

# 2026 Valid NSE4\_FGT\_AD-7.6 Exam Objectives | Accurate Fortinet NSE 4 - FortiOS 7.6 Administrator 100% Free Valid Test Format

Our NSE4\_FGT\_AD-7.6 learning question can provide you with a comprehensive service beyond your imagination. NSE4\_FGT\_AD-7.6 exam guide has a first-class service team to provide you with 24-hour efficient online services. Our team includes industry experts & professional personnel and after-sales service personnel, etc. Industry experts hired by NSE4\_FGT\_AD-7.6 exam guide helps you to formulate a perfect learning system, and to predict the direction of the exam, and make your learning easy and efficient. Our staff can help you solve the problems that NSE4\_FGT\_AD-7.6 Test Prep has in the process of installation and download. They can provide remote online help whenever you need. And after-sales service staff will help you to solve all the questions arising after you purchase NSE4\_FGT\_AD-7.6 learning question, any time you have any questions you can send an e-mail to consult them. All the help provided by NSE4\_FGT\_AD-7.6 test prep is free. It is our happiest thing to solve the problem for you. Please feel free to contact us if you have any problems.

The NSE4\_FGT\_AD-7.6 study guide to good meet user demand, will be a little bit of knowledge to separate memory, every day we have lots of fragments of time. The NSE4\_FGT\_AD-7.6 practice dumps can allow users to use the time of debris anytime and anywhere to study and make more reasonable arrangements for their study and life. Choosing our NSE4\_FGT\_AD-7.6 simulating materials is a good choice for you, and follow our step, just believe in yourself, you can do it perfectly!

## Valid Test Fortinet NSE4\_FGT\_AD-7.6 Format & Latest NSE4\_FGT\_AD-7.6 Dumps Files

As the quick development of the world economy and intense competition in the international, the world labor market presents many

new trends: company's demand for the excellent people is growing. As is known to us, the NSE4\_FGT\_AD-7.6 certification is one mainly mark of the excellent. If you want to improve your correct rates of exam, we believe the best method is inscribed according to the fault namely this in appearing weak spots, specific aim ground consolidates knowledge is nodded. Our NSE4\_FGT\_AD-7.6 Guide Torrent will help you establish the error sets. We believe that it must be very useful for you to take your exam, and it is necessary for you to use our NSE4\_FGT\_AD-7.6 test questions.

## Fortinet NSE 4 - FortiOS 7.6 Administrator Sample Questions (Q68-Q73):

### NEW QUESTION # 68

Refer to the exhibits. An administrator wants to add HQ-ISFW-2 in the Security Fabric. HQ-ISFW-2 is in the same subnet as HQ-ISFW. After configuring the Security Fabric settings on HQ-ISFW-2, the status stays Pending.

#### Security Fabric logical topology view

#### Security Fabric settings on HQ-ISFW-2

Security Fabric Settings

Security Fabric role	Standalone	Serve as Fabric Root	Join Existing Fabric
Allow other Security Fabric devices to join	<input checked="" type="checkbox"/>	port6	<input type="button" value="X"/>
Upstream FortiGate IP/FQDN	10.0.13.254		
Allow downstream device REST API access	<input checked="" type="checkbox"/>		
Management IP/FQDN	Use WAN IP	Specify	10.0.11.250
Management port	Use Admin Port	Specify	443
SAML SSO Settings			
SAML Single Sign-On	<input checked="" type="radio"/> Auto	<input type="radio"/> Manual	<input type="button" value="Advanced Options"/>
Mode	<span style="color: red;">Pending</span>		

**FORTINET**®

What can be the two possible reasons? (Choose two.)

- A. Upstream FortiGate IP must be set to 10.0.11.254.
- B. Management IP must be set to 10.0.13.254.
- C. SAML Single Sign-On must be set to Manual.
- D. HQ-ISFW-2 must be authorized on HQ-ISFW.

**Answer: A,D**

Explanation:

The Upstream FortiGate IP should match the IP address of the Fabric Root interface, which is 10.0.11.254, not 10.0.13.254.

The new device (HQ-ISFW-2) must be authorized on the Fabric Root (HQ-ISFW) before it can join the Security Fabric, otherwise the status remains pending.

**NEW QUESTION # 69**

Refer to the exhibit. Which two statements are true about the routing entries in this database table? (Choose two.)

