# SAP C_BCBDC_2505 Sample Questions Answers - Customized C_BCBDC_2505 Lab Simulation

What's more, part of that Itcertkey C_BCBDC_2505 dumps now are free: https://drive.google.com/open?id=1qZ7mIKb0s2n23vAUdiqycnTarDD7hBne

Some people prefer to read paper materials rather than learning on computers. Of course, your wish can be fulfilled in our company. We have PDF version C_BCBDC_2505 exam guides, which are printable format. You can print it on papers after you have downloaded it successfully. If you want to change the fonts, sizes or colors, you can transfer the C_BCBDC_2505 exam torrent into word format files before printing. There are many advantages of the PDF version. Firstly, there are no restrictions to your learning. You can review the C_BCBDC_2505 Test Answers everywhere. You spare time can be made good use. Secondly, you can make notes on your materials, which will accelerate your understanding of the C_BCBDC_2505 exam guides. In a word, our company seriously promises that we do not cheat every customer.

## SAP C_BCBDC_2505 Exam Syllabus Topics:

| Topic | Details |
|---|---|
| Topic 1 | • SAP Business Data Cloud: This section of the exam measures the skills of Data Analysts and covers core concepts of the SAP Business Data Cloud. Candidates are expected to understand its key components, integration mechanisms, and how it functions as a foundation for unified data management across SAP and non-SAP environments. The focus is on enabling data connectivity and providing governed access to data across the enterprise. |
| Topic 2 | • SAP Analytics Cloud: This section of the exam measures the skills of Data Analysts and covers the use of SAP Analytics Cloud in data visualization, story building, and dashboard creation. Candidates should be familiar with its planning and predictive capabilities, along with how to utilize data insights to drive business decision-making. It also includes managing user access and collaborating through shared analytics assets. |
|  |  |

| | |
|---|---|
| Topic 3 | • SAP Datasphere: This section of the exam measures the skills of Solution Consultants and covers a comprehensive understanding of SAP Datasphere. Candidates should demonstrate knowledge of data modeling, transformation, and harmonization using SAP Datasphere tools. It evaluates how well they can work with data layer structuring, semantic modeling, and integration to support real-time data access for various business applications. |

# Customized C_BCBDC_2505 Lab Simulation - C_BCBDC_2505 Reliable Exam Labs

We have security and safety guarantee, which mean that you cannot be afraid of virus intrusion and information leakage since we have data protection acts, even though you end up studying C_BCBDC_2505 test guide of our company, we will absolutely delete your personal information and never against ethic code to sell your message to the third parties. Our C_BCBDC_2505 Exam Questions will spare no effort to perfect after-sales services. Thirdly countless demonstration and customer feedback suggest that our SAP Certified Associate - SAP Business Data Cloud study question can help them get the certification as soon as possible, thus becoming the elite, getting a promotion and a raise and so forth.

# SAP Certified Associate - SAP Business Data Cloud Sample Questions (Q17-Q22):

**NEW QUESTION # 17**
Which tasks can be performed using the Data Builder in SAP Business Data Cloud?
There are 2 correct answers to this question.
Response:

- A. Create data flows for ETL
- B. Build graphical views
- C. Configure remote table access
- D. Manage user licenses

**Answer: A,B**

**NEW QUESTION # 18**
What do you use to write data from a local table in SAP Datasphere to an outbound target?

- A. CSN Export
- B. Data Flow
- C. Replication Flow
- D. Transformation Flow

**Answer: B**

Explanation:
To write data from a local table in SAP Datasphere to an outbound target, you primarily use a Data Flow. A Data Flow in SAP Datasphere is a powerful tool designed for comprehensive data integration and transformation. It allows you to extract data from various sources (including local tables within Datasphere), perform various transformations (like joins, aggregations, filtering, scripting), and then load the processed data into a specified target. This target can be another local table, a remote table, or an outbound target like an external database or a file system. While a Replication Flow (C) is used for ingesting data into Datasphere, and a Transformation Flow (A) is not a standalone artifact for outbound writes (often part of a Data Flow), the Data Flow provides the complete framework for extracting, transforming, and loading data, including sending it to external destinations.

**NEW QUESTION # 19**
Which steps are executed when an SAP Business Data Cloud Intelligent Application is installed? Note: There are 2 correct answers

to this question.

- A. Connection of SAP Datasphere with SAP Analytics Cloud
- B. Execution of a machine-learning algorithm
- C. Replication of data from the business applications to Foundation Services
- D. Creation of a dashboard for visualization

**Answer: A,C**

Explanation:
When an SAP Business Data Cloud (BDC) Intelligent Application is installed, two key foundational steps are executed to ensure its operational readiness. Firstly, there is the connection of SAP Datasphere with SAP Analytics Cloud (SAC). This establishes the vital link that allows the intelligent application's analytical models, which reside and are managed within SAP Datasphere, to be consumed and visualized in SAC. SAC serves as the front-end for analytical consumption, enabling users to interact with the insights generated by the intelligent application. Secondly, the installation process involves the replication of data from the business applications to Foundation Services. Foundation Services act as the initial landing zone for raw business data within the BDC architecture. This data replication ensures that the intelligent application has access to the necessary operational data from source systems to perform its functions, whether it involves data processing, enrichment, or feeding machine learning models. These steps are crucial for the intelligent application to ingest, process, and ultimately present valuable business insights.

**NEW QUESTION # 20**
If you schedule a publication, what management options do you have for the schedule?
There are 2 correct answers to this question.
Response:

- A. Modify
- B. Define
- C. Reschedule
- D. Discontinue

**Answer: A,D**

**NEW QUESTION # 21**
Which of the following best describes the primary function of SAP Business Data Cloud?
Please choose the correct answer.
Response:

- A. Customer relationship management
- B. Data integration and management
- C. Data visualization and reporting
- D. Data storage and backup

**Answer: B**

**NEW QUESTION # 22**
......

Are you still worried about not passing the C_BCBDC_2505 exam? Do you want to give up because of difficulties and pressure when reviewing? You may have experienced a lot of difficulties in preparing for the exam, but fortunately, you saw this message today because our well-developed C_BCBDC_2505 Exam Questions will help you tide over all the difficulties. As a multinational company, our C_BCBDC_2505 training quiz serves candidates from all over the world.
