With PDF questions, you can prepare for the PEGACPSSA25V1 Certification Exam while sitting back at our place.

Pegasystems Certified Pega Senior System Architect 25 Sample Questions (Q344-Q349):

NEW QUESTION # 344

You are configuring duplicate case search logic in a case type. How do you ensure that resolved cases are not evaluated as potential duplicates?

- A. Add a weighted condition where the work status of potential duplicates does not contain "Resolved".
- B. Add a must match condition where the work status of the current case does not contain "Resolved".
- C. Add a must match condition where the work status of potential duplicates does not contain "Resolved".
- D. Add a weighted condition that evaluates the work status of current and existing cases where work status equals "Resolved" and has a weight of "0".

Answer: A

NEW QUESTION # 345

Which requirement could be satisfied with a user action?

- A. Allow a user to transfer a case to another employee at any stage of the case.
- B. Reassign any task that remains open after three days to another user.
- C. An application randomly sends a survey to customers once their case is resolved.
- D. Requiring a separate approval process whenever an order exceeds USD 10,000.

Answer: A

NEW QUESTION # 346

You are configuring a standard email to automatically be sent to loan applicants informing them that their loan has been approved. The requirement states that the email must include values for the applicant's name, the loan office, and the loan amount. The email must also include boilerplate content stating the loan's terms and conditions, which is regularly updated. This content is in a paragraph rule shared by other standard emails throughout the organization. How would you configure your email?

- A. Add placeholder text for the applicant's name, loan office, and amount. Also, insert the paragraph rule.
- B. Insert the applicant name and loan office properties. Include a correspondence fragment that contains a link to the organization's website page that contains loans and conditions.
- C. Insert applicant's name, loan office, and loan amount properties. Also, insert the paragraph rule.
- D. Insert applicant's name, loan office, and loan amount properties. Also, copy and paste the paragraph content into your email.

Answer: C

NEW QUESTION # 347

You have a requirement to populate a list of allowed values sourced from a database table. The list of allowed values varies based on the context in which the list is used. Which implementation maximizes reusability?

- A. Create a data page and report definition for each context. Use parameters to filter the results of the response data transform.
- B. Create a data page sourced with a connector. Specialize the data page by class based on context.
- C. Create a data page sourced with a report definition. Use parameters to specify a filter condition to retrieve specific results based on context.
- D. Create a data page sourced with a report definition. Circumstance the report definition based on context.

Answer: B

NEW QUESTION # 348