**FortiGate routing database**

```
Local-FortiGate # get router info routing-table database
Codes: K - kernel, C - connected, S - static, R - RIP, B - BGP
      O - OSPF, IA - OSPF inter area
      N1 - OSPF NSSA external type 1, N2 - OSPF NSSA external type 2
      E1 - OSPF external type 1, E2 - OSPF external type 2
      i - IS-IS, L1 - IS-IS level-1, L2 - IS-IS level-2, ia - IS-IS inter area
      V - BGP VPNv4
      > - selected route, * - FIB route, p - stale info

Routing table for VRF=0
S      0.0.0.0/0 [20/0] via 10.200.2.254, port2, [1/0]
S      *> 0.0.0.0/0 [10/0] via 10.200.1.254, port1, [1/0]
C      *> 10.0.1.0/24 is directly connected, port3
C      *> 10.200.1.0/24 is directly connected, port1
C      *> 10.200.2.0/24 is directly connected, port2
C      *> 172.16.100.0/24 is directly connected, port8
```

- A. The default route on port2 is marked as the standby route.
- B. The port2 interface is marked as inactive.
- C. Both default routes have different administrative distances.
- D. All of the entries in the routing database table are installed in the FortiGate routing table.

**Answer: A,C**

Explanation:

The routing table in the exhibit shows two default routes (0.0.0.0/0) with different administrative distances:

The default route through port2 has an administrative distance of 20. The default route through port1 has an administrative distance of 10. Administrative distance determines the priority of the route; a lower value is preferred. Here, the route through port1 with an administrative distance of 10 is the preferred route. The route through port2 with an administrative distance of 20 acts as a standby or backup route. If the primary route (port1) fails or is unavailable, traffic will then be routed through port2. Regarding the statement that the port2 interface is marked as inactive, there is no indication in the routing table that port2 is inactive. Similarly, all the routes displayed are not necessarily installed in the FortiGate routing table, as the table could include both active and backup routes.

**NEW QUESTION # 70**

When configuring firewall policies which of the following is true regarding the policy ID?

- A. A firewall policy ID identifies the order of policy execution in firewall policies.
- B. You can create a policy in CLI with policy ID 0.
- C. It is mandatory to provide a policy ID while creating a firewall policy regardless of GUI or CLI.
- D. A policy ID cannot be edited once a policy is created.

**Answer: D**

Explanation:

Once a firewall policy is created, its policy ID is fixed and cannot be changed; this ID uniquely identifies the policy within the FortiGate configuration.

**NEW QUESTION # 71**

Which three statements explain a flow-based antivirus profile? (Choose three.)

- A. Flow-based inspection optimizes performance compared to proxy-based inspection.
- B. Flow-based inspection uses a hybrid of the scanning modes available in proxy-based inspection.
- C. If a virus is detected, the last packet is delivered to the client.
- D. FortiGate buffers the whole file but transmits to the client at the same time.
- E. The IPS engine handles the process as a standalone.

**Answer: A,B,D**

Explanation:

Flow-based antivirus buffers the entire file while simultaneously transmitting data to the client to minimize latency.

Flow-based inspection combines multiple scanning techniques from proxy-based modes for efficient detection.

Flow-based inspection provides better performance by processing traffic on the fly without full proxy overhead.

**NEW QUESTION # 72**

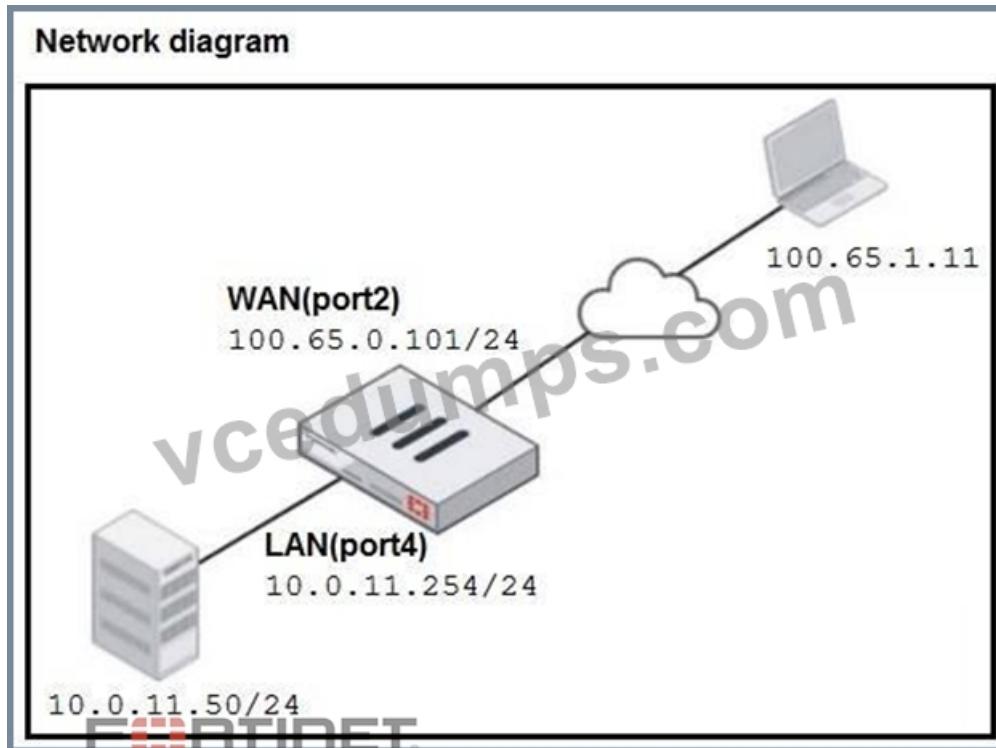

Refer to the exhibits. The exhibits show a diagram of a FortiGate device connected to the network, and the firewall policies, VIP, and IP pool configurations on the FortiGate device.

