Reliable AP-219 Test Online & AP-219 Vce File

Services like quick downloading within five minutes, convenient and safe payment channels made for your convenience. Even newbies will be tricky about this process. Unlike product from stores, quick browse of our AP-219 practice materials can give you

the professional impression wholly. So, they are both efficient in practicing and downloading process. By the way, we also have free demo of AP-219 practice materials as freebies for your reference to make your purchase more effective.

Salesforce Order Management Administrator Accredited Professional Sample Questions (Q87-Q92):

NEW QUESTION # 87

An administrator needs to ensure that the Orders coming from B2C Commerce honor some business rules which need to be the same in both B2C and Order Management. This validation must happen before the Order Summary object is created. What can the administrator suggest to the developer to implement this requirement?

- A. Use a SalesforceLabs solution
- B. Use an AppExchange solution
- C. Write an Apex class with the validation rules and expose it as an Invocable Action
- **D. Handle this in the Commerce System originating the Orders.**

Answer: D

Explanation:

The administrator can suggest to the developer to handle this requirement in the Commerce System originating the Orders. This way, the validation rules can be applied before the orders are sent to Order Management via the B2C Commerce Integration. The B2C Commerce Integration imports order data into Order Management and creates Order Summary records based on the order data. The validation must happen before the Order Summary object is created, so it cannot be done in Order Management using Apex or other tools. Reference: B2C Commerce Integration, Order Management Lifecycle

NEW QUESTION # 88

Which practice should an admin consider when working with the Ensure Funds Async action?

- A. The invoice object should be cloned to a custom object before calling the action
- B. The invoice object should be logged and cloned to a custom object before calling the action
- C. The Invoice ID should be logged before passing it to the Ensure Funds Async action
- **D. The invoice ID should be assigned somewhere in the flow before calling the action**

Answer: D

Explanation:

The Ensure Funds Async action requires the invoice ID as an input parameter. The action checks if there are enough funds available for the invoice and updates the invoice status accordingly. The invoice ID should be assigned somewhere in the flow before calling the action, otherwise the action will fail. Reference: Salesforce Payments and Order Management

NEW QUESTION # 89

What are two ways an administrator can query Order Summaries using APIs in Workbench?

- A. Connect API
- **B. Composite API**
- C. Apex API
- D. Invocable API
- **E. Platform API**

Answer: B,E

Explanation:

Two ways that an administrator can query Order Summaries using APIs in Workbench are:

Platform API. The Platform API is a set of REST and SOAP APIs that allow developers to access data and functionality in Salesforce from external systems. The Platform API includes various resources and operations for querying, creating, updating, or deleting records in Salesforce, such as Order Summaries. The administrator can use the Platform API in Workbench by selecting the REST Explorer or SOAP Explorer tabs, and entering the appropriate request URL and parameters.

Composite API. The Composite API is a type of REST API that allows developers to execute multiple subrequests in a single HTTP request. The Composite API includes various resources and operations for batching, tree, sObject collections, or transactions

in Salesforce, such as Order Summaries. The administrator can use the Composite API in Workbench by selecting the REST Explorer tab, and entering the appropriate request URL and JSON body.

NEW QUESTION # 90

A company has multiple fulfillment centers that they want to utilize when orders are fulfilled. The administrator is tasked with minimizing the distance from fulfillment center to delivery location. How can this be accomplished?

- A. Create a Workflow Rule on the Fulfillment Order object that utilizes the Order Management workflow field update actions
- **B. Add the "Order Routing Rank By Closest Distance" action to the fulfillment flow**
- C. Ask a developer to create an Apex Action that can determine the closest fulfillment location
- D. Modify the Fulfillment Location Search process to search by closest distance instead of least number of splits

Answer: B

Explanation:

The best way for the administrator to accomplish this task is to add the "Order Routing Rank By Closest Distance" action to the fulfillment flow. This action is a flow core action that ranks the fulfillment locations by their distance from the delivery location, and returns a list of ranked locations. The administrator can use this action to find the optimal fulfillment location for each order based on proximity. Verified Reference: https://help.salesforce.com/s/articleView?id=sf.flow_ref_elements_om_actions_order_routing_rank_by_closest_distance.htm&type=5

NEW QUESTION # 91

Where is the Shipping Address stored as it relates to Order Summary?

- A. Order Shipping Summary
- B. Order Delivery Group Details
- **C. Order Delivery Group Summary**
- D. Order Shipping Details

Answer: C

NEW QUESTION # 92

.....

Everything will be changed if you buy our AP-219 actual study guide, and you will be surprised with not only high grades but also the certification that you got for the help of our AP-219 exam questions. As you know, salaries are commensurate to skills while certificates represent skills. Therefore, you are sure to get high salaries with certification after using our AP-219 Test Torrent. Last but not the least, after you enter into large companies with AP-219 certification, you can get to know more competent people, which can certainly enlarge your circle of friends.
