If the real test questions change, and then we release new version you can download the latest New PL-600 Study Guide any time within one year. We also will provide one year service warranty. Our professional 24-online service staff will be on duty for you any time.

## Microsoft Power Platform Solution Architect Sample Questions (Q197-Q202):

**NEW QUESTION # 197**
You are designing a Microsoft Power Platform solution that will include multiple applications.
You have the following requirements:
- Support agents managing cases.
- Project managers reviewing and updating their projects.
- Stock managers managing warehouses.
- New site visitors self-registering.
- Employees tracking time entries.
Which three requirements can you meet by implementing role-based applications- Each correct answer presents a complete solution.
NOTE: Each correct selection is worth one point.

- A. Staff tracking time entries.

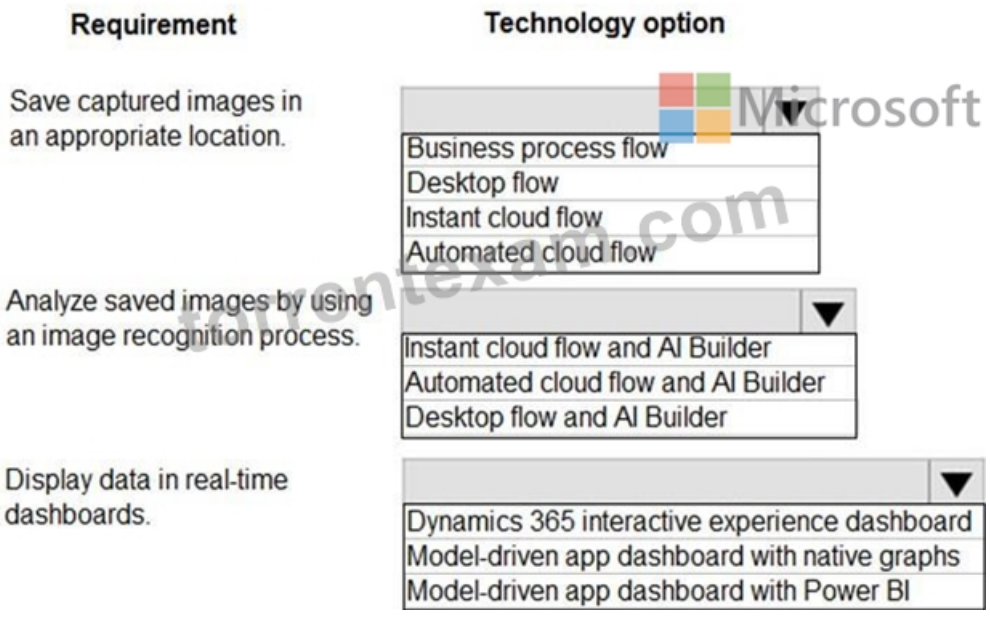
- B. Stock managers managing warehouses.
- C. New site visitors self-registering.
- D. Support agents managing cases.
- E. Project managers reviewing and updating their projects.

**Answer: B,D,E**

Explanation:
Role-based applications allow for different groups of users to have customized access to specific functionality and data based on their roles in the organization. This would enable the support agents, stock managers, and project managers to have access to the specific applications and data they need to perform their job duties efficiently. However, self-registering for new site visitors and time tracking for employees may not require role-based applications.

