Salesforce Certified Experience Cloud Consultant Sample Questions (Q181-

Q186):

NEW QUESTION # 181

Cloud Kicks (CK) is launching a new public marketing site. The company expects a large volume of traffic and wants to ensure its site performs well. CK also wants repeat visitors to have the fastest browsing experience possible. What should CK do to get the best performing site?

- A. Disable Visualforce to make all pages switch to Lightning.
- B. Use Next Best Action to predict what content to serve to the user's browser.
- C. Schedule Apex jobs to push content to users' browser caches.
- **D. Enable and configure the Content Delivery Network so that public content is cached.**

Answer: D

Explanation:

The Content Delivery Network (CDN) is a feature that improves the performance of public sites by caching static content, such as images, CSS files, and JavaScript files, on servers that are closer to the site visitors.

This reduces the load on the Salesforce servers and speeds up the page loading time. CK can enable and configure the CDN from Experience Builder settings.

NEW QUESTION # 182

The Experience Cloud site manager of Cloud Kicks has enabled reputation for its community members. As per the recommendation given by the Experience Cloud consultant, a decision was made to use the out of the box features.

Which two things happen automatically when the site manager enables automation? Choose 2 answers

- **A. Inactive and active members are assigned default reputation points.**
- B. Chatter influence is removed from the Contribution section on the Profile page.
- C. Customer portal members gain the ability to provide badges to other members.
- **D. Default point system and set of reputation levels become available.**

Answer: A,D

Explanation:

Reputation is a feature that allows you to reward community members for their contributions and engagement.

When you enable reputation for your community, some things happen automatically, such as:

- * Inactive and active members are assigned default reputation points. Inactive members get zero points, while active members get 10 points.
- * Default point system and set of reputation levels become available. You can use the default point system or customize it to suit your needs. You can also use the default reputation levels or create your own.

NEW QUESTION # 183

A consultant for Cloud Kicks (CK) is asked to build a site for CK customers. As part of this site, a custom object will be used to manage customer subscriptions. These subscriptions will need to leverage advanced sharing rules to ensure that only appropriate customers can see these subscriptions.

Which two user license types should be granted to customers to support this sharing requirement?

Choose 2 answers

- A. Customer Community User
- **B. Partner Community User**
- **C. Customer Community Plus Login User**
- D. Customer Community Login User

Answer: B,C

Explanation:

To support the sharing requirement of using advanced sharing rules for the custom object, CK should grant two user license types to customers: Partner Community User and Customer Community Plus Login User.

These license types allow customers to access custom objects and a subset of standard CRM objects, such as accounts, contacts, cases, and dashboards. These license types also support advanced sharing features, such as role hierarchy, sharing rules, manual

sharing, and Apex sharing.

NEW QUESTION # 184

Northern Trail Outfitters would like to display a different Hero component on the Home page for United States and EMEA. How should an administrator accomplish this?

- A. Use the same page variation for EMEA and include multiple targeted HTML components.
- **B. Create a page variation for EMEA, configure the flexible page layout, and include a different Hero component.**
- C. Create a page variation for EMEA, configure the Theme, and include a different Hero component.
- D. Use the same page variation for EMEA, include multiple Hero components, and target each component.

Answer: B

Explanation:

Page variations allow you to create different versions of a page for different audiences. You can use the flexible page layout to customize the components and layout of each page variation. You can also target each page variation to a specific audience based on criteria such as location, profile, or record type.

NEW QUESTION # 185

Which three topic types can be used in an Aura site?

Choose 3 answers

- A. Deleted Topic
- **B. Navigational Topic**
- **C. Featured Topic**
- D. Content Topic
- **E. Standard Topic**

Answer: B,C,E

Explanation:

Three topic types that can be used in an Aura site are:

* Standard Topic. This is a topic that is created by users or administrators and assigned to content, such as posts, files, or articles.

Users can follow or unfollow standard topics and see the related content on the topic detail page.

* Featured Topic. This is a topic that is selected by administrators to highlight important or popular content on the site. Featured topics appear on the home page or on the topic catalog page of the site.

* Navigational Topic. This is a topic that is used to organize content into categories or subcategories on the site. Navigational topics appear on the navigation menu of the site and allow users to browse content by topic.
