## Reliable DA0-001 Dumps Files & Valid DA0-001 Test Duration

The DA0-001 web-based practice exam requires no installation so you can start your preparation instantly right after you purchase. With thousands of satisfied customers around the globe, questions of the CompTIA Data+ Certification Exam (DA0-001) exam dumps are real so you can pass the CompTIA Data+ Certification Exam (DA0-001) certification on the very first attempt. Hence, it reduces your chances of failure and you can save money and time as well. CompTIA exam questions come in three formats i.e., web-based practice test, desktop practice test software, and PDF dumps.

## CompTIA Data+ Certification Exam Sample Questions (Q259-Q264):

### NEW QUESTION # 259

A data analyst is developing a dashboard to track and monitor metrics. Which of the following best practices should be taken into during the FIRST pment process?

- **A. Create a A Aupirarrame:**
- B. Deploy to production.
- C. Develop a dashboard.
- D. Copy a dashboard design from the Internet.

**Answer: A**

Explanation:

A dashboard is a graphical display that summarizes and presents key performance indicators (KPIs) and metrics for a business or a project. A dashboard should be clear, concise, and easy to understand. To develop a dashboard, one of the best practices is to create a wireframe or a mockup first. A wireframe or a mockup is a low-fidelity sketch or prototype of the dashboard layout and design, which helps to define the scope, requirements, and functionality of the dashboard. Creating a wireframe or a mockup can help to save time and resources, as well as to get feedback from stakeholders and users before deploying the dashboard to production. Therefore, the correct answer is A. Reference: [Dashboard Design Best Practices: 4 Key Principles | Toptal], [How to Create an Effective Dashboard (with Examples) | Tableau]

### NEW QUESTION # 260

An analyst needs to summarize the number of people in Chicago in 2022 using the following set of data:

Name	City	Year	Grade
Chloe	Chicago	2022	A
Blake	Chicago	2023	B
Carter	Chicago	2022	A
Kim	Detroit	2021	C

Which of the following steps should the analyst use to provide results? (Select two).

- A. Sorting
- **B. Aggregation**
- C. Replacing
- **D. Filtering**
- E. Cleaning
- F. Indexing

**Answer: B,D**

### NEW QUESTION # 261

A data analyst wants to create "Income Categories" that would be calculated based on the existing variable "Income". The "Income Categories" would be as follows:

Income category 1: less than \$1.

Income category 2: more than \$1 and less than \$20,000.

Income category 3: more than \$20,001 and less than \$40,000.

Income category 4: more than \$40,001.

Which of the following data manipulation techniques should the data analyst use to create "Income Categories"?

- A. Data merge
- B. Data blending
- **C. Derived variables**
- D. Data append

**Answer: C**

Explanation:

Explanation

The correct answer is B: Derived variables. Derived variables are variables that you create by calculating or categorizing variables that already exist in your data set.

Data merge is incorrect. Data merging is the process of combining two or more data sets into a single data set.

Data blending is incorrect.

Data blending involves pulling data from different sources and creating a single, unique, dataset for visualization and analysis.

Data append is incorrect. A data append is a process that involves adding new data elements to an existing database.

### NEW QUESTION # 262

Which of the following should be accomplished NEXT after understanding a business requirement for a data analysis report?

- A. Build a mock dashboard/presentation layout.
- B. Rephrase the business requirement.
- C. Perform exploratory data analysis.
- **D. Determine the data necessary for the analysis**

**Answer: D**

Explanation:

Explanation

The next step after understanding a business requirement for a data analysis report is to determine the data necessary for the analysis. This step involves identifying the data sources, variables, metrics, and dimensions that are relevant and sufficient to answer the business question or problem. This step also involves assessing the availability, quality, and accessibility of the data, and planning how to collect, clean, and prepare the data for analysis. The other options are not the next steps after understanding a business requirement, but rather subsequent steps in the data analysis process. Rephrasing the business requirement is a step that can help clarify and refine the business question or problem before determining the data necessary for the analysis.

Building a mock dashboard/presentation layout is a step that can help design and visualize the report before performing the data analysis. Performing exploratory data analysis is a step that can help explore and summarize the data before drawing conclusions and recommendations from the data. Reference: Data Analysis Process - DataCamp

### NEW QUESTION # 263

A data analyst needs to present the results of an online marketing campaign to the marketing manager. The manager wants to see the most important KPIs and measure the return on marketing investment. Which of the following should the data analyst use to BEST communicate this information to the manager?

- A. A spreadsheet of the raw data from all marketing campaigns and channels
- **B. A summary with statistics, conclusions, and recommendations from the data analyst**
- C. A self-service dashboard that allows the manager to look at the company's annual budget performance
- D. A real-time monitor that allows the manager to view performance the day the campaign was launched

**Answer: B**

Explanation:

Explanation

A summary with statistics, conclusions, and recommendations from the data analyst is the best way to communicate the results of an online marketing campaign to the marketing manager. A summary can provide a concise and clear overview of the most important KPIs and measure the return on marketing investment, as well as highlight the main findings and insights from the data analysis. A summary can also include actionable suggestions and best practices for improving the campaign performance and achieving the marketing objectives. A summary is different from other options, such as a real-time monitor, a self-service dashboard, or a spreadsheet of raw data, which may not provide enough context, interpretation, or guidance for the manager.

Therefore, the correct answer is D. References: How to Write a Data Analysis Report: 6 Essential Tips, How to Write a Marketing Report (with Pictures) - wikiHow

### NEW QUESTION # 264

.....

Our company never sets many restrictions to the DA0-001 exam question. Once you pay for our study materials, our system will automatically send you an email which includes the installation packages. You can conserve the DA0-001 real exam dumps after you

have downloaded on your disk or documents. Whenever it is possible, you can begin your study as long as there has a computer. In addition, all installed DA0-001 study tool can be used normally. In a sense, our DA0-001 Real Exam dumps equal a mobile learning device. We are not just thinking about making money. Your convenience and demands also deserve our deep consideration. At the same time, your property rights never expire once you have paid for money. So the DA0-001 study tool can be reused after you have got the DA0-001 certificate. You can donate it to your classmates or friends. They will thank you so much.
