Latest HCL Software Academy HCL-DOM-AADM-12 Dumps Book | Vce HCL-DOM-AADM-12 Free

In order to meet all demands of all customers, our company has employed a lot of excellent experts and professors in the field to design and compile the HCL-DOM-AADM-12 study materials with a high quality. It has been a generally accepted fact that the HCL-DOM-AADM-12 Study Materials from our company are more useful and helpful for all people who want to pass exam and gain the related exam. We believe this resulted from our constant practice, hard work and our strong team spirit.

HCL Software Academy HCLSoftware Certified Associate Administrator Exam - Notes/Domino 12 Sample Questions (Q33-Q38):

NEW QUESTION # 33

What is the primary function of the Router task on a Domino server?

- A. To compress and optimize NSF files
- B. To manage DAOS repository storage
- C. To index databases for full-text search
- D. To process and route mail messages

Answer: D

Explanation:

The Router task is the core component of the Domino messaging system. Its primary responsibility is to process and route mail messages. It constantly monitors the mail.box file(s) for new entries and determines where to deliver them-whether to a local mail file on the same server, to another Domino server via Notes routing, or to an external internet address via SMTP.

NEW QUESTION # 34

What is the main benefit of enabling DAOS on a Domino server?

- A. Reducing disk usage by storing shared attachments only once
- B. Enabling offline access for users
- C. Enhancing full-text search capabilities

Answer: A

Explanation:

The Domino Attachment and Object Service (DAOS) provides significant storage efficiency. Its main benefit is reducing disk usage by storing shared attachments only once. Instead of every user's mail file containing a separate copy of a large attachment, DAOS extracts the file to a central repository and places a small header (ticket) in each user's document, dramatically decreasing the overall storage footprint on the server.

NEW QUESTION # 35

Which database stores inbound mail before it is routed to a user's mailbox?

- A. router.nsf
- B. names.nsf
- C. mailroute.nsf
- D. mail.box

Answer: D

Explanation:

In HCL Domino, the mail.box database (or databases, if multiple are configured) acts as the temporary holding area or "staging ground" for all transit mail. When mail arrives at the server-whether from a local Notes user, another Domino server, or via SMTP-it is deposited into mail.box. The Router task then monitors this database, reads the recipient information, and moves the message to its final destination (the user's mail file) or transfers it to another server.

NEW QUESTION # 36

What is a distinguishing feature of a mail-only registration in Domino?

- A. It excludes the creation of a Notes ID
- B. It requires multiple server certifiers
- C. It creates only the vault document
- D. It bypasses mail policy enforcement

Answer: A

Explanation:

A mail-only registration is used for users who will not be using the HCL Notes client and instead access their mail via internet

protocols like POP3, IMAP, or HTTP. Because these users do not require Notes- specific authentication or encryption, the registration process excludes the creation of a Notes ID file . This simplifies the registration process for users who only need access to their Domino mailboxes through standard web browsers or third-party email clients.

NEW QUESTION # 37

Where are DAOS objects physically stored on the server?

- A. In the Domino Directory
- **B. In the designated DAOS base path directory**
- C. Inside the mail.box file
- D. In the ddm.nsf file

Answer: B

Explanation:

The Domino Attachment and Object Service (DAOS) works by extracting file attachments from standard NSF databases and storing them as separate objects. These objects (files with a .NLO extension) are physically stored in a designated DAOS base path directory on the server's file system. This path is defined in the Server document, and within it, DAOS creates a series of subdirectories to organize the objects efficiently and prevent any single folder from containing too many files.

NEW QUESTION # 38

.....

You may have gone through a lot of exams. Now if you go to the exam again, will you feel anxious? HCL-DOM-AADM-12 study guide can help you solve this problem. When you are sure that you really need to obtain an internationally certified HCL-DOM-AADM-12 certificate, please select our HCL-DOM-AADM-12 exam questions. You must also realize that you really need to improve your strength. Our company has been developing in this field for many years.
