最新的 Chartered Insurance Professional (CIP) C11 免費考試真題 (Q99-Q104):

問題 #99

Which peril of operating a business is insurable?

- A. Under-capitalization
- B. Mismanagement
- C. Cybersecurity
- D. Product obsolescence

答案: C

解題說明:

To be insurable, a peril must befortuitous, measurable, and not within the direct control of the insured.

Cybersecurity risks meet these criteria, which is why insurers offer cyber liability and data breach insurance. These policies cover hacking, ransomware, privacy breaches, and business interruption caused by cyber events. Mismanagement (B) is uninsurable because it results from internal decision failure. Under-capitalization (C) is a business failure, not a fortuitous peril. Product obsolescence (D) is a predictable business cycle risk and cannot be insured. Thus, the only insurable peril listed is A: Cybersecurity.

問題 #100

An insurer's agency or production department is the equivalent of which department in other businesses?

- A. Sales and marketing
- B. Administration and human resources
- C. Finance and production
- D. Information technology and business services

答案: A

解題說明:

The agency or production department within an insurance company is responsible for generating new business, managing distribution channels, working with brokers and agents, and promoting the insurer's products. These functions align directly with sales and marketing departments found in other industries. Their goals include increasing premium volume, maintaining relationships with intermediaries, and ensuring the insurer's products reach the marketplace effectively.

Option B is incorrect because finance and production refer to cost control and manufacturing, neither of which parallels insurance distribution. Option C does not align because administration and HR handle internal operations, not customer acquisition. Option D deals with internal systems and support functions, unrelated to the business-production role of generating and selling insurance. Therefore, the insurer's agency or production department corresponds to A: Sales and marketing.

問題 #101

Huronian Insurance Company submitted incorporation documents and received approval to sell personal-lines property and automobile policies. Which document will the Office of the Superintendent of Financial Institutions (OSFI) issue?

- A. Insurer establishment document
- B. National insurance notice
- C. Order of commencement
- D. Insurer of record

答案: C

解題說明:

To operate as a federally regulated insurance company in Canada, an insurer must receive authorization from OSFI after meeting all incorporation and capital requirements. Once OSFI is satisfied that the insurer has complied with statutory conditions, it issues an Order to Commence and Carry On Business—commonly referred to as an order of commencement. This document grants the insurer the legal authority to start underwriting and selling insurance in Canada.

Option A is not an official document under Canadian insurance regulation. Option C does not exist in federal insurance legislation. Option D is incorrect because the establishment of an insurer is handled through incorporation documents, not a post-approval "establishment" certificate.

Therefore, the correct OSFI authorization document is B: Order of commencement.

問題 #102

What does the term "subject of insurance" refer to?

- A. The type of wording applicable to the policy
- B. The thing being insured
- C. The perils associated with the risk
- D. The company providing the coverage

答案: B

解題說明：

The subject of insurance is the property, person, or legal liability exposure that is being insured. This is the central object of the policy- what the insurer agrees to indemnify or protect. For example, a house in a homeowner's policy, a vehicle in an automobile policy, or a person's life in a life insurance contract.

Identifying the subject of insurance is essential because underwriting, policy wordings, rates, and coverage conditions all revolve around what is being insured.

Option B refers to perils, which are the causes of loss, not the insured item. Option C refers to the insurer itself and is unrelated to the definition. Option D refers to policy language but not the underlying exposure.

Thus, the correct meaning of the term is A: the thing being insured.

問題 #103

What does the term "subject of insurance" refer to?
