9. 가로 길이가 75m, 세로 길이가 90m인 직사각형 모양의 땅 둘레에 일정한 간격으로 알뜰을 박으려고 한다. 네 모퉁이에 반드시 알뜰을 박기로 할 때, 알뜰은 최소한 몇 개가 필요한가? <sup>10)</sup>				
① 20개	② 22개	③ 24개	④ 26개	⑤ 28개
10. 8개의 축구팀이 서로 한 번씩 경기를 할 때, 열리는 총 경기의 수는? <sup>11)</sup>				
① 27	② 28	③ 29	④ 30	⑤ 40
11. 남자 5명, 여자 5명을 5명씩 두 팀으로 나눌 때, 특정한 여자 2명이 같은 조가 되는 경우의 수는? <sup>12)</sup>				
① 35	② 70	③ 126	④ 150	⑤ 175
12. A, B 두 사람이 가위바위보를 하는데, 첫 번째에는 비기고, 두 번째에는 A가 이기고, 세 번째에는 B가 이길 확률은? <sup>13)</sup>				
① $\frac{1}{81}$	② $\frac{1}{27}$	③ $\frac{2}{27}$	④ $\frac{1}{9}$	⑤ $\frac{2}{9}$

## 1z0-1080-25최신 시험 기출문제 모음 - 1z0-1080-25높은 통과율 인기 시험 자료

IT인증시험을 쉽게 취득하는 지름길은KoreaDumps에 있습니다. KoreaDumps의Oracle인증 1z0-1080-25덤프로 시험 준비를 시작하면 성공에 가까워집니다. Oracle인증 1z0-1080-25덤프는 최신 시험문제 출제방향에 대비하여 제작된 예상문제와 기출문제의 모음자료입니다. Oracle인증 1z0-1080-25덤프는 시험을 통과한 IT업계종사자분들이 검증 해주신 세련된 공부자료입니다. KoreaDumps의Oracle인증 1z0-1080-25덤프를 공부하여 자격증을 따시다.

### Oracle 1z0-1080-25 시험요강:

주제	소개
주제 1	<ul style="list-style-type: none"> <li>Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.</li> </ul>
주제 2	<ul style="list-style-type: none"> <li>Design business rules and rulesets:his section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.</li> </ul>
주제 3	<ul style="list-style-type: none"> <li>Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.</li> </ul>
주제 4	<ul style="list-style-type: none"> <li>Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.</li> </ul>

주제 5	<ul style="list-style-type: none"> <li>• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.</li> </ul>
주제 6	<ul style="list-style-type: none"> <li>• Explain required and user-defined dimensions; how dimension hierarchies impact Planning</li> </ul>
주제 7	<ul style="list-style-type: none"> <li>• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.</li> </ul>
주제 8	<ul style="list-style-type: none"> <li>• Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.</li> </ul>
주제 9	<ul style="list-style-type: none"> <li>• Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.</li> </ul>
주제 10	<ul style="list-style-type: none"> <li>• Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.</li> </ul>
주제 11	<ul style="list-style-type: none"> <li>• Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.</li> </ul>
주제 12	<ul style="list-style-type: none"> <li>• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.</li> </ul>
주제 13	<ul style="list-style-type: none"> <li>• Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.</li> </ul>
주제 14	<ul style="list-style-type: none"> <li>• Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.</li> </ul>
주제 15	<ul style="list-style-type: none"> <li>• Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.</li> </ul>
주제 16	<ul style="list-style-type: none"> <li>• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.</li> </ul>
주제 17	<ul style="list-style-type: none"> <li>• Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.</li> </ul>
주제 18	<ul style="list-style-type: none"> <li>• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.</li> </ul>
주제 19	<ul style="list-style-type: none"> <li>• Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.</li> </ul>
주제 20	<ul style="list-style-type: none"> <li>• Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.</li> </ul>
주제 21	<ul style="list-style-type: none"> <li>• Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.</li> </ul>
주제 22	<ul style="list-style-type: none"> <li>• Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.</li> </ul>

주제 23	<ul style="list-style-type: none"> <li>• Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.</li> </ul>
주제 24	<ul style="list-style-type: none"> <li>• Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.</li> </ul>
주제 25	<ul style="list-style-type: none"> <li>• Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.</li> </ul>

## 최신 Oracle Enterprise Planning and Budgeting Cloud Service 1z0-1080-25 무료샘플문제 (Q73-Q78):

### 질문 # 73

You want to select a probability distribution for your Strategic Modeling simulation. The minimum and maximum are fixed, and you know the most likely values.