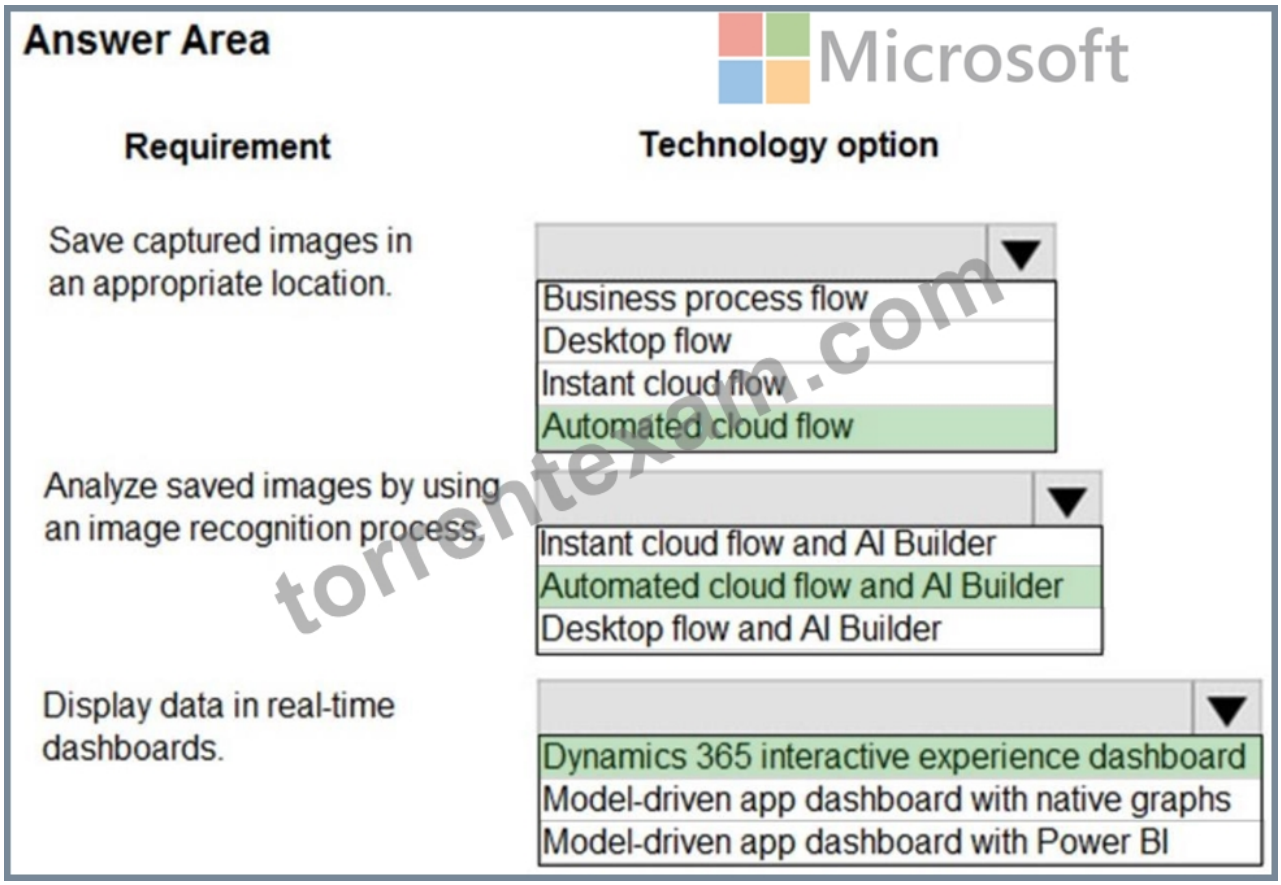
**NEW QUESTION # 198**
Hotspot Question
An animal welfare organization wants to track the movement of wolf packs in a region. Cameras at specific locations capture images when motion is detected within the camera sensor range.
Staff upload the images manually to a shared drive and then analyze the images.
The organization wants to automate image capture and analysis. The organization has the following requirements:
- Save captured images in an appropriate location.
- Analyze saved images by using an image recognition process.
- Display data in real-time dashboards.
You need to recommend the correct technology for the requirements.
What should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

**Answer Area**



**Answer:**

Explanation:



torrentexam.com

Explanation:
Box 1: Automated cloud flow.
Create a cloud flow when you want your automation to be triggered either automatically, instantly, or via a schedule.
Automated flows: Create an automation that is triggered by an event such as arrival of an email from a specific person, or a mention of your company in social media.
Box 2: Automated cloud flow and AI Builder
A cloud flow can be triggered when a new file is added to a cloud service such as onedrive.
Box 3: Dynamics 365 interactive experience dashboard
There is no real-time data in Power BI. We can have very recently refreshed data, but not real time data, so we would have to use the dashboard options within dynamics.

