Get Reliable Cheap 300-710 Dumps and Pass Exam in First Attempt

Our 300-710 real study guide materials can help you get better and better reviews. This is a very intuitive standard, but sometimes it is not enough comprehensive, therefore, we need to know the importance of getting the test 300-710 certification, qualification certificate for our future job and development is an important role. Only when we have enough qualifications to prove our ability can we defeat our opponents in the harsh reality. We believe our 300-710 actual question will help you pass the 300-710 qualification examination and get your qualification faster and more efficiently.

Cisco Securing Networks with Cisco Firepower Sample Questions (Q403-Q408):

NEW QUESTION # 403

With a recent summer time change, system logs are showing activity that occurred to be an hour behind real time. Which action should be taken to resolve this issue?

- A. Manually adjust the time to the correct hour on all managed devices
- **B. Configure the system clock settings to use NTP**
- C. Configure the system clock settings to use NTP with Daylight Savings checked
- D. Manually adjust the time to the correct hour on the Cisco FMC.

Answer: B

Explanation:

Note that the time displayed on most pages on the web interface is the local time, which is determined by using the time zone you specify in your local configuration. Further, the Firepower Management Center automatically adjusts its local time display for daylight saving time (DST), where appropriate. However, recurring tasks that span the transition dates from DST to standard time and back do not adjust for the transition. That is, if you create a task scheduled for 2:00 AM during standard time, it will run at 3:00 AM during DST. Similarly, if you create a task scheduled for 2:00 AM during DST, it will run at 1:00 AM during standard time.

NEW QUESTION # 404

A company is deploying intrusion protection on multiple Cisco FTD appliances managed by Cisco FMC. Which system-provided policy must be selected if speed and detection are priorities?

- A. Connectivity Over Security
- B. **Balanced Security and Connectivity**
- C. Maximum Detection
- D. Security Over Connectivity

Answer: B

NEW QUESTION # 405

How many report templates does the Cisco Firepower Management Center support?

- A. 0
- B. 1
- C. 2
- D. **unlimited**

Answer: D

Explanation:

NEW QUESTION # 406

Which file format can standard reports from Cisco Secure Firewall Management Center be downloaded in?

- A. ppt
- B. xis
- C. doc
- D. **csv**

Answer: D

Explanation:

Standard reports from Cisco Secure Firewall Management Center can be downloaded in CSV (Comma-Separated Values) format. This format is widely used for data exchange and can be opened in various applications such as Microsoft Excel.

Steps to download reports:

- * Navigate to Reports > Report Designer in the FMC.
- * Select or create the report you wish to download.
- * Choose the CSV format option when exporting the report.

This allows the network engineer to analyze and manipulate the report data easily.
