To prepare for the Salesforce Certified Experience Cloud Consultant exam, candidates should have a strong understanding of Salesforce Experience Cloud features and capabilities. They should also have experience in designing and implementing solutions for customer and partner communities. Candidates can prepare for the exam by taking Salesforce-approved training courses, studying the official Salesforce certification study guide, and taking practice exams.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q127-Q132):

NEW QUESTION # 127
Universal Containers (UC) has a B2C customer department that uses person accounts to track and manage all B2C customers. UC has set up a B2C site using Salesforce Experience Cloud. The VP of B2C business wants to enable self-registration on the portal so customers can create their own user accounts.
What should the Experience Cloud consultant at UC recommend so that the new users self-registering on the B2C site are captured as person accounts in Salesforce?

- A. Restrict the Account record type access to Person Account record type only for the Site Guest User, so any account created is by default a person account.
- B. Use the standard self-registration configuration under Experience Workspace and leave the default Account field empty.
- C. Create a custom self-registration page and Apex handler that creates a person account for each user self-registering on the portal.

Answer: C

Explanation:
This option allows UC to customize the self-registration process and create person accounts programmatically using Apex code. The standard self-registration configuration does not support person accounts and requires an existing business account to associate the new users with. Restricting the account record type access for the Site Guest User does not affect the self-registration process and may cause errors.

NEW QUESTION # 128
The Salesforce Administrator at Universal Containers (UC) has set up topics. UC is going through a rebranding phase and wants to simplify topics but keep articles that have been assigned to the topics.
How should the Salesforce Administrator accomplish this?

- A. Delete existing topics and assign articles to newly created topics.
- B. Mark old topics as Inactive and assign articles to the new active topics.
- C. Merge similar topics in Content Management.
- D. Keep existing topics and reassign articles to newly created topics.

Answer: C

NEW QUESTION # 129
Cloud Kicks has packaged its Customer Support Community. The community includes navigation menu items that link to standard and custom objects.
Which two points should the Experience Cloud consultant consider when reviewing the package? Choose 2 answers

- A. Custom list views for standard objects are included as dependencies.
- B. Custom list views for custom objects are not included as dependencies.
- C. Custom list views for standard objects are not included as dependencies.
- D. Custom list views for custom objects are included as dependencies.

Answer: B,C

Explanation:
When you package your Experience Cloud site, some components and settings are included as dependencies, while others are not.
For example:
Custom list views for custom objects are not included as dependencies. You need to manually add them to your package or recreate them in the target org.
Custom list views for standard objects are not included as dependencies. You need to manually add them to your package or recreate them in the target org.

NEW QUESTION # 130

Ursa Major Solar (UMS) is using the Customer Account Portal template where both customers and employees can log in to view information about the company. UMS would like the Home page to showcase internal resources at the top for its employees, and would like self-help resources to be available for lagged-in customers. UMS wants to exclude employee resources from the layout of the Home page when customers are logged in.
Which functionality should UMS utilize to showcase the Home page in different ways?

- A. Sharing Sets
- B. Page Variations
- C. Case Feeds
- D. Developer Console

Answer: B

Explanation:
This option allows UMS to showcase the Home page in different ways for its employees and customers. Page variations are different versions of a page with different layouts, components, and content. UMS can create page variations for the Home page and use audience targeting to display different variations to different audiences based on user attributes, such as profile or user type3

NEW QUESTION # 131

Universal Containers (UC) is a conglomerate with various lines of business operating worldwide. UC helps finance crop research, provides insurance services to coffee growers, and manufactures specialized coffee machines and other products. UC also has a franchise unit to help grow its franchise business worldwide. UC is planning to build multiple portals and sites to support its various lines of business.
What two points should UC keep in mind when selecting a template for these sites and portals?
Choose 2 answers

- A. Industry-specific templates as well as Lightning Bolt solutions are available today.
- B. Industry-specific templates are available today but not Lightning Bolt solutions.
- C. Industry-specific Lightning Bolt solutions are available today but not templates. Pencil & Paper
- D. Insurance Agent Portal template becomes available once Financial Services Cloud is correctly set up in an org.

Answer: A,D

Explanation:
When selecting a template for your sites and portals, you need to keep in mind some points, such as:
Insurance Agent Portal template becomes available once Financial Services Cloud is correctly set up in an org. This template is designed for insurance agents who need to manage their leads, opportunities, policies, claims, and referrals.
Industry-specific templates as well as Lightning Bolt solutions are available today. Templates are preconfigured site designs that include pages, components, and settings. Lightning Bolt solutions are industry-specific solutions that include templates, themes, flows, apps, and components.

NEW QUESTION # 132

......

Education degree does not equal strength, and it does not mean ability. Education degree just mean that you have this learning experience only. And the real ability is exercised in practice, it is not necessarily linked with the academic qualifications. Do not feel that you have no ability, and don't doubt yourself. When you choose to participate in the Salesforce Experience-Cloud-Consultant

Exam, it is necessary to pass it. If you are concerned about the test, however, you can choose Lead2PassExam's Salesforce Experience-Cloud-Consultant exam training materials. No matter how low your qualifications, you can easily understand the content of the training materials. And you can pass the exam successfully.