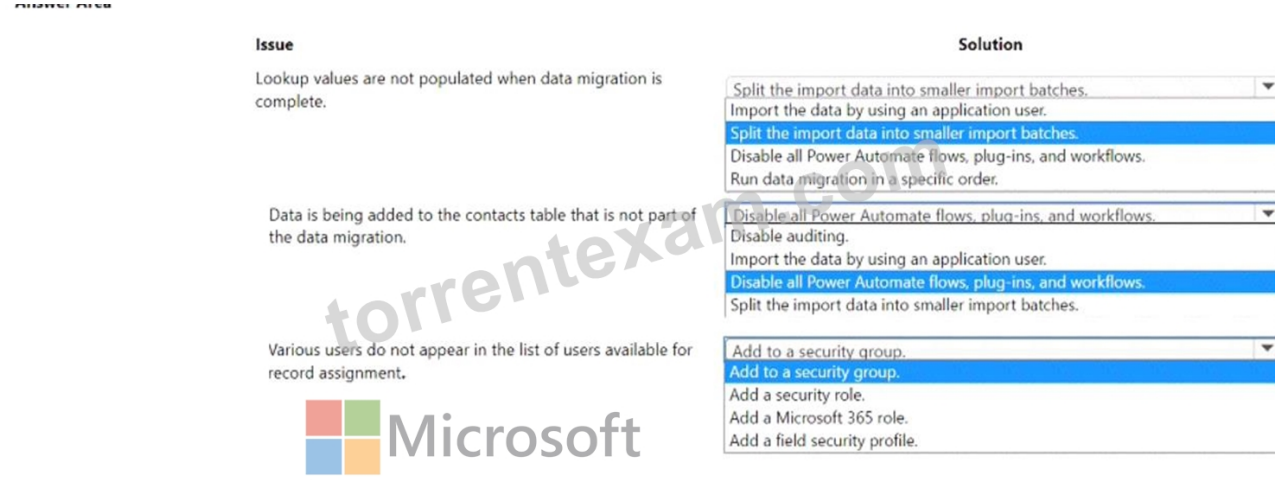
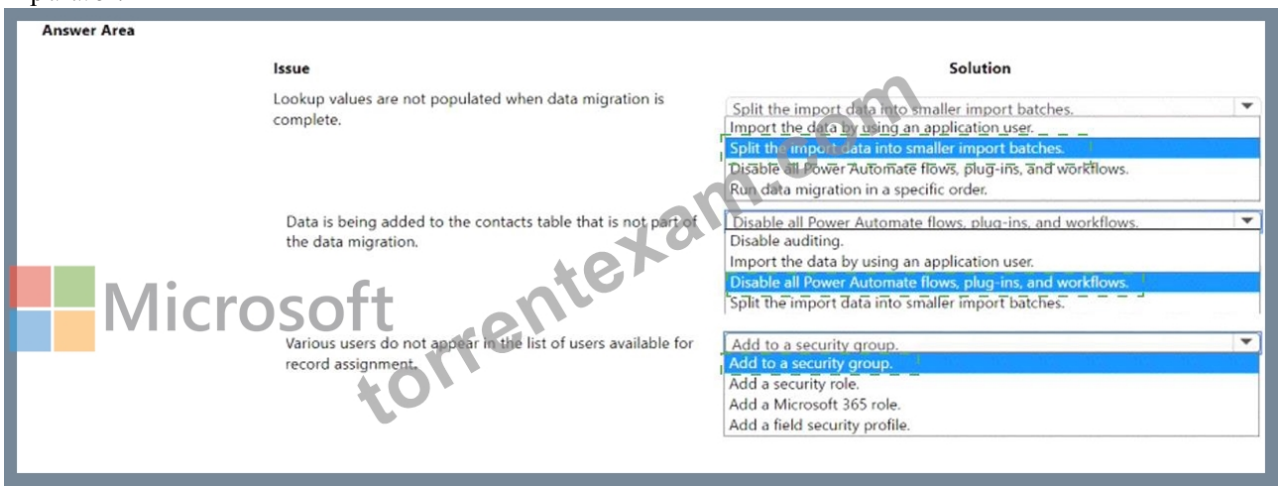
**NEW QUESTION # 199**
You are implementing a Microsoft Power Platform solution for a customer to include data migration from multiple legacy systems. The data includes lead and contact data. The environment includes an assigned security group.
The following issues have occurred during a go-live deployment attempt:
* Lookup values are not populated when data migration is complete.
* Data is being added to the contacts table that is not part of the data migration.
* Various users do not appear in the list of users available for record assignment.
You need to resolve the go-live deployment issues.
How should you resolve the issue? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



**Answer:**

Explanation:



Explanation

**NEW QUESTION # 200**

A company plans to create a Power Apps portal to manage support cases for customers. The company has an account hierarchy for customers. The hierarchy supports accounts, cases, and contacts where both contacts and cases belong to their relevant account.

The company has the following requirements:

