Our ValidBraindumps has devoted more time and efforts to develop the AZ-305 exam software for you to help you successfully obtain AZ-305 exam certification with less time and efforts. Our promise of "no help, full refund" is not empty talk. No matter how confident we are in our dumps, once our dumps do not satisfy you or have no help for you, we will immediately full refund all your money you purchased our AZ-305 Exam software. However, we believe that our AZ-305 exam software will meet your expectation, and wish you success!

To pass the Microsoft AZ-305 exam, candidates need to demonstrate their understanding of the Azure infrastructure, as well as their ability to design and implement solutions that are scalable, secure, and cost-effective. AZ-305 exam consists of multiple-choice questions and simulations that test the candidate's ability to design and implement Azure solutions.

Microsoft AZ-305 exam is designed for IT professionals who are interested in designing solutions on Microsoft Azure. AZ-305 Exam measures the candidates' knowledge and skills in designing, implementing, and monitoring Microsoft Azure infrastructure solutions. AZ-305 exam tests the candidates on their ability to design solutions for compute, storage, networking, security, and monitoring on the Azure platform.

Quiz 2026 Free AZ-305 Study Material & Unparalleled Latest Designing Microsoft Azure Infrastructure Solutions Test Voucher

With the rapid development of science and technology today, people's work can gradually be replaced by machines. If you are an unemployed person, our study materials also should be the best choice for you. AZ-305 Quiz torrent can help you calm down and learn more knowledge of it, and what most important is that our study materials can help you use the shortest time to reach to the top of your career. What are you waiting for? Come and buy it now!

Understanding of the salary of the Microsoft AZ-305 Certified Professional

The salary of a Microsoft AZ-305 Certified Professional depends on the company you are working in. However, the average salary of a Microsoft AZ-305 Certified Professional who passes his exam with the help of **AZ-305 exam dumps** is given as follows

- In India: 70,000 INR
- In Germany: 100,000 EUR
- In Australia: 85,000 AUD
- In the UK: 100,000 GBP
- In the United States: 120,000 USD

Microsoft Designing Microsoft Azure Infrastructure Solutions Sample Questions (Q15-Q20):

NEW QUESTION # 15

You have the Azure resources shown in the following table.

You need to recommend a virtual network management solution that uses Azure Virtual Network Manager.

The solution must meet the following requirements:

* Minimize the number of network managers.

* Minimize administrative effort when assigning the network group membership.

What should you include in the recommendation? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 16

Drag and Drop Question

You have two app registrations named App1 and App2 in Azure AD. App1 supports role-based access control (RBAC) and includes a role named Writer.

You need to ensure that when App2 authenticates to access App1, the tokens issued by Azure AD include the Writer role claim.

Which blade should you use to modify each app registration? To answer, drag the appropriate blades to the correct app registrations. Each blade may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

Box 1: App Roles

NEW QUESTION # 17

You are designing an Azure Cosmos DB solution that will host multiple writable replicas in multiple Azure regions. You need to recommend the strongest database consistency level for the design. The solution must meet the following requirements:

- * Provide a latency-based Service Level Agreement (SLA) for writes.
- * Support multiple regions.

Which consistency level should you recommend?

- A. consistent prefix
- **B. bounded staleness**
- C. strong
- D. session

Answer: B

Explanation:

Each level provides availability and performance tradeoffs. The following image shows the different consistency levels as a spectrum.

Note: The service offers comprehensive 99.99% SLAs which covers the guarantees for throughput, consistency, availability and latency for the Azure Cosmos DB Database Accounts scoped to a single Azure region configured with any of the five Consistency Levels or Database Accounts spanning multiple Azure regions, configured with any of the four relaxed Consistency Levels.

<https://docs.microsoft.com/en-us/azure/cosmos-db/consistency-levels#consistency-levels-and-latency>

NEW QUESTION # 18

You plan to migrate DB1 and DB2 to Azure.

You need to ensure that the Azure database and the service tier meet the resiliency and business requirements.

What should you configure? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 19

You plan to deploy a network-intensive application to several Azure virtual machines.

You need to recommend a solution that meets the following requirements:

- * Minimizes the use of the virtual machine processors to transfer data
- * Minimizes network latency

Which virtual machine size and feature should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation

Graphical user interface, text, application Description automatically generated
