BTW, DOWNLOAD part of PremiumVCEDump MB-335 dumps from Cloud Storage: <https://drive.google.com/open?id=1TxEtATAYQRxS4LeyY6yQbVT478-uBO2>

Once you have selected the MB-335 study materials, please add them to your cart. Then when you finish browsing our web pages, you can directly come to the shopping cart page and submit your orders of the MB-335 study materials. Our payment system will soon start to work. Then certain money will soon be deducted from your credit card to pay for the MB-335 study materials. The whole payment process only lasts a few seconds as long as there has money in your credit card. Then our system will soon deal with your orders according to the sequence of payment. Usually, you will receive the MB-335 Study Materials no more than five minutes. Then you can begin your new learning journey of our study materials. All in all, our payment system and delivery system are highly efficient.

As we all know that, first-class quality always comes with the first-class service. There are also good-natured considerate after sales services offering help on our MB-335 study materials. All your questions about our MB-335 practice braindumps are deemed as prior tasks to handle. So if you have any question about our MB-335 Exam Quiz, just contact with us and we will help you immediately. That is why our MB-335 learning questions gain a majority of praise around the world.

>> Practice MB-335 Exam <<

Maximize Your Success with PremiumVCEDump Customizable Microsoft MB-335 Practice Test

Our MB-335 training materials are sold well all over the world, that is to say our customers are from different countries in the world, taking this into consideration, our company has employed many experienced workers to take turns to work at twenty four hours a day, seven days a week in order to provide the best after sale services on our MB-335 Exam Questions. So as long as you have any question about our MB-335 exam engine you can just feel free to contact our after sale service staffs at any time, and our MB-335 training materials will help you get your certification.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Sample Questions (Q179-Q184):

NEW QUESTION # 179

You need to meet the substitution requirements for User4 and User5.

What must you configure? To answer, drag the appropriate configurations to the correct substitution requirements. Each configuration may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations	Answer Area
To-date, From-date	
Plan group, priority	
Open production order, add to BOM	
Substitution requirement	Configuration
User4	
User5	

Answer:

Explanation:

Configurations	Answer Area
To-date, From-date	
Plan group, priority	
Open production order, add to BOM	
Substitution requirement	Configuration
User4	Open production order, add to BOM
User5	To-date, From-date

Explanation:

Configurations	Answer Area
To-date, From-date	
Plan group, priority	
Open production order, add to BOM	
Substitution requirement	Configuration
User4	Open production order, add to BOM
User5	To-date, From-date

NEW QUESTION # 180

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A manufacturing plant uses Lean processes. You plan to outsource a painting operation to a subcontracting vendor. You create a service item named SP 01 to represent the painting service.

You need to create a subcontracting activity for the painting service.

Solution:

- * Create a vendor warehouse for the subcontracting vendor.
- * Create a vendor resource and add it to a new work cell for outsource painting.
- * Create a production flow transfer activity and specify the vendor warehouse as The target warehouse.

Does the solution meet the goal?

- A. No
- B. Yes

Answer: A

Explanation:

The solution does not meet the goal. Here is the explanation:

To create a subcontracting activity for the painting service, you should use the following steps1:

Create a vendor warehouse for the subcontracting vendor. This step is correct, because you need to create a warehouse that is assigned to the vendor account and set it as vendor-managed1. This way, you can track the inventory that is located at the vendor's site.

Create a vendor resource and add it to a new work cell for outsource painting. This step is correct, because you need to create a resource that is assigned to the vendor account and add it to a resource group that represents the subcontracting work cell1. This

way, you can assign the subcontracting activity to the vendor resource.

Create a production flow transfer activity and specify the vendor warehouse as the target warehouse. This step is incorrect, because you need to create a production flow process activity, not a transfer activity, for the subcontracting service¹. A process activity represents an operation that transforms material into products or semi-finished goods². A transfer activity represents a movement of material or products from one location to another². You also need to specify the service item (SP 01) as the product of the process activity, and select the Generate license plate option on the mobile device menu item that is used for reporting as finished¹.

NEW QUESTION # 181

You need to resolve the ModelIT issue reported by the golf course manager.

Which two features should you configure? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Time-based maintenance plan lines
- B. Counter-based maintenance plan lines
- C. Service subscription
- D. Service type item
- E. Maintenance plan lines for the location

Answer: A,C

NEW QUESTION # 182

A company plans to account for indirect costs related to materials used to manufacture products.

The items used to manufacture products have surcharge rates that depend on the type of product being used.

