At QuestionsTube, you can read NCP-US-6.5 free demo questions in pdf file, so you can check the questions and answers before deciding to download the Nutanix NCP-US-6.5 practice questions. These free demo questions are parts of the NCP-US-6.5 exam questions. Download and read them carefully, you will find that the NCP-US-6.5 test questions of QuestionsTube will be your great learning materials online. Share some NCP-US-6.5 exam online questions below.

P.S. Free 2026 Nutanix NCP-DB-6.10 dumps are available on Google Drive shared by Itcertkey: <https://drive.google.com/open?id=1THS3bL7VvFSdGpxaKanR3DZyoJHbp4d->

Desktop Nutanix NCP-DB-6.10 Practice Exam Software is a one-of-a-kind and very effective software developed to assist applicants in preparing for the Nutanix NCP-DB-6.10 certification test. The Desktop Nutanix NCP-DB-6.10 Practice Exam Software that we provide includes a self-assessment feature that enables you to test your knowledge by taking simulated tests and evaluating the results.

The Itcertkey is committed to making the Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 NCP-DB-6.10 exam questions the first preference of NCP-DB-6.10 exam candidates. To achieve this objective the Itcertkey offers the real and updated NCP-DB-6.10 dumps in three easy-to-use and compatible formats. These formats are Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 NCP-DB-6.10 PDF dumps files, desktop practice test software, and web-based practice test software. All these three NCP-DB-6.10 Practice Questions type are easy to install and smoothly work with all devices, operating systems, and browsers. So you rest assured that with all NCP-DB-6.10 exam practice test questions you will get everything that you need to learn, prepare and pass the valuable NCP-DB-6.10 certification with good scores.

## Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 Torrent

For candidates who will attend the exam, choose the right NCP-DB-6.10 exam torrent is important. We offer you the NCP-DB-6.10 exam dumps to help you pass the exam. With the skilled experts to compile the exam dumps, the NCP-DB-6.10 study materials of us contain the questions and answers, and you can get enough practicing by using them. Besides, the NCP-DB-6.10 Soft test engine stimulates the real exam environment, and you can know what the real exam is like by using this version.

## Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 Sample Questions (Q246-Q251):

### NEW QUESTION # 246

Which Era component collects logs and snapshots from the database?

- A. SLAs
- B. Profiles
- **C. Time Machine**
- D. Era Database Agent

**Answer: C**

Explanation:

The Era copy data management service includes several components, one of which is the Time Machine. The Time Machine is responsible for collecting logs and snapshots from the database.

This functionality allows for granular clone and refresh operations, making it a crucial part of the Nutanix Era's database as a service (DBaaS) solution.

### NEW QUESTION # 247

What severity level are alert policies set to for NDB?

- A. Critical
- **B. Error**
- C. Warning
- D. Info

**Answer: B**

Explanation:

In Nutanix Database Service (NDB), alert policies are configured to notify administrators of significant events affecting database operations. The default severity level for NDB alert policies is set to Error. This level indicates issues that require attention, such as failed operations (e.g., provisioning failures, as shown in the exhibit), connectivity issues, or other critical operational problems. Other severity levels like Info, Critical, and Warning may be used for different scenarios, but the base configuration for NDB alert policies starts at Error to ensure administrators are alerted to actionable issues without being overwhelmed by less severe notifications.

### NEW QUESTION # 248

What key capability does the NDB Time Machine provide?

- A. VM image-level backup
- **B. Point-in-time database clones using snapshots and logs**
- C. Automatic healing of failed database instances
- D. Real-time cross-cluster database replication

**Answer: B**

Explanation:

Time Machine uses snapshots plus log capture to create point-in-time (PIT) database clones, enabling fast dev/test database creation.

#### NEW QUESTION # 249

An administrator is interested in using profiles to simplify the database provisioning process. The profile needs to include information related to the SQL service startup account, and the NDB worker service account. Which profile would help the administrator accomplish this task?

- A. Network
- **B. Windows Domain**
- C. Software
- D. Database Parameter

**Answer: B**

Explanation:

The correct answer is A because the Windows Domain profile is the profile that includes information related to the SQL service startup account and the NDB worker service account. A Windows Domain profile is a collection of settings that define how NDB manages Windows-based database servers and databases. It contains the following information:

The domain name and credentials to join the database server VMs to the domain  
The SQL service startup account and password to run the SQL Server service on the database server VMs  
The NDB worker service account and password to run the NDB Database Agent service on the database server VMs  
The SQL Server authentication mode to use for the databases  
By using a Windows Domain profile, the administrator can simplify the database provisioning process by applying the same settings to multiple database server VMs and databases, without having to manually enter them each time. The other options are not correct because they describe different types of profiles that do not include information related to the SQL service startup account and the NDB worker service account.

#### NEW QUESTION # 250

An administrator needs to patch a PostgreSQL database server VM from version 13.4 to 13.8. What is the first step within the NDB patching workflow to accomplish this task?

- **A. Create a Software Profile Version with PostgreSQL 13.8.**
- B. Create a maintenance window and add this PostgreSQL server 13.8 to the queue.
- C. Create a new Database Parameters profile for PostgreSQL server 13.8.
- D. Create a new Software Profile with PostgreSQL 13.8.

**Answer: A**

Explanation:

NDB supports patching for PostgreSQL database instances. Patching for PostgreSQL is validated on VMs provisioned by NDB (greenfield deployments). To patch PostgreSQL database server VMs, you must create a software profile version by uploading the PostgreSQL update file in NDB. You can then use the PostgreSQL update to patch other database server VMs or provision a new database server VM with the updated software profile. The first step in the NDB patching workflow is to create a software profile version with the desired PostgreSQL version.

#### NEW QUESTION # 251

.....

The Itcertkey is one of the top-rated and trusted platforms that are committed to making the Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 (NCP-DB-6.10) certification exam journey successful. To achieve this objective Itcertkey has hired a team of experienced and qualified Nutanix NCP-DB-6.10 Exam trainers. They work together and put all their expertise to maintain the top standard of NCP-DB-6.10 practice test all the time.

**Guide NCP-DB-6.10 Torrent:** [https://www.itcertkey.com/NCP-DB-6.10\\_braindumps.html](https://www.itcertkey.com/NCP-DB-6.10_braindumps.html)

It is universally acknowledged that PDF version is convenient for you to read and print, therefore, you can bring the Nutanix NCP-DB-6.10 learning materials with you wherever you go, All staffs of our company are trying their best effort to work on the problem of NCP-DB-6.10 test prep that our users could be faced with, After you get your NCP-DB-6.10 exam prep pdf, you will be getting close to your dream.

This kind of prep method is effective when preparing for the Nutanix NCP-DB-6.10 certification exam since the cert demands

polished skills and an inside-out understanding of the syllabus.

In the next section, you see how to write NCP-DB-6.10 such a routine, It is universally acknowledged that PDF version is convenient for you to read and print, therefore, you can bring the Nutanix NCP-DB-6.10 Learning Materials with you wherever you go.

## Quiz 2026 Efficient NCP-DB-6.10: Nutanix Certified Professional - Database Automation (NCP-DB) v6.10 Valid Test Camp

All staffs of our company are trying their best effort to work on the problem of NCP-DB-6.10 test prep that our users could be faced with, After you get your NCP-DB-6.10 exam prep pdf, you will be getting close to your dream.

You can choose according to your needs, There is no doubt that obtaining this NCP-DB-6.10 certification is recognition of their ability so that they can find a better job and gain the social status that they want.