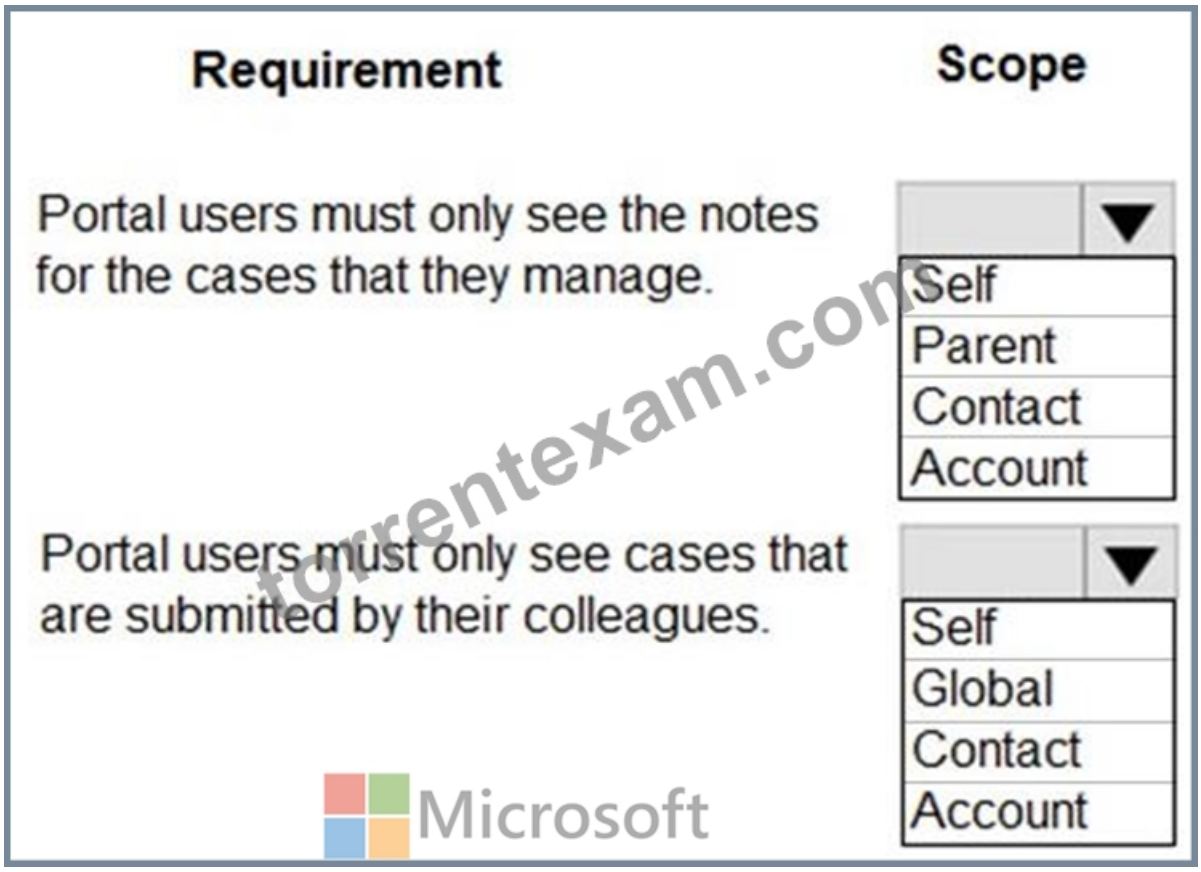
Portal users must only see the notes for the cases that they manage.

Portal users must only see cases that are submitted by their colleagues.

You need to design the security model for the portal.

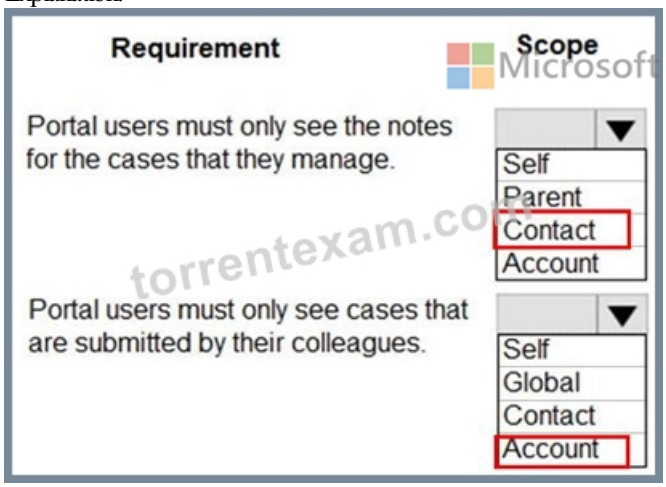
Which entity permission scope should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.



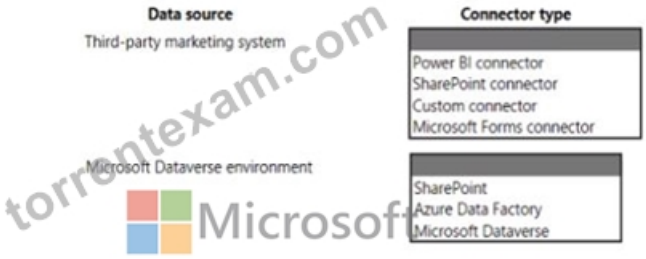
**Answer:**

Explanation:



Reference:
https://docs.microsoft.com/en-us/powerapps/maker/portals/configure/assign-entity-permissions

**NEW QUESTION # 201**
You are designing a model-driven app that provides marketing, sales, and service operations to a company.
The app must integrate with the following systems and data sources:
* A third-party marketing system for lead generation and website submissions.
* A Microsoft Excel Online file that contains manufacturing data on relevant products.
* A separate Microsoft Dataverse environment.
You need to recommend Power Automate connectors for the app.
Which connections should you recommend? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.



**Answer:**

Explanation:

**NEW QUESTION # 202**

.....
