

Study CDCP Group - CDCP Exam Discount Voucher

P.S. Free & New CDCP dumps are available on Google Drive shared by Exam4Tests: <https://drive.google.com/open?id=18MvwV9e8vxE3tjgwsNVG5EXo3Oizv->

How far the distance between words and deeds? It depends to every person. If a person is strong-willed, it is close at hand. I think you should be such a person. Since to choose to participate in the EXIN CDCP certification exam, of course, it is necessary to have to go through. This is also the performance that you are strong-willed. Exam4Tests EXIN CDCP Exam Training materials is the best choice to help you pass the exam. The training materials of Exam4Tests website have a unique good quality on the internet. If you want to pass the EXIN CDCP exam, you'd better to buy Exam4Tests's exam training materials quickly.

EXIN CDCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Physical Security and Safety: Sub-topics are about physical security considerations and physical safety considerations.
Topic 2	<ul style="list-style-type: none">Power Infrastructure: It focuses ATS and STS systems, redundancy levels and techniques, static and dynamic UPS systems, battery types, thermo-graphics, and renewable energy factor (REF).
Topic 3	<ul style="list-style-type: none">Water Supply: This topic is all about water supply techniques and application areas.
Topic 4	<ul style="list-style-type: none">Electro Magnetic Fields: The topic deals with effects of EMF on human health and equipment (H)EMP, standards, and EMF shielding solutions.
Topic 5	<ul style="list-style-type: none">Equipment Racks: It discusses power railstrip options, security considerations, and rack standards, properties and selection criteria.
Topic 6	<ul style="list-style-type: none">Raised FloorSuspended Ceiling: The topic discusses applicable standards, signal reference grid, and disability act and regulations.
Topic 7	<ul style="list-style-type: none">Auxiliary Systems: The topic covers water leak detection systems, data centre monitoring requirements, EMS, BMS and DCIM.
Topic 8	<ul style="list-style-type: none">Data Centre Location, Building and Construction: It focuses on appropriate sites and components of an effective data centre and supporting facilities setup.

CDCP Exam Discount Voucher | CDCP Reliable Exam Questions

You can get an idea about the actual CDCP test pattern and CDCP exam questions. It will also assist you to enhance your EXIN CDCP exam time management skills. You can easily use all these three CDCP exam questions format. These formats are compatible with all devices, operating systems, and the latest browsers. All three EXIN CDCP Exam Questions formats are easy to use and compatible with all devices, operating systems, and the latest browsers.

EXIN Certified Data Centre Professional (CDCP) Sample Questions (Q30-Q35):

NEW QUESTION # 30

Which of statements below is true?

- A. Single-mode cabling can use both LED and laser as a light source.
- **B. Single-mode cabling is more expensive than multi-mode cabling.**
- C. Multi-mode cabling can cross longer distances.
- D. Multi-mode cabling is more expensive than single-mode cabling.

Answer: B

Explanation:

Single-mode cabling and multi-mode cabling are two types of fiber optic cables that differ in their core diameter, wavelength, light source, bandwidth, distance, and cost. Single-mode cabling has a smaller core diameter and uses a laser as a light source, which enables it to transmit data over longer distances and higher bandwidths. However, single-mode cabling is also more expensive than multi-mode cabling, because it requires more precise alignment and splicing, and more costly light sources and connectors. Multi-mode cabling has a larger core diameter and uses LEDs or VCSELs as a light source, which makes it cheaper and easier to install and maintain. However, multi-mode cabling also has a shorter distance and lower bandwidth than single-mode cabling, because it suffers from more modal dispersion and attenuation.

NEW QUESTION # 31

When dealing with glass door racks, cold air is injected into the rack from:

- A. The top of the rack through the fans and vents mounted inside the rack.
- **B. The rear door in a downflow direction.**
- C. The bottom of the rack.
- D. The front door in a downflow direction.

Answer: B

NEW QUESTION # 32

Do I need to check the local standards if I already comply to international standards?

- A. Data centres only need to comply to international standards since they are connected to a worldwide international network infrastructure.
- B. Compliance to only international standards is good enough as most local standards are derived from international standards.
- **C. You need to check the local standards to ensure compliance to these standards.**
- D. Local standards do not to be checked as some countries have too many local standards, which will slow down the data centre construction.

Answer: C

Explanation:

Data centre design and infrastructure standards can vary from country to country, depending on the local regulations, codes, and practices. Therefore, it is important to check the local standards before designing, building, or operating a data centre in a specific location. Compliance to only international standards may not be sufficient or adequate to meet the local requirements, which could result in legal, financial, or operational risks. For example, some countries may have stricter fire safety, environmental, or energy

efficiency standards than the international ones. Some countries may also have different electrical standards, such as voltage, frequency, or plug types. By checking the local standards, you can ensure that your data centre is compliant, safe, and efficient in the local context.

Is a changing coming?8, page 1, section 1

NEW QUESTION # 33

By what are magnetic fields of the type 'H' or 'B' created?

- A. Magnetic fields are created when there is a high level of common mode noise (CMN); the greater the common mode noise (CMN), the stronger the magnetic field.
- B. Magnetic fields are created by the magnetic flux of the earth which varies per month.
- C. Magnetic fields are created by voltage; the greater the voltage, the stronger the magnetic field.
- **D. Magnetic fields are created when an electric current flows; the greater the current, the stronger the magnetic field.**

Answer: D

Explanation:

According to the CDCP Preparation Guide1, magnetic fields of the type 'H' or 'B' are created when an electric current flows through a conductor, such as a wire or a coil. The magnetic field strength 'H' is proportional to the current 'I' and the number of turns 'N' of the coil, and inversely proportional to the length

'l' of the coil. The magnetic flux density 'B' is proportional to the magnetic field strength 'H' and the permeability " μ " of the medium in which the magnetic field exists. The greater the current, the stronger the magnetic field and the magnetic flux density. The relationship between 'H', 'B', 'I', 'N', 'l', and " μ " can be expressed by the following equations:

$$H = \frac{NI}{l}$$

$$B = \mu H$$

NEW QUESTION # 34

Which Class of Fires involves cooking appliances?

- **A. Class K**
- B. Class A
- C. Class B
- D. Class C

Answer: A

Explanation:

According to the EPI Data Centre Professional (CDCP) Preparation Guide, Class K fires involve cooking appliances that use combustible cooking media such as vegetable or animal oils and fats (page 28). Class K fires require special extinguishing agents that can suppress the high-temperature flames and prevent re-ignition. Class K fires are different from Class B fires, which involve flammable liquids such as gasoline, oil, or paint.

NEW QUESTION # 35

.....

The most important thing for preparing the CDCP exam is reviewing the essential point. Some students learn all the knowledge of the test. They still fail because they just remember the less important point. In order to service the candidates better, we have issued the CDCP test engine for you. Our company has accumulated so much experience about the test. So we can predict the real test

precisely. Almost half questions and answers of the real exam occur on our CDCP practice material. That means if you study our study guide, your passing rate is much higher than other candidates. Preparing the CDCP exam has shortcut. From now, stop learning by yourself and try our test engine. All your efforts will pay off one day.
