Which three KPIs could be used to help understand the chatbot's impact on customer service?

Choose 3 answers

- A. Number of lead records created
- B. Case deflection
- C. Case Type by Issue
- D. CSAT (Customer Satisfaction score)
- E. Average Handle Time compared to Bot Session Time

**Answer: B,D,E**

### NEW QUESTION # 108

Northern Trail Outfitters has configured chat so customers can quickly get answers to their questions by chatting with an agent while browsing the Experience site.

How should an administrator embed the chat window in an Experience site?

- A. Add the Embedded Service component to Builder pages.
- B. Create a custom component using the Embedded Service API.
- C. Create an Embedded Service quick action.
- D. Configure the Embedded Service connector.

**Answer: A**

Explanation:

The Embedded Service component allows you to embed a chat window in your Experience Cloud site, so customers can chat with agents while browsing the site. You can add the Embedded Service component to any Builder page and configure its properties, such as the chat button label, pre-chat fields, and offline support.

### NEW QUESTION # 109

Bloomington Caregivers (BC) wants to share Covid-19 related information with all site visitors, including unauthenticated users.

Which three things should BC in mind about unauthenticated or guestuser access?

Choose 3 answers

- A. Guest user external organization-wide defaults are always set to Public.
- B. Guest user external organization-wide default are always set to Private.
- C. Guest user can't be members of public groups or queues.
- D. Guest user can't access records via manual sharing
- E. Guest user can't records via manual existing records

**Answer: B,C,D**

Explanation:

Three things that BC should keep in mind about unauthenticated or guest user access are A, B, and D.

Unauthenticated or guest user access is a feature that allows users to access your Experience Cloud site without logging in or registering. Unauthenticated or guest users have limited access and visibility to data in your Salesforce org, and they have some

restrictions, such as:

- \* Guest user external organization-wide defaults are always set to Private. This means that guest users cannot access any records that are owned by external users (such as Customer Community or Partner Community users) unless they are explicitly shared with them.
- \* Guest user can't access records via manual sharing. This means that guest users cannot access any records that are shared with them by using the Sharing button on the record detail page.
- \* Guest user can't be members of public groups or queues. This means that guest users cannot access any records that are shared with them by using public groups or queues as criteria.

### NEW QUESTION # 110

Universal Containers (UC) is building a new self-service site for its large global customer base. Customers will be posting questions, viewing Knowledge articles, downloading warranties, opening tickets, and registering their recent purchases. Purchases are stored in a custom object. UC has decided to use Customer Service template for the experience and Customer Community Plus license for the customers.

Which limitation could cause a potential issue for UC?

- A. Customer Service template does not allow record pages for custom objects out-of-the-box.
- B. Customer Community Plus license does not allow access to custom objects.
- C. Customer Community Plus license allows only up to 2 million users per org.
- D. Customer Service template does not allow downloading documents out-of-the-box.

**Answer: C**

Explanation:

Customer Community Plus licenses have a limit of 2 million users per org, which could be a potential issue for UC if they have a large global customer base that exceeds this limit. The other options are not limitations of the Customer Service template or the Customer Community Plus license.
