Everyone has the right to pursue happiness and wealth. You can rely on the FCP_FAZ_AN-7.4 certificate to support yourself. If you do not own one or two kinds of skills, it is difficult for you to make ends meet in the modern society. After all, you can rely on no one but yourself. At present, our FCP_FAZ_AN-7.4 study materials can give you a ray of hope. You can get the FCP_FAZ_AN-7.4 certification easily with our FCP_FAZ_AN-7.4 learning questions and have a better future.

Fortinet FCP_FAZ_AN-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• SOC Events and Incident Management: This domain targets Fortinet Network Analysts and focuses on managing security operations center (SOC) events. Candidates will explain SOC features on FortiAnalyzer, manage events and incidents, and understand the incident lifecycle to enhance incident response capabilities.
Topic 2	<ul style="list-style-type: none">• Logging: Candidates will learn about logging mechanisms, log analysis, and gathering log statistics to effectively monitor security events and incidents.
Topic 3	<ul style="list-style-type: none">• Reports: This section evaluates the skills of Fortinet Security Analysts in managing reports within FortiAnalyzer. Candidates will learn to create, troubleshoot, and optimize reports to ensure accurate data presentation and insights for security analysis.
Topic 4	<ul style="list-style-type: none">• Playbooks: This domain measures the skills of Fortinet Network Analysts in creating and managing playbooks. Candidates will explain playbook components and develop workflows that automate responses to security incidents, improving operational efficiency in SOC environments.
Topic 5	<ul style="list-style-type: none">• Features and Concepts: This section of the exam measures the skills of Fortinet Security Analysts and covers the fundamental concepts of FortiAnalyzer.

Fortinet FCP_FAZ_AN-7.4 Simulations Pdf & FCP_FAZ_AN-7.4 Updated Demo

The world is changing, so we should keep up with the changing world's step as much as possible. Our Prep4sures has been focusing on the changes of FCP_FAZ_AN-7.4 exam and studying in the exam, and now what we offer you is the most precious FCP_FAZ_AN-7.4 test materials. After you purchase our dump, we will inform you the FCP_FAZ_AN-7.4 update messages at the first time; this service is free, because when you purchase our study materials, you have bought all your FCP_FAZ_AN-7.4 exam related assistance.

Fortinet FCP - FortiAnalyzer 7.4 Analyst Sample Questions (Q39-Q44):

NEW QUESTION # 39

Which two methods can you use to send notifications when an event occurs that matches a configured event handler? (Choosetwo.)

- A. Send SNMP trap
- B. Send Alert through Fabric Connectors
- C. Send Alert through FortiSIEM MEA
- D. Send SMS notification

Answer: A,D

Explanation:

In FortiAnalyzer, event handlers can be configured to trigger specific notifications when an event matches defined criteria. These notifications are designed to alert administrators in real time about critical events.

* Option B - Send SNMP Trap:

* FortiAnalyzer supports sending SNMP traps as one of the notification methods when an event matches an event handler. This allows integration with SNMP-enabled network management systems, which can then trigger further alerts or actions based on the trap received.

* Conclusion:Correct.

* Option C - Send SMS Notification:

* FortiAnalyzer also supports SMS notifications, enabling alerts to be sent via SMS to predefined recipients. This method is useful for administrators who require immediate alerts but may not have access to email or other notification systems at all times.

* Conclusion:Correct.

* Option A - Send Alert through Fabric Connectors:

* While Fabric Connectors allow FortiAnalyzer to interact with other parts of the Security Fabric, they are primarily used for data sharing and automation rather than directly for sending alerts or notifications.

* Conclusion:Incorrect.

* Option D - Send Alert through FortiSIEM MEA:

* FortiSIEM integration allows for data sharing and further analysis within the Fortinet ecosystem, but it does not directly act as a notification method from FortiAnalyzer itself.

* Conclusion:Incorrect.

Conclusion:

* Correct Answer:B. Send SNMP trapandC. Send SMS notification

* These options represent valid notification methods for FortiAnalyzer's event handler configuration.

References:

* FortiAnalyzer 7.4.1 documentation on event handler configuration and available notification methods.

NEW QUESTION # 40

What can the CLI command # diagnose test application oftpd 3 help you to determine?

- A. What devices are registered and unregistered
- B. What ADOMs are enabled and configured
- C. What logs, if any, are reaching FortiAnalyzer
- D. What devices and IP addresses are connecting to FortiAnalyzer

Answer: D

NEW QUESTION # 41
