

DA0-002 Exam Cost & DA0-002 Valid Dumps Ebook

BONUS!!! Download part of Test4Sure DA0-002 dumps for free: <https://drive.google.com/open?id=1FB2XLXIYpjB8lh8ZdPcsagdWmDo5tZk>

The Test4Sure product here is better, cheaper, higher quality and unlimited for all time; kiss the days of purchasing multiple CompTIA braindumps repeatedly, or renewing DA0-002 training courses because you ran out of time. Now you can learn DA0-002 skills and theory at your own pace and anywhere you want with top of the DA0-002 braindumps, you will find it's just like a piece of cake to pass DA0-002 exam.

The DA0-002 exam questions are the ideal and recommended study material for quick and easiest CompTIA Data+ Exam (2025) (DA0-002) exam dumps preparation. The CompTIA Data+ Exam (2025) (DA0-002) practice questions are designed and verified by qualified and renowned CompTIA Certification Exams trainers. They work closely and check all CompTIA DA0-002 Exam Dumps step by step. They also ensure the best possible answer for all DA0-002 exam questions and strive hard to maintain the top standard of CompTIA Data+ Exam (2025) (DA0-002) exam dumps all the time.

Quiz 2025 DA0-002: CompTIA Data+ Exam (2025) – High-quality Exam Cost

You can use this CompTIA Data+ Exam (2025) (DA0-002) practice exam software to test and enhance your CompTIA Data+ Exam (2025) (DA0-002) exam preparation. Your practice will be made easier by having the option to customize the CompTIA in DA0-002 exam dumps. Only Windows-based computers can run this CompTIA DA0-002 Exam simulation software. The fact that it runs without an active internet connection is an incredible comfort for users who don't have access to the internet all the time.

CompTIA Data+ Exam (2025) Sample Questions (Q10-Q15):

NEW QUESTION # 10

A data analyst learns that a report detailing employee sales is reflecting sales only for the current month. Which of the following is the most likely cause?

- A. Lack of permissions
- B. Report refresh failure
- C. An error in SQL code
- D. Connectivity issues

Answer: C

Explanation:

This question falls under the Data Analysis domain, focusing on troubleshooting issues in data reports. The report should show all employee sales but is limited to the current month, suggesting a data retrieval issue.

* Lack of permissions (Option A): Permissions issues would likely prevent access entirely, not limit data to the current month.

* An error in SQL code (Option B): The report likely uses an SQL query to retrieve data, and an error (e.g., a WHERE clause filtering for the current month) could restrict the data to the current month, making this the most likely cause.

* Report refresh failure (Option C): A refresh failure would result in outdated data, not specifically current-month data.
* Connectivity issues (Option D): Connectivity issues would likely prevent the report from running, not limit it to a specific time frame.
The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods using SQL queries," and errors in SQL code are a common cause of incorrect data retrieval in reports.
Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 11

A sales manager wants to understand how sales are trending year over year. Which of the following chart types is the most appropriate to display the information?

- A. Bubble
- B. Hierarchy
- C. Donut
- **D. Line**

Answer: D

Explanation:

This question falls under the Visualization and Reporting domain, focusing on selecting the appropriate visualization for a specific data trend. The task is to show sales trends over time (year over year).

* Line (Option A): Line charts are ideal for displaying trends over time, such as year-over-year sales, as they clearly show changes and patterns across a continuous time axis.

* Donut (Option B): Donut charts show proportions or percentages of a whole, not suitable for time-based trends.

* Bubble (Option C): Bubble charts display three dimensions of data (e.g., size, x-axis, y-axis), not ideal for simple time trends.

* Hierarchy (Option D): Hierarchy charts (e.g., treemaps) show nested relationships, not time-based trends.

The DA0-002 Visualization and Reporting domain emphasizes "translating business requirements to form the appropriate visualization," and a line chart is best for time-series trends.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 4.0 Visualization and Reporting.

NEW QUESTION # 12

Which of the following allows a data analyst to send out a spreadsheet containing sensitive information without revealing personal details?

