GIAC Strategic Planning, Policy, and Leadership (GSTRT) Sample Questions (Q97-Q102):

NEW QUESTION # 97
When developing a cybersecurity strategy, why is it important to understand the financial goals of the organization?
Response:

- A. To balance the need for security with the organization's financial objectives, ensuring that security investments provide value
- B. To reduce the security team's involvement in budgeting
- C. To ensure the security budget is unlimited
- D. To avoid investing in security technologies

Answer: A

NEW QUESTION # 98
What is the primary purpose of including a policy exception process in a cybersecurity policy?
Response:

- A. To minimize policy updates
- B. To avoid having to enforce the policy
- C. To allow employees to bypass the policy
- D. To provide a structured process for requesting deviations from the policy under specific circumstances

Answer: D

NEW QUESTION # 99
Your organization has identified a need to update its access control policy to reflect changes in user roles and new compliance requirements. Several departments have raised concerns about the complexity of the updated policy.
How would you ensure the policy update is effectively implemented while addressing these concerns?
Response:

- A. Implement the policy immediately without consultation
- B. Simplify the policy by removing key compliance requirements
- C. Delay the policy update until all departments agree
- D. Involve department heads in a collaborative review of the policy, provide training sessions to explain the changes, and create documentation that clarifies how the policy affects each department

Answer: D

NEW QUESTION # 100
What is a key factor in ensuring the successful implementation of cybersecurity policies across an organization?
Response:

- A. Providing training and resources to all employees, ensuring they understand and comply with the policies
- B. Limiting policy access to only senior management
- C. Only addressing cybersecurity policies in technical departments
- D. Delegating policy implementation to the IT department exclusively

Answer: A

NEW QUESTION # 101

Your organization is undergoing a digital transformation, and you have been tasked with ensuring that the cybersecurity strategy supports the business's new direction. The executive team is concerned that security measures may slow down innovation. How would you align the cybersecurity strategy with the business transformation while addressing these concerns?

Response:

- A. Implement the strictest security controls possible to avoid any potential breaches
- B. Eliminate all security controls to prioritize innovation
- C. Work closely with the business leaders to understand their innovation goals, propose security controls that protect critical assets without hindering innovation, and ensure security is built into the transformation process
- D. Ignore the business transformation and focus solely on traditional security measures

Answer: C

NEW QUESTION # 102

......