You need to set up the costing sheet to include surcharges for specific items.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Create cost groups for indirect and direct costs.	>
Assign a surcharge node to items.	
Assign a cost group to the items.	<
Create a node-type surcharge under the indirect cost group and enter the absorption basis and surcharge.	
Assign the cost group for the indirect cost to the route operation.	<

Microsoft

Answer:

Explanation:

Actions
Create cost groups for indirect and direct costs.
Assign a surcharge node to items.
Assign a cost group to the items.
Create a node-type surcharge under the indirect cost group and enter the absorption basis and surcharge.
Assign the cost group for the indirect cost to the route operation.

Answer Area
Create cost groups for indirect and direct costs.
Create a node-type surcharge under the indirect cost group and enter the absorption basis and surcharge.
Assign a cost group to the items.

Microsoft

Explanation:

Create cost groups for indirect and direct costs

Create a node-type surcharge under the indirect cost group and enter the absorption basis and surcharge

Assign a cost group to the items

NEW QUESTION # 183

You need to create the new summer limited edition bicycle in Dynamics 365 in preparation for taking orders. Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions

Create a product for all the bicycles

Release the product to the three legal entities

Release the product to the two legal entities

Release the product variants to the selected legal entities

Create a product for each bicycle combination

Create the BOM

Define the configuration routes and rules

Answer Area

Answer:

Explanation:

Actions

Create a product for all the bicycles

Release the product to the three legal entities

Release the product to the two legal entities

Release the product variants to the selected legal entities

Create a product for each bicycle combination

Create the BOM

Define the configuration routes and rules

Answer Area

Create a product for all the bicycles

Release the product to the two legal entities

Create the BOM

Define the configuration routes and rules

Explanation:

Graphical user interface, text, application, email Description automatically generated

Create a product for all the bicycles

Release the product to the two legal entities

Create the BOM

Define the configuration routes and rules

Topic 4, Case Study 4, Fabrikam inc.

Fabrikam, Inc. Is a discrete manufacturer of outdoor patio furniture. The company originated as a sole owner working from a home garage, then moved into a commercial storage space, and later into a full manufacturing facility. The company operates as two operating legal entities, one in the United States and the other in Mexico.

As the company grew, the existing software systems failed to grow with it. This meant that financial reporting was managed in an outdated accounting system; raw materials planning, production, and inventory control were managed in another system; and cost calculations were tracked in multiple spreadsheets managed by analysts.

Current environment

The Fabrikam, inc. engineering team uses a third-party computer-aided design (CAD) system for drawings.

These drawings are later introduced into one or more companies for sale. A customer service center handles complaint calls and places orders for distributors.

The current system landscape creates a lack of controls and visibility across the systems, leading to overages of some raw materials, shortages on others, and large quantities of scrap. Heavy production volume provides little to no room for system downtime. The staff manually creates production orders, which leads to double work for system entry later. This delay has a ripple effect into the materials planning.

The company currently sources teakwood from India, making it a more expensive and high-end material.

Cedar and redwood are both sourced from the Western US. Truck driver shortages across the nation have caused shipping costs to rise sharply.

Fabrikam, Inc. recently decided to expand into the gas firepit market. All products are currently being prototyped. The company decides that the firepit prototype should be initially available only in the United States. The firepits will be manufactured only in Nevada and Arizona. The firepits are produced as prototyping; this production line operates only on Mondays.

Fabrikam, Inc. has purchased new manufacturing equipment for the firepit metal fabrication. This purchase includes a warranty, which requires that the company perform routine maintenance. Fabrikam, inc. elects to complete the maintenance in house on a quarterly schedule and maintain appropriate records for warranty purposes. The metal fabrication equipment consists of three separate machines used in a single production process.

Fabrikam, Inc. made the decision to move to Dynamics 365 Supply Chain Management.

Application and environment

* Fabrikam, inc. must move systems and processing to software as a service (SaaS) whenever possible because the company does not have enough IT staff to support hardware.

Inventory and costing

* Finished goods fall into three categories:

* Wood furniture (teak, cedar, redwood) o Outdoor heating (firepits, gas heaters)

* Each outdoor heating item with slight variations, such as a chrome or steel finish, must have a unique item number, o Repair parts (nuts and bolts, ignitors, and other parts)

* The system must account for the fact that Fabrikam, inc. must take legal ownership of teakwood at the time of shipment, not at the time of receipt into the warehouse.

* The company must accrue for the costs of the teakwood materials as soon as the company takes ownership.

The company takes ownership at the time of shipment, which is posted prior to physical receipt at the warehouse.

Engineering

* Engineers who specialize in gas consumer goods will design the firepits and are the only users with authority to release the products for sale.

* Engineering must notify customer service of any open orders that may contain a released product version that may be discontinued

or delayed.

