

Quiz 2026 CompTIA DA0-002: Fantastic CompTIA Data+ Exam (2025) Reliable Exam Papers

P.S. Free & New DA0-002 dumps are available on Google Drive shared by PDFVCE: https://drive.google.com/open?id=1G3BGJK8V53_I631kMFjwXDsmByGeg0

You can use this DA0-002 practice exam software to test and enhance your CompTIA Data+ Exam (2025) (DA0-002) exam preparation. Your practice will be made easier by having the option to customize the DA0-002 Exam Dumps. The fact that it runs without an active internet connection is an incredible comfort for users who don't have access to the internet all the time.

CompTIA DA0-002 Exam Syllabus Topics:

| Topic | Details |
|---------|--|
| Topic 1 | <ul style="list-style-type: none">• Data Mining: This section of the exam measures skills of a Business Intelligence Analyst and covers how data is collected, cleaned, and prepared for analysis. It explains methods like ETL and ELT for data integration, as well as web scraping, API use, and survey data collection. Candidates are expected to identify issues like missing or duplicated data and apply techniques like filtering, sorting, merging, and normalizing. The section also touches on query optimization strategies to improve data handling efficiency. |
| Topic 2 | <ul style="list-style-type: none">• 5.0 Data Governance, Quality, and Controls |
| Topic 3 | <ul style="list-style-type: none">• Visualization: This section of the exam measures skills of a Data Visualisation Specialist and focuses on turning raw data into clear, visual insights. It teaches how to match visual formats like bar charts, heat maps, and line graphs to specific audiences and needs. Candidates must understand how to create dashboards and reports using proper design elements such as labels, layout, branding, and colour schemes. This section also includes best practices for dashboard development and delivery through various platforms and user access levels. |
| Topic 4 | <ul style="list-style-type: none">• Data Concepts and Environments: This section of the exam measures the skills of a Junior Data Analyst and focuses on understanding core data concepts such as database types, schema structures, and data formats. It highlights differences between structured and unstructured data, compares file types like CSV, JSON, and XML, and introduces key ideas about data dimensions and slowly changing dimensions. Knowing how data is stored and organized helps professionals better prepare for analysis and reporting tasks. |

Quiz 2026 Authoritative CompTIA DA0-002 Reliable Exam Papers

You know, the DA0-002 certification is tough and difficult IT certification. In order to get a better life, many people as you still want

to chase after it. There is a useful and reliable study material of CompTIA DA0-002 actual test for you. The DA0-002 Pdf Dumps will teach you the basic technology and tell you how to affectively prepare for the DA0-002 real test. In a word, DA0-002 updated dumps is the best reference for you preparation.

CompTIA Data+ Exam (2025) Sample Questions (Q118-Q123):

NEW QUESTION # 118

Which of the following AI types is the best option for time-series forecasting?

- A. Natural language processing
- **B. Foundational models**
- C. Robotic process automation
- D. Generative AI

Answer: B

Explanation:

Foundational models are large AI models trained on vast amounts of data, often exhibiting strong generalization capabilities. While not specifically architected for time-series, their ability to learn complex patterns could potentially be leveraged for forecasting tasks through fine-tuning or specialized architectures built upon them.

In reality, the best AI types specifically designed for time-series forecasting include:

- * Recurrent Neural Networks (RNNs), especially LSTMs and GRUs: These architectures are designed to handle sequential data and capture temporal dependencies.
- * Transformer Networks: Originally developed for NLP, Transformers have shown remarkable success in time-series forecasting due to their ability to capture long-range dependencies.
- * Traditional statistical models: ARIMA, Exponential Smoothing, and other statistical methods remain powerful and interpretable options for time-series analysis.

Therefore, while "foundational models" have some potential, it's important to understand that they aren't the primary or specifically designed AI type for time-series forecasting.

NEW QUESTION # 119

Which of the following data repositories stores unaltered data?

- A. Data table
- B. Data factory
- **C. Data lake**
- D. Data warehouse

Answer: C

Explanation:

This question falls under the Data Concepts and Environments domain, focusing on data repositories. The task is to identify a repository that stores data in its original, unaltered form.

* Data lake (Option A): A data lake stores raw, unaltered data in its native format (structured, semi-structured, or unstructured), making it the correct choice.

* Data warehouse (Option B): A data warehouse stores processed, structured data, often transformed for analysis, not unaltered.

