## Quiz 2026 Pass-Sure IAPP CIPM: Online Certified Information Privacy Manager (CIPM) Training

A vast majority of aspiring candidates encounter problems finding relevant and reliable CIPM practice exam material that can be handy in preparing for the IAPP CIPM Certification Exam. They face hardship seeking up-to-date and authentic IAPP CIPM exam for the IAPP CIPM exam preparation.

## IAPP Certified Information Privacy Manager (CIPM) Sample Questions (Q31-Q36):

### NEW QUESTION # 31

What is least likely to be achieved by implementing a Data Lifecycle Management (DLM) program?

- A. Reducing storage costs.

- B. Crafting policies which ensure minimal data is collected.
- C. Ensuring data is kept for no longer than necessary.
- D. Increasing awareness of the importance of confidentiality.

**Answer: B**

Explanation:

Crafting policies which ensure minimal data is collected is least likely to be achieved by implementing a Data Lifecycle Management (DLM) program, as it is more related to the data collection stage, not the data management stage. A DLM program focuses on how to handle the data after it has been collected, such as how to store, use, share, and dispose of it. The other options are more likely to be achieved by implementing a DLM program, as they help to optimize the data storage costs, comply with the data retention obligations, and protect the data confidentiality. Reference: CIPM Body of Knowledge, Domain III: Privacy Program Management Activities, Task 1: Manage data inventory.

**NEW QUESTION # 32**

**SCENARIO**

Please use the following to answer the next QUESTION:

Ben works in the IT department of IgNight, Inc., a company that designs lighting solutions for its clients. Although IgNight's customer base consists primarily of offices in the US, some individuals have been so impressed by the unique aesthetic and energy-saving design of the light fixtures that they have requested IgNight's installations in their homes across the globe.

One Sunday morning, while using his work laptop to purchase tickets for an upcoming music festival, Ben happens to notice some unusual user activity on company files. From a cursory review, all the data still appears to be where it is meant to be but he can't shake off the feeling that something is not right. He knows that it is a possibility that this could be a colleague performing unscheduled maintenance, but he recalls an email from his company's security team reminding employees to be on alert for attacks from a known group of malicious actors specifically targeting the industry.

Ben is a diligent employee and wants to make sure that he protects the company but he does not want to bother his hard-working colleagues on the weekend. He is going to discuss the matter with this manager first thing in the morning but wants to be prepared so he can demonstrate his knowledge in this area and plead his case for a promotion.

To determine the steps to follow, what would be the most appropriate internal guide for Ben to review?

- A. Incident Response Plan.
- B. **Code of Business Conduct.**
- C. Business Continuity and Disaster Recovery Plan.
- D. IT Systems and Operations Handbook.

**Answer: B**

**NEW QUESTION # 33**

**SCENARIO**

Please use the following to answer the next QUESTION:

As the Director of data protection for Consolidated Records Corporation, you are justifiably pleased with your accomplishments so far. Your hiring was precipitated by warnings from regulatory agencies following a series of relatively minor data breaches that could easily have been worse. However, you have not had a reportable incident for the three years that you have been with the company. In fact, you consider your program a model that others in the data storage industry may note in their own program development.

You started the program at Consolidated from a jumbled mix of policies and procedures and worked toward coherence across departments and throughout operations. You were aided along the way by the program's sponsor, the vice president of operations, as well as by a Privacy Team that started from a clear understanding of the need for change.

Initially, your work was greeted with little confidence or enthusiasm by the company's "old guard" among both the executive team and frontline personnel working with data and interfacing with clients. Through the use of metrics that showed the costs not only of the breaches that had occurred, but also projections of the costs that easily could occur given the current state of operations, you soon had the leaders and key decision-makers largely on your side. Many of the other employees were more resistant, but face-to-face meetings with each department and the development of a baseline privacy training program achieved sufficient "buy-in" to begin putting the proper procedures into place.

Now, privacy protection is an accepted component of all current operations involving personal or protected data and must be part of the end product of any process of technological development. While your approach is not systematic, it is fairly effective.

You are left contemplating:

What must be done to maintain the program and develop it beyond just a data breach prevention program?

How can you build on your success?

What are the next action steps?

How can Consolidated's privacy training program best be further developed?

- A. By adopting e-learning to reduce the need for instructors.
- B. By using industry standard off-the-shelf programs.
- **C. Through targeted curricula designed for specific departments.**
- D. Through a review of recent data breaches.

**Answer: C**

Explanation:

This would allow Consolidated to tailor the privacy training to the specific needs and risks of each department, and to ensure that the employees are aware of the relevant policies and procedures for their roles.

#### **NEW QUESTION # 34**

Which of the following is an example of Privacy by Design (PbD)?

- A. A company hires a professional to structure a privacy program that anticipates the increasing demands of new laws.
- **B. A labor union insists that the details of employers' data protection methods be documented in a new contract.**
- C. The human resources group develops a training program from employees to become certified in privacy policy.
- D. The information technology group uses privacy considerations to inform the development of new networking software.

**Answer: B**

#### **NEW QUESTION # 35**

What is most critical when outsourcing data destruction service?

- A. Confirm data destruction must be done on-site.
- B. Obtain a certificate of data destruction.
- C. Conduct an annual in-person audit of the provider's facilities.
- **D. Ensure that they keep an asset inventory of the original data.**

**Answer: D**

#### **NEW QUESTION # 36**

.....

Our excellent CIPM practice materials beckon exam candidates around the world with their attractive characters. Our experts made significant contribution to their excellence. So we can say bluntly that our CIPM actual exam is the best. Our effort in building the content of our CIPM study dumps lead to the development of CIPM learning guide and strengthen their perfection. And the price of our exam prep is quite favourable!