Which probability distribution is useful with limited data in situations such as sales estimates, inventory numbers, and marketing costs in Strategic Modeling simulations?

- A. Triangular
- B. Normal
- C. Uniform
- D. Beta PERT
- E. Lognormal

정답: A

### 설명:

In Oracle Planning 2024's Strategic Modeling simulations, selecting a probability distribution for scenarios with fixed minimum and maximum values and a known most likely value (e.g., sales estimates, inventory, marketing costs) points to:

\* A. Beta PERT: Incorrect. Beta PERT uses min, max, and most likely values but requires more data to shape the curve accurately, making it less ideal with limited data.

\* B. Uniform: Incorrect. Uniform assumes equal probability between min and max, ignoring the most likely value, which doesn't fit this scenario.

\* C. Triangular: Correct. The Triangular distribution uses minimum, maximum, and most likely values, making it simple and effective for limited data situations like sales or costs.

\* D. Normal: Incorrect. Normal requires mean and standard deviation, not just min, max, and most likely, and assumes more data availability.

\* E. Lognormal: Incorrect. Lognormal is skewed and suited for data with a positive range, requiring more statistical input than provided here.

The Oracle documentation recommends the Triangular distribution for its simplicity and suitability with limited data, making C the correct answer.

### 질문 # 74

Which three options can you enable for Manage Existing Assets in Capital?

- A. Transfers
- B. Leased Assets
- C. Named Assets
- D. Retirements
- E. Improvements/Impairments

정답: A,D,E

질문 # 75

Your administrator creates a Pipeline definition to manage metadata, and data for your Planning application. Which statement about pipelines is true?

- A. Quickly drill into data slices that are important to you with pipelines.
- B. Use pipelines to coordinate the running of a series of jobs as a single process.
- C. Develop pipelines to guide you through the Planning process.
- D. Use pipelines as a visible, automated, and repeatable system of record for running an application.

정답: B

설명:

In Oracle Planning 2024, a Pipeline is a feature that allows administrators to define and automate a sequence of jobs (e.g., data imports, metadata updates, calculations) as a single, coordinated process. Pipelines streamline the management of metadata and data by executing multiple tasks in a specified order, ensuring dependencies are met, and providing a repeatable workflow for maintaining the Planning application.

\* A. Develop pipelines to guide you through the Planning process: Incorrect. Pipelines are not a planning guide; they are an automation tool for executing jobs, not a process framework.

\* B. Use pipelines as a visible, automated, and repeatable system of record for running an application:

Incorrect. While pipelines are automated and repeatable, they are not a "system of record" for running the entire application—they focus on specific job sequences.

\* C. Use pipelines to coordinate the running of a series of jobs as a single process: Correct. This aligns with the Oracle definition of pipelines, which orchestrate multiple jobs (e.g., import data, refresh database) into one executable process.

\* D. Quickly drill into data slices that are important to you with pipelines: Incorrect. Pipelines are not designed for data analysis or drilling into data slices; they are for job automation.

The Oracle documentation emphasizes that pipelines are used to manage and execute a series of jobs efficiently, making C the true statement.

질문 # 76

Which step does NOT need to be completed to manage the configuration of Key Performance Indicators (KPIs) in Planning Financials?

- A. Adding KPIs in Configure: Financials
- B. Verifying enabled KPIs
- C. Adding KPIs to the hierarchy
- D. Reviewing KPIs in the hierarchy
- E. Adding KPIs to the alternate hierarchy

정답: C

질문 # 77

Which option describes Intelligent Performance Management (IPM) Insights?

- A. Displays high-level aggregated information for quick consumptions at a glance
- B. Enables users to keep their work private (from the other non-administrators) as they develop their plans.
- C. Analyzes past data and predicted data, helping you find patterns in data
- D. Checks when conditions are met in forms, and generates messages when data violates specified condition

정답: C