* The change request workflow must route to the engineer.

Production

* The raw material and subcomponent goods for the firepit must be managed by the engineer. This means the engineer must oversee any new items, material changes, address problems, and so on.

* The metal fabrication equipment must be tracked at the locations where the firepits are produced.

* The production team must operate on an all-day/everyday model, with each team operating in a 12-hour shift. This is a recent change to keep up with high demand for products, as well as for planning a new product line.

* Raw material and subcomponent items for the firepit prototype must not be available for use until engineering is ready for the prototype product release.

* Due to the production staff schedule, all equipment must be planned according to the staffing.

* Maintenance for each of the three pieces of machinery must be scheduled at the same time so that only the local maintenance technician works on the equipment.

* When the firepits are ready for the test market they must made be available for sale.

* The United States operating company must review any engineering products before they are available for sales or production orders,

* The engineering team must release the engineering product into the United States operating company,

* The engineering BOM lines must not be removed by the United States operating company.

Application and environment

* The operations manager is concerned that system downtime is so frequent that It is impacting efficiency due to the all-day/everyday production operation model.

Inventory and costing

* Fabrikam, inc. marketing campaigns in the desert states of Arizona- Nevada, and New Mexico have led to an increased demand for teakwood furniture to endure weather elements. Supply and demand for this wood lowered expected margins with increased shipping costs and price increases from the vendors.

* User1 reports that the inventory value of the teakwood is not on the financial reports, even though ownership of the product begins at the port of shipment,

* Upon receipt into the physical warehouse, User2 reports that the warehouse workers received less teakwood than the ordered amount on the purchase order.

Engineering and production

* As the firepits are produced and feedback received from the test market, records must be maintained of each revision to the firepit design.

* Firepits must have attributes associated with them to specify the type of gas line that is available for the firepit such as natural gas or propane.

* Customer service is receiving calls that the firepit ignition switch does not always work as expected. This issue was reported through an engineering change request.

* User3 reports resource issues on the production shop floor due to system maintenance issues and other delays. The company does not want User3 or the other workers to stop production.

* User4 reports that a bolt needed for cedar wood furniture is out of stock. A temporary substitution bolt was identified prior to starting the production order.

* User5 reports that a hinge for redwood furniture will be discontinued at the end of the year. Production must reflect an updated part.

* A large order was placed for 1,500 pieces of teakwood furniture and production orders must start as soon as possible.

* Users reports the following:

* Only 100 pieces of furniture can be produced on the night shift due to resourcing. Enough raw materials are on hand to complete 100 pieces, but not enough to produce all 1,500 pieces.

* The production floor is organized into dedicated production lines, each with their own warehouse. The warehouse workers must pick the raw materials to the correct warehouse location.

NEW QUESTION # 184

.....

PremiumVCEDump expect to design such an efficient study plan to help you build a high efficient learning attitude for your further development. Our MB-335 study torrent are cater every candidate no matter you are a student or office worker, a green hand or a staff member of many years' experience. Therefore, you have no need to worry about whether you can pass the MB-335 Exam, because we guarantee you to succeed with our technology strength. The language of our MB-335 exam questions are easy to follow and the pass rate of our MB-335 learning guide is as high as 99% to 100%.

Reliable MB-335 Exam Syllabus: <https://www.premiumvcedump.com/Microsoft/valid-MB-335-premium-vce-exam-dumps.html>

To satisfy your curiosity of our MB-335 download pdf, we provided some demos for free for your reference, Microsoft Practice MB-335 Exam Our customer service serve for you 24 hours online, Firstly, there is a special customer service center built to serve our Reliable MB-335 Exam Syllabus - Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert test questions users at any aspects and at any time, A lot of my friends from IT industry in order to pass Microsoft certification MB-335 exam have spend a lot of time and effort, but they did not choose training courses or online training, so passing the exam is so difficult for them and generally, the disposable passing rate is very low.

Buy the MB-335 test preparation material now and start your journey towards success in the MB-335 examination. When you launch an application that isn't in the Dock, its icon will appear in the Dock.

Free PDF Reliable Microsoft - MB-335 - Practice Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert Exam

To satisfy your curiosity of our MB-335 Download Pdf, we provided some demos for free for your reference, Our customer service serve for you 24 hours online.

Firstly, there is a special customer service center built to serve our Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert MB-335 test questions users at any aspects and at any time, A lot of my friends from IT industry in order to pass Microsoft certification MB-335 exam have spend a lot of time and effort, but they did not choose training courses or online training, so passing the exam is so difficult for them and generally, the disposable passing rate is very low.

With MB-335 exam torrent materials of high public credibility and efficiency, you are on the journey to success.