* Data table (Option C): A data table is a structure within a database, not a repository, and may contain altered data.

* Data factory (Option D): A data factory (e.g., Azure Data Factory) is a data integration service, not a repository for storing data. The DA0-002 Data Concepts and Environments domain includes understanding "different types of databases and data repositories," and a data lake is designed to store unaltered data.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 1.0 Data Concepts and Environments.

NEW QUESTION # 120

A data analyst is preparing a survey for Paralympic Games athletes. Which of the following should the analyst consider when creating this survey?

- A. Refresh speed
- B. Granularity
- C. Idioms

- **D. Color contrast**

Answer: D

Explanation:

This question pertains to the Visualization and Reporting domain, focusing on survey design considerations, particularly for accessibility. The survey is for Paralympic athletes, who may have visual impairments, requiring specific design considerations.

* Idioms (Option A): Idioms (e.g., colloquial phrases) might confuse non-native speakers, but they're not a primary survey design concern for Paralympic athletes.

* Color contrast (Option B): High color contrast ensures readability for athletes with visual impairments (e.g., color blindness), a critical accessibility consideration for Paralympic surveys.

* Refresh speed (Option C): Refresh speed is relevant for dashboards, not static surveys.

* Granularity (Option D): Granularity refers to data detail levels, not a survey design consideration.

The DA0-002 Visualization and Reporting domain includes "translating business requirements to form the appropriate visualization," and color contrast is a key accessibility factor in survey design for diverse audiences.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 4.0 Visualization and Reporting.

NEW QUESTION # 121

A data company needs a visualization that shows the availability zones from the last ten years and any future availability zones that the company will be using in the next five years. Which of the following is the most appropriate visualization to display this information?

- A. Bar chart
- **B. Map**
- C. Mosaic plot
- D. Pie chart

Answer: B

Explanation:

This question falls under the Visualization and Reporting domain of CompTIA Data+ DA0-002, focusing on selecting the appropriate visualization for a specific dataset. The task is to show availability zones over a

15-year period (past and future), which involves a geographical element since availability zones are typically location-based.

* Bar chart (Option A): Bar charts are good for comparing categorical data but don't effectively show geographical locations or time-based trends across zones.

* Mosaic plot (Option B): Mosaic plots display relationships between categorical variables, not suitable for geographical or time-series data.

* Map (Option C): A map can display availability zones geographically, with annotations or layers to show changes over time (past 10 years and future 5 years), making it the most appropriate visualization.

* Pie chart (Option D): Pie charts show proportions of a whole, not suitable for geographical or time-based data.

The DA0-002 Visualization and Reporting domain emphasizes "translating business requirements to form the appropriate visualization," and a map is the best choice for displaying geographical availability zones over time.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 4.0 Visualization and Reporting.

NEW QUESTION # 122

A data analyst deployed a report for public access. A user states that the report is not showing the latest information, even though the user updated the source an hour ago. Which of the following should the data analyst check first?

- A. Report corruption
- B. Event log
- **C. Database connection**
- D. User privileges

Answer: C

Explanation:

This question pertains to the Data Governance domain, focusing on troubleshooting data freshness issues in reports. The report isn't showing the latest data despite a recent source update, indicating a potential refresh or connectivity issue.

* Event log (Option A): Event logs might provide insight into errors, but they're not the first step for checking data freshness.

- * User privileges (Option B): Privileges might affect access, but the user can see the report, so this isn't the issue.
 - * Database connection (Option C): If the database connection failed or isn't refreshing properly, the report won't reflect the latest data, making this the first thing to check.
 - * Report corruption (Option D): Corruption might cause errors, but it's less likely than a connectivity issue for this scenario. The DA0-002 Data Governance domain includes "data quality control concepts," such as ensuring data freshness by verifying database connections.
- Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 5.0 Data Governance.

NEW QUESTION # 123

.....

Only high-quality and high-precision DA0-002 qualification question can enable learners to be confident to take the qualification examination, and our DA0-002 learning materials are such high-quality learning materials, it can meet the user to learn the most popular test site knowledge. Because our experts have extracted the frequent annual test centers are summarized to provide users. Only excellent learning materials such as our DA0-002 Study Tool can meet the needs of the majority of candidates, and now you should make the most decision is to choose our DA0-002 exam questions.