- **A. Redacting all PII**
- B. Encrypting the spreadsheet
- C. Adding access controls to the ID column
- D. Using a UUID in the data file

Answer: A

Explanation:

This question pertains to the Data Governance domain, focusing on data privacy and security. The task is to share a spreadsheet with sensitive information while protecting personal details.

* Using a UUID in the data file (Option A): A UUID (Universally Unique Identifier) can anonymize records, but if other PII (e.g., names) remains, personal details are still exposed.

* Redacting all PII (Option B): Redacting personally identifiable information (PII) removes sensitive details (e.g., names, addresses), ensuring personal information isn't revealed while sharing the spreadsheet.

* Adding access controls to the ID column (Option C): Access controls limit who can view the data, but the question focuses on the spreadsheet content itself, not access.

* Encrypting the spreadsheet (Option D): Encryption protects the file during transmission, but once opened, personal details are still visible unless redacted.

The DA0-002 Data Governance domain includes "data privacy concepts," and redacting PII is the most direct method to protect personal details in a shared spreadsheet.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 5.0 Data Governance.

NEW QUESTION # 13

A company gives users adequate data access permissions to allow them to fulfill their duties but nothing more. Which of the following

concepts best describes this practice?

- A. Zero Trust
- B. Active Directory
- C. Hierarchical access
- **D. Least privilege**

Answer: D

Explanation:

This question pertains to the Data Governance domain, focusing on data security and access control principles. The company restricts access to the minimum needed for duties, which aligns with a specific security concept.

* Active Directory (Option A): Active Directory is a tool for managing users and permissions, not a concept.

* Hierarchical access (Option B): Hierarchical access implies access based on roles in a hierarchy, but it doesn't specifically focus on minimal access.

* Zero Trust (Option C): Zero Trust requires continuous verification for all access, which is broader than just minimal permissions.

* Least privilege (Option D): Least privilege ensures users have only the permissions necessary for their duties, which matches the scenario.

The DA0-002 Data Governance domain includes "data privacy concepts," and least privilege is a fundamental principle for secure access control.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 5.0 Data Governance.

NEW QUESTION # 14

A table contains several rows of cellular numbers with call timestamps, call durations, called numbers, and carriers of the called number. Which of the following allows a data analyst to sort the cellular numbers based on the carriers of the called numbers and include the total call durations?

- A. `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number ORDER BY called_number_carrier;`
- B. `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier;`
- **C. `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number, called_number_carrier ORDER BY called_number_carrier;`**
- D. `SELECT cellular_number, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier;`

Answer: C

Explanation:

This question falls under the Data Analysis domain of CompTIA Data+ DA0-002, focusing on SQL queries for data analysis. The task requires sorting cellular numbers by the carrier of the called number (called_number_carrier) and calculating the total call durations (SUM(call_duration)).

* Option A: `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number ORDER BY called_number_carrier` This query groups by cellular_number only, but called_number_carrier is in the SELECT clause without being in the GROUP BY, which is invalid in SQL (it would raise an error in most databases).

* Option B: `SELECT cellular_number, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier` This query doesn't include called_number_carrier in the SELECT clause, so it cannot be used in the ORDER BY clause, making it invalid. Grouping by call_duration also doesn't align with the task.

* Option C: `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY cellular_number, called_number_carrier ORDER BY called_number_carrier` This query correctly groups by both cellular_number and called_number_carrier (since both are in the SELECT clause), calculates the total call duration with SUM(call_duration), and sorts by called_number_carrier as required.

* Option D: `SELECT cellular_number, called_number_carrier, SUM(call_duration) FROM calls GROUP BY call_duration ORDER BY called_number_carrier` Grouping by call_duration is incorrect because cellular_number and called_number_carrier are in the SELECT clause but not in the GROUP BY, making this query invalid.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods using SQL queries," and Option C correctly aggregates and sorts the data as specified.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 15

.....

Do you want to use your spare time to get DA0-002 exam certification? The PDF version of our DA0-002 exam materials provided by us can let you can read anytime and anywhere. We also provide online version and the software version. The content of different version is diverse, and every of them have their own advantages. You can download the version of the DA0-002 Exam Materials to try and find the version that satisfies you.
