The customer would like to automatically delete backups older than one year to free up space in the cluster.

How should the administrator change settings within Objects?

- A. Modify the existing bucket lifecycle policy from two years to one year.
- B. Modify the existing bucket WORM policy from three years to one year.
- C. Create a new bucket with the WORM policy of two years.
- D. Create a new bucket with the lifecycle policy of one year.

Answer: A

Explanation:

According to Nutanix documentation on unified storage (NCP-US) v6, to automatically delete backups older than one year, an administrator should modify the existing bucket lifecycle policy to set the expiration period to one year. Lifecycle policies enable administrators to automate the transition of objects to different storage classes and to expire them altogether. In this scenario, modifying the existing bucket lifecycle policy to shorten the expiration period to one year will ensure that backups older than one year are automatically deleted to free up space in the cluster.

https://portal.nutanix.com/page/documents/details?targetId=Objects-v3_1:v31-lifecycle-policies-rule-c.html

NEW QUESTION # 80

What is the network requirement for a File Analytics deployment?

- A. Must use the Storage-side network
- B. Must use the Client-side network
- C. Must use the CVM network
- D. Must use the Backplane network

Answer: B

NEW QUESTION # 81

An administrator performed an upgrade to Prism Central. However, after reviewing the configuration, Objects is enabled but was not upgraded to the latest version.

The Objects configuration is showing enabled for the environment and Prism Element has been updated on the cluster. How should the administrator resolve this issue?

- **A. reapply the Prism Central upgrade,**
- B. Perform LCM Inventory and apply updates.
- C. Upgrade NCC and rerun the upgrade.
- D. Restart Objects service and rerun the upgrade.

Answer: A

Explanation:

it seems that reapplying the Prism Central upgrade might resolve this issue. According to the Nutanix Unified Storage v6 documents at nutanix.com¹, Objects is a service that runs on Prism Central and can be upgraded along with Prism Central using LCM².

However, sometimes the upgrade might fail due to network issues or other reasons³. In that case, you can try to reapply the Prism Central upgrade by following these steps⁴:

Log in to Prism Central as an administrator

Go to Settings > Upgrade Software

Click on Reapply Upgrade

Follow the instructions on the screen

NEW QUESTION # 82

An administrator is managing a Nutanix cluster used for Citrix full clone virtual desktops.

Capacity Runway is in a warning state, indicating storage resources may be fully utilized within 90 days, Which action can be performed to increase current capacity?

- A. update resources for constrained VMs,
- B. Power off over- provisioned VMs.
- **C. Enable deduplication at the container level.**
- D. Analyze inefficient VMS and delete the inactive ones.

Answer: C

Explanation:

Deduplication is a data reduction technique that eliminates duplicate blocks of data and reduces the amount of storage space required¹. By enabling deduplication at the container level, the administrator can optimize the storage efficiency and extend the capacity runway of the Nutanix cluster¹.

NEW QUESTION # 83

.....

Our company is a professional certification exam materials provider. We have occupied in this field more than ten years, therefore we have rich experiences in providing valid exam dumps. NCP-US training materials cover most of knowledge points for the exam, and you can improve your professional ability in the process of learning. NCP-US Exam Materials are high-quality, and you can improve your efficiency while preparing for the exam. We offer you free demo for NCP-US exam dumps, you can have a try before buying, so that you can have a deeper understanding of what you are going to buy.
