Updated Exam ZDTA PDF Offer You The Best Test Free | Zscaler Digital Transformation Administrator

P.S. Free 2026 Zscaler ZDTA dumps are available on Google Drive shared by ExamCost: https://drive.google.com/open?id=1JBz6LFht5cwhDmG3MXtjLIsQyhntw549

You can imagine that you just need to pay a little money for our ZDTA exam prep, what you acquire is priceless. So it equals that you have made a worthwhile investment. Firstly, you will learn many useful knowledge and skills from our ZDTA Exam Guide, which is a valuable asset in your life. After all, no one can steal your knowledge. In addition, you can get the valuable ZDTA certificate.

We provide first-rate service on the ZDTA learning prep to the clients and they include the service before and after the sale, 24-hours online customer service and long-distance assistance, the refund service and the update service. The client can try out our and download ZDTA guide materials freely before the sale and if the client have problems about our product after the sale they can contact our customer service at any time. We provide 24-hours online customer service which replies the client's questions and doubts about our ZDTA training quiz and solve their problems.

Our ZDTA study practice materials have so many advantages that basically meet all the requirements of the user. If you have a good comments or suggestions during the trial period, you can also give us feedback in a timely manner. Our ZDTA study materials will give you a benefit, we do it all for the benefits of the user. Our pass rate for ZDTA Training Material is as high as 99% to 100%, which is proved from our loayl customers, and you will be the next to benefit from it. Our ZDTA practice files look forward to your joining in.

Zscaler ZDTA Exam Syllabus Topics:

Topic	Details

Topic 1	• Identity Services: This section of the exam measures skills of Identity and Access Management Engineers and covers foundational identity services including authentication and authorization protocols such as SAML, SCIM, and OIDC. Candidates should understand identity administration tasks and how to manage policies and audit logs within the Zscaler platform.
Topic 2	• Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLS • SSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.
Topic 3	• Access Control Services: This area assesses Security Operations Specialists on implementing access control mechanisms including cloud app control, URL filtering, file type controls, bandwidth controls, and segmentation. It also covers Microsoft 365 policies, private application access strategies, and firewall configurations to protect enterprise resources.
Topic 4	• Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.
Topic 5	• Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.

Zscaler Digital Transformation Administrator Sample Questions (Q36-Q41):

NEW QUESTION # 36
What is the recommended minimum number of App connectors needed to ensure resiliency?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: D

Explanation:
The recommended minimum number of App connectors to ensure resiliency in Zscaler Private Access is 2.
Having at least two App connectors provides redundancy, so if one connector fails or is unavailable, the other can continue to provide access without interruption. This recommendation is critical to maintaining high availability and fault tolerance for internal application access.
The study guide specifies this minimum to ensure continuity and reliability of application access through ZPA.

NEW QUESTION # 37
What are the two types of Alert Rules that can be defined?

- A. ThreatLabZ pre-defined and 3rd party defined
- B. ThreatLabZ pre-defined and customer defined
- C. Snort defined and 3rd party defined
- D. Customer defined and 3rd party defined

Answer: B

Explanation:
Zscaler ships a set of Alert Rules curated and maintained by its ThreatLabZ research team, and administrators can also build their own custom (customer#defined) rules to meet specific organizational needs.

NEW QUESTION # 38

What conditions can be referenced for Trusted Network Detection?

- A. Hostname Resolution, DNS Servers, Geo Location
- B. DNS Search Domain, DNS Server, Hostname Resolution
- C. Hostname Resolution, Network Adapter IP, Default Gateway
- D. DNS Servers, DNS Search Domain, Network Adapter IP

Answer: B

Explanation:
Trusted Network Detection in Zscaler Client Connector can reference DNS Search Domains, DNS Server IPs, and Hostname Resolution (i.e. a hostname and the IP it resolves to) as criteria for determining a trusted network.

NEW QUESTION # 39

What is the name of the feature that allows the platform to apply URL filtering even when a Cloud APP control policy explicitly permits a transaction?

- A. Allow URL Filtering
- B. Allow and Quarantine
- C. Allow Cascading
- D. Allow and Scan

Answer: C

Explanation:
The feature that allows Zscaler to apply URL filtering even when a Cloud App control policy explicitly permits a transaction is calledAllow Cascading. This feature ensures that even if a cloud application is permitted by the Cloud App control policy, the URL filtering policy can still be enforced. This is useful in cases where granular URL control is needed on top of cloud app permissions, providing layered security controls.
The study guide clearly explains that Allow Cascading enables URL filtering policies to cascade or take precedence and thus still inspect and potentially block URLs even if the cloud app is allowed by policy. This allows administrators to fine-tune access and ensure additional inspection layers on web traffic .

NEW QUESTION # 40

Which of the following is a valid action for a SaaS Security API Data Loss Prevention Rule?

- A. Quarantine Mai ware
- B. Create Zero Trust Network Decoy
- C. Remove External Collaborators and Sharable Link
- D. Enable AI/ML based Smart Browser Isolation

Answer: C

Explanation:
In SaaS Security API DLP policies you can choose "Remove External Collaborators and Shareable Link" as the enforcement action
- Zscaler will report the incident, revoke any external collaborators on the file, and delete its external share links.

NEW QUESTION # 41

......

In order to meet the different demands of the different customers, these experts from our company have designed three different versions of the ZDTA reference guide. All customers have the right to choose the most suitable version according to their need after buying our study materials. The PDF version of the ZDTA exam prep has many special functions, including download the demo for free, support the printable format and so on. We can make sure that the PDF version of the ZDTA Test Questions will be very convenient for all people. Of course, if you choose our study materials, you will have the chance to experience our PDF version.
