# 100% Pass Quiz 2026 Juniper JN0-481: Authoritative New Data Center, Specialist (JNCIS-DC) Exam Sample

BONUS!!! Download part of PrepAwayTest JN0-481 dumps for free: https://drive.google.com/open?id=1INleve53k1bKwY_-0vMxT69_gtt4dO7F

The Data Center, Specialist (JNCIS-DC) (JN0-481) practice test questions are customizable which means that the customers can customize the time and JN0-481 exam questions types according to their needs. These Juniper JN0-481 Practice Tests are based on real based examination scenarios which help the students practice under real JN0-481 exam questions pressure and learn to control it.

Our JN0-481 study materials have a high quality which is mainly reflected in the pass rate. Our product can promise a higher pass rate than other study materials. 99% people who have used our JN0-481 study materials passed their exam and got their certificate successfully, it is no doubt that it means our JN0-481 study materials have a 99% pass rate. So our product will be a very good choice for you. If you are anxious about whether you can pass your exam and get the certificate, we think you need to buy our JN0-481 Study Materials as your study tool, our product will lend you a good helping hand. If you are willing to take our JN0-481 study materials into more consideration, it must be very easy for you to pass your exam in a short time.

USE Juniper JN0-481 QUESTIONS TO SPEED UP EXAM PREPARATION [2026]

As job seekers looking for the turning point of their lives, it is widely known that the workers of recruitment is like choosing apples---viewing resumes is liking picking up apples, employers can decide whether candidates are qualified by the JN0-481 appearances, or in other words, candidates' educational background and relating JN0-481 professional skills. The reason why we are so confident lies in the sophisticated expert group and technical team we have, which do duty for our solid support. They develop the JN0-481 Exam Guide targeted to real exam. The wide coverage of important knowledge points in our JN0-481 latest braindumps would be greatly helpful for you to pass the exam.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q54-Q59):

NEW QUESTION # 54
Which statement is correct about the Juniper Apstra Rendered configuration?

- A. It is stored in a NoSQL database and incrementally updated.
- B. It is built at commit time and stored in a MySQL database.
- C. It is rendered from the graph database and stored locally.

- D. It is dynamically tendered at commit time.

Answer: D

Explanation:
The Juniper Apstra Rendered configuration is the configuration that is generated from the staged blueprint and applied to the devices in the network. The Rendered configuration is dynamically rendered at commit time, which means that it is created on the fly based on the latest changes and validations in the blueprint. The Rendered configuration is not stored in any database, but it can be viewed in the Apstra UI or downloaded as a file. The Rendered configuration reflects the desired state of the network as defined by the intent of the blueprint.

NEW QUESTION # 55
You are installing a Juniper Apstra server in your data center. You have multiple users that will be expected to configure, manage, and carry out operational tasks in your data center. You have decided to implement remote user authentication for the role-based access control of your Apstra server. In this scenario, which three methods are supported? (Choose three.)

- A. TACACS+
- B. Auth0
- C. RADIUS
- D. LDAP
- E. SAML

Answer: A,C,D

Explanation:
To implement remote user authentication for the role-based access control of your Apstra server, you can use one of the following methods: TACACS+, LDAP, or RADIUS. These are the protocols that Juniper Apstra supports to authenticate and authorize users based on roles assigned to individual users within an enterprise. You can configure the Apstra server to use one or more of these protocols as the authentication sources and specify the order of preference. You can also configure the Apstra server to use local user accounts as a fallback option if the remote authentication fails.

NEW QUESTION # 56
Which three statements describe intent-based analytics? (Choose three.)

- A. It indicates when device operating versions require updating.
- B. It alerts the network operator when network performance moves away from the baseline.
- C. It is a real-time information processing pipeline.
- D. It collects information from vendor websites.
- E. It is used to establish network performance baselines.