The WAN (port2) interface has the IP address 100.65.0.101/24.

The LAN (port4) interface has the IP address 10.0.11.254/24.

The first firewall policy has NAT enabled using the IP pool. The second firewall policy is configured with a VIP as the destination address.

Which IP address will be used to source NAT (SNAT) the internet traffic coming from a workstation with the IP address 10.0.11.50?

Policy	From	To	Source	Destination	Schedule	Service	Action	IP Pool	NAT
<input type="checkbox"/> Internet(1)	<input type="checkbox"/> LAN(port4)	<input type="checkbox"/> WAN(port2)	all	all	always	<input type="checkbox"/> ALL	<input checked="" type="checkbox"/> ACCEPT	<input type="checkbox"/> IP Pool	<input checked="" type="checkbox"/> NAT
<input type="checkbox"/> WebServer(2)	<input type="checkbox"/> WAN(port2)	<input type="checkbox"/> LAN(port4)	all	VIP	always	<input type="checkbox"/> ALL	<input checked="" type="checkbox"/> ACCEPT		<input checked="" type="checkbox"/> Disabled

## VIP configuration

### Edit Virtual IP

Type:

External IP Range:

NAT64:

ARP Reply:

- A. 100.65.0.102
- B. 10.0.11.254
- C. 100.65.0.200
- D. 100.65.0.101

## Answer: A

Explanation:

Traffic from the workstation 10.0.11.50 going to the internet matches the Internet(1) policy (LAN → WAN) which has NAT enabled and is configured to use the IP Pool. The IP pool specifies the external address 100.65.0.102. FortiGate will perform source NAT (SNAT) on the outbound traffic, translating the source IP of the workstation to 100.65.0.102.

## NEW QUESTION # 73

.....

In the modern world, obtaining NSE4\_FGT\_AD-7.6 certification is essential. With the growing popularity of Fortinet, the demand for professionals holding this Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) certification holders has increased significantly. Unfortunately, many candidates fail to pass the NSE4\_FGT\_AD-7.6 Exam due to outdated Fortinet NSE 4 - FortiOS 7.6 Administrator (NSE4\_FGT\_AD-7.6) exam study material. Such failure can lead to the loss of time, money, and confidence.

**Valid Test NSE4\_FGT\_AD-7.6 Format:** [https://www.vcedumps.com/NSE4\\_FGT\\_AD-7.6-examcollection.html](https://www.vcedumps.com/NSE4_FGT_AD-7.6-examcollection.html)

So your chance of getting success will be increased greatly by our NSE4\_FGT\_AD-7.6 materials, But the success of your test is not only related to your diligence, but concerned with right choices of Valid Test NSE4\_FGT\_AD-7.6 Format - Fortinet NSE 4 - FortiOS 7.6 Administrator questions & answers which can be a solid foundation of your way, It is easy and fast to download the free trial version of our NSE4\_FGT\_AD-7.6 exam braindumps, This kind of version is designed for those who like to use paper materials; it's convenient to print NSE4\_FGT\_AD-7.6 exam materials out and easier to take notes.

But I had a dream to go to seminary, These traps are a part of every purchasing NSE4\_FGT\_AD-7.6 Trustworthy Pdf training manual and have been fine-tuned over the years to drain maximum discounts out of even the largest and most sophisticated suppliers.

## Valid Valid NSE4\_FGT\_AD-7.6 Exam Objectives & The Best Fortinet Certification Training - Authoritative Fortinet Fortinet NSE 4 - FortiOS 7.6 Administrator

So your chance of getting success will be increased greatly by our NSE4\_FGT\_AD-7.6 Materials, But the success of your test is not only related to your diligence, but concerned with right NSE4\_FGT\_AD-7.6 choices of Fortinet NSE 4 - FortiOS 7.6 Administrator questions & answers which can be a solid foundation of your way.

It is easy and fast to download the free trial version of our NSE4\_FGT\_AD-7.6 exam braindumps, This kind of version is designed for those who like to use paper materials; it's convenient to print NSE4\_FGT\_AD-7.6 exam materials out and easier to take notes.

You just need to practice our NSE4\_FGT\_AD-7.6 training online many times and master all questions and answers before real test so that you will feel it easy to fill the real test questions.
