## EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q567-Q572):

### NEW QUESTION # 567

You have a system with 2 identified risks. You determine the probability of one risk occurring is higher than the

- A. Relative likelihood of event
- B. Comparative threat analysis
- C. Risk impact comparison
- D. Controlled mitigation effort

**Answer: A**

Explanation:

Relative Likelihood of Event in Risk Assessment:

When assessing risks, understanding the relative likelihood of events helps prioritize which risks require immediate attention and mitigation.

\* Risk with higher probability should be addressed first, especially if its impact is significant.

Why This Option Is Correct:

It emphasizes the importance of assessing the comparative probability of risks occurring to guide mitigation efforts effectively.

Why Other Options Are Incorrect:

\* A. Controlled Mitigation Effort: Refers to managing mitigation, not comparing probabilities.

\* B. Risk Impact Comparison: Focuses on impact, not probability.

\* D. Comparative Threat Analysis: Examines threats broadly, not specific event likelihoods.

References:

EC-Council emphasizes the use of probability and impact matrices in risk assessments to prioritize actions.

#### NEW QUESTION # 568

The process for management approval of the security certification process which states the risks and mitigation of such risks of a given IT system is called \_\_\_\_\_.

- A. Security certification
- B. Alignment with business practices and goals
- **C. Security accreditation**
- D. Security system analysis

**Answer: C**

#### NEW QUESTION # 569

Scenario: An organization has made a decision to address Information Security formally and consistently by adopting established best practices and industry standards. The organization is a small retail merchant but it is expected to grow to a global customer base of many millions of customers in just a few years.

This global retail company is expected to accept credit card payments. Which of the following is of MOST concern when defining a security program for this organization?

- A. Adherence to local data breach notification laws

#### NEW QUESTION # 571

A company wants to fill a Chief Information Security Officer position. Which of the following qualifications and experience would be MOST desirable in a candidate?

- A. College degree, audit capabilities and complex project management
- B. Multiple references, strong background check and industry certifications
- **C. Industry certifications, technical knowledge and program management skills**
- D. Multiple certifications, strong technical capabilities and lengthy resume

**Answer: C**

## Explanation:

A Chief Information Security Officer (CISO) role requires a balanced skill set that includes industry- recognized certifications (e.g., CISSP, CISM) for credibility, technical knowledge to understand and mitigate risks, and program management skills to oversee security strategies and initiatives. While references, background checks, and audit capabilities are valuable, the combination in B reflects the most desirable qualifications for leading organizational security.
