Then you are required to answer every question of the CIS-SPM Exam Materials. And they will show the scores at the time when you finish the exam.

## ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q40-Q45):

### NEW QUESTION # 40

The Project Management application enables users to create parent-child relationships between tasks and dependencies, such as finish-to-start and finish-to-finish, between tasks. How many relationships can exist between two tasks?

- A. Four.
- B. Two
- C. One
- D. Three.

**Answer: A**

### NEW QUESTION # 41

What does the project status report allow project managers to do?  
Choose 2 answers

- A. View the project Gantt chart
- B. View the WBS
- C. Print as a PDF attachment
- D. Show historical trend of project KPI's

**Answer: C,D**

Explanation:

Explanation

The project status report allows project managers to do the following:

Show historical trend of project KPI's: The project status report displays the key performance indicators (KPIs) of the project, such as schedule variance, cost variance, and earned value. It also shows the historical trend of these KPIs over time, which helps project managers monitor the progress and performance of the project. You can find more information about the project status report KPIs in the Product Documentation for ServiceNow.

Print as a PDF attachment: The project status report can be printed as a PDF attachment and sent to the stakeholders or sponsors of the project. This helps project managers communicate the status and health of the project in a clear and concise format. You can find more information about the project status report PDF attachment in the Product Documentation for ServiceNow.

#### NEW QUESTION # 42

Is resource capacity derived from FTE or schedules?

- A. Only Schedules.
- B. Only FTE.
- C. Both.
- D. Neither.

**Answer: A**

Explanation:

Resource capacity is the total number of hours that a resource or a group of resources is available for work in a given time period. According to the Product Documentation for ServiceNow, resource capacity is derived from the user or group schedule, which defines the working hours and days for each resource. The group capacity is rolled up from the schedules of all the members. Note: Capacity is not derived from FTE, but from schedules. Both FTE and schedules must be in synchronization with each other. FTE is a measure of how much work a resource can perform in a standard work week, and it is used to calculate the resource demand and allocation.

#### NEW QUESTION # 43

What determines the resource schedule if the Schedules related list and Schedule field are both empty?

- A. Average Daily FTE Hours/Hours Per Person Day (com.snc.resource\_management.average\_daily\_fte) property
- B. (Default Schedule Name (com.snc.resource\_management.default\_schedule) property
- C. Default Project Management Schedule
- D. Effort type

**Answer: B**

#### NEW QUESTION # 44

To set up a group for selection in a resource plan, the group record needs to include which role?

- A. pps\_resource
- B. itil
- C. it\_project\_user
- D. resource\_manager

**Answer: A**

Explanation:

Explanation

According to the Assigning Resource Roles document, to set up a group for selection in a resource plan, the group record needs to include the pps\_resource role. This role grants access to the Resource Management application and allows the group members to view and update their resource allocations. The other options are not correct, as they are not required for a group to be selected in a resource plan. The it\_project\_user role grants access to the Project Portfolio Management application and allows the user to create and update projects. The itil role grants access to the ITIL application and allows the user to manage incidents, problems, and changes. The resource\_manager role grants access to the Resource Management application and allows the user to manage resource plans and allocations.

## NEW QUESTION # 45