Answer: B,C,E

Explanation:
Intent-based analytics (IBA) is a feature of Juniper Apstra that allows you to combine intent from the network design with current and historic data from devices to reason about the network at- large.
IBA has the following characteristics:
It is a real-time information processing pipeline. This means that IBA can ingest, process, and analyze large amounts of data from devices in real time, using agents and probes.
Agents are software components that collect data from devices and send them to the Apstra server.
Probes are user-defined queries that aggregate data across devices and generate advanced data that can be more easily reasoned about.
It is used to establish network performance baselines. This means that IBA can use the advanced data to measure and monitor the network performance against the expected outcomes and service levels.
IBA can also use the historic data to create baselines that represent the normal behavior and state of the network.
It alerts the network operator when network performance moves away from the baseline. This means that IBA can detect and report any anomalies or deviations from the baseline or the intent in the network.
IBA can also provide insights and recommendations for troubleshooting and resolving the issues.

NEW QUESTION # 57

You are building an IP fabric and have decided to use Junos devices to create an EBGP underlay. You must ensure that traffic is load balanced throughout your fabric.

You must also ensure that regardless of the path used through the fabric that all traffic is handled consistently and load balanced predictably.

According to Juniper Networks, what are three best practices that you should employ to help you achieve the desired behavior? (Choose three.)

- A. All spine devices should be the same model including linecards and port density.
- B. Each leaf device should be a different model including linecards and port density.
- C. Each leaf device must use the same link speed for all uplinks to the spine devices.
- D. All leaf devices should be the same model including linecards and port density.
- E. Leaf devices should use a variety of link speeds for each uplink to the spine devices.

Answer: A,C,D

NEW QUESTION # 58

IBA probes analyze telemetry data from specified devices within a blueprint. Which component Identifies devices that supply data tor a specific probe?

- A. processor
- B. data selector
- C. graph query
- D. search engine

Answer: C

Explanation:

A graph query is a component that identifies devices that supply data for a specific probe. A graph query is an expression that matches nodes in the Apstra graph database based on their attributes, such as device name, role, type, or tag. A graph query can be used to select the source devices for the input processors of a probe, as well as to filter the data by device attributes in the subsequent processors of a probe.

NEW QUESTION # 59

......

Test your knowledge of the JN0-481 exam dumps with Juniper JN0-481 practice questions. The software is designed to help with Data Center, Specialist (JNCIS-DC) (JN0-481) exam dumps preparation. Juniper JN0-481 Practice Test software can be used on devices that range from mobile devices to desktop computers.

Latest JN0-481 Test Labs: https://www.prepawaytest.com/Juniper/JN0-481-practice-exam-dumps.html

Juniper New JN0-481 Exam Sample How can you resist such fantastic products, Juniper New JN0-481 Exam Sample Such excellent people like you are welcomed in the job market, You might doubt that our the high pass rate of Latest JN0-481 Test Labs - Data Center, Specialist (JNCIS-DC) pdf vce training, but this data comes from former customers, the passing rate has up to 98.98%, nearly 100%, As a result what we can do is to create the most comfortable and reliable customer services of our JN0-481 guide torrent to make sure you can be well-prepared for the coming exams.

In addition, the content of our JN0-481 exam materials is easy to learn and suitable for the public, Apps as Accessories, How can you resist such fantastic products?

Such excellent people like you are welcomed in the job market, You might doubt JN0-481 that our the high pass rate of Data Center, Specialist (JNCIS-DC) pdf vce training, but this data comes from former customers, the passing rate has up to 98.98%, nearly 100%.

Pass-Sure JN0-481 Exam Guide: Data Center, Specialist (JNCIS-DC) are famous for high pass rate - PrepAwayTest

As a result what we can do is to create the most comfortable and reliable customer services of our JN0-481 guide torrent to make

sure you can be well-prepared for the coming exams.

If you want to get promotions or high-paying jobs in the Juniper sector, then it is important for you to crack the Data Center, Specialist (JNCIS-DC) (JN0-481) certification exam.
