## C-SIGDA-2403 Knowledge Points, Customizable C-SIGDA-2403 Exam Mode

Do you want to find a fast way to step towards your dreams? We can help you by providing the latest and best useful C-SIGDA-2403 pdf torrent to guarantee your success in SAP C-SIGDA-2403 test certification. We keep our C-SIGDA-2403 vce torrent the latest by checking the newest information about the updated version every day. Add the latest topics into the C-SIGDA-2403 Dumps, and remove the useless questions, so that your time will be saved and study efficiency will be improved.

## SAP C-SIGDA-2403 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Business Process Management: There are different areas of business process management. This topic explains those areas and also discusses the process levels and its architecture.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>SAP Signavio Process Intelligence: To explore and analyze a data set, this section discusses creating an investigation. It also discusses revealing inefficiencies in the process.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Process Mining: Its primary focus is discussing fundamentals of process mining. Furthermore, the topic explores pointing out the basic data requirements in process mining projects.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>SAP Signavio Process Insights: The topic gives insights into SAP Signavio Process.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Plug &amp; Gain: In this topic, you encounter questions about sub-topics of pain and gain.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>SiGNAL: This topic explains how to use SiGNAL as query language. It also discusses how process data and analyze it in more depth.</li> </ul>

## SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q40-Q45):

### NEW QUESTION # 40

How can you capture relevant process tasks in a table-based approach?

- A. Use Process Reporting
- B. Use QuickModel**
- C. Use Process Documentation Template
- D. Use Graphical Editor

**Answer: B**

Explanation:

Capturing relevant process tasks in a table-based approach is efficiently done using:

- \* Option D (Use QuickModel): QuickModel is a feature in SAP Signavio that allows users to capture and document processes in a spreadsheet-like interface. It is designed for users who prefer a table-based approach to define and manage process steps, roles, and other relevant information. QuickModel simplifies the process modeling by enabling the rapid input of tasks, their descriptions, and roles responsible for each task, making it accessible for users without deep technical knowledge of BPMN notation.

### NEW QUESTION # 41

What is the benefit of the Over Time Widget?

- A. It visualizes the variants of a period.
- B. It visualizes the process flow in a certain timeframe.
- C. It visualizes selected case attributes for a given period.**
- D. It visualizes how KPI's are calculated in a certain timeframe.

**Answer: C**

Explanation:

The Over Time Widget in SAP Signavio provides valuable insights by visualizing selected case attributes over a defined period. The correct answer is:

- \* Option C (It visualizes selected case attributes for a given period.): This widget allows users to select specific case attributes and visualize how these attributes change over time. It's particularly useful for tracking the performance of processes, identifying trends, and making data-driven decisions to optimize process efficiency.

### NEW QUESTION # 42

What is the benefit of an Event-based Gateway?

- A. It allows tasks to be done simultaneously.
- B. It reacts immediately to external occasions when they occur.

- C. It ensures that all tasks have been completed.
- D. It limits the outgoing conditions to a maximum of three.

**Answer: C**

#### NEW QUESTION # 43

Which of the following Widgets need to be linked to a process model to provide insights? Note: There are 3 correct answers to this question.

- A. Diagram
- B. Process Funnel
- C. Process Discovery
- D. Variant Explorer
- E. Process Conformance

**Answer: A,B,E**

Explanation:

Certain widgets in SAP Signavio Process Intelligence require a link to a process model (e.g., a BPMN model) to generate meaningful insights by contextualizing data against a defined structure. The documentation specifies:

- \* Option A (Diagram):The Diagram Widget displays process models from the SAP Signavio Process Manager workspace and requires a link to a specific model to visualize it in the Collaboration Hub or Process Intelligence.
- \* Option D (Process Funnel):The Process Funnel Widget visualizes case progression along a process path and often needs to be linked to a process model to define the steps in the funnel, ensuring accurate representation of the process flow.
- \* Option E (Process Conformance):The Process Conformance Widget compares actual process execution against a reference BPMN model, requiring a direct link to the model to identify conformance issues.
- \* Option B (Process Discovery)is incorrect because it generates process models automatically from event logs without needing a predefined process model.

Reference:SAP Signavio Process Intelligence Widget Documentation, section on "Widget Configuration and Model Linking"; SAP Certified Associate - Process Data Analyst Study Guide, Chapter 4: Widget and Model Integration.

#### NEW QUESTION # 44

How would you start capturing process documentation? Note: There are 3 correct answers to this question.

- A. Conducting process interviews
- B. Creating process-related surveys
- C. Creating task descriptions
- D. Running workshops with process participants
- E. Verifying customer data

**Answer: A,B,D**

Explanation:

Capturing process documentation in SAP Signavio involves gathering detailed information about how processes are executed. The SAP Signavio Process Manager Documentation provides guidance:

- \* Exact Extract:"To capture process documentation, organizations should:
- \* Run workshops with process participants to map out process steps and responsibilities.
- \* Create process-related surveys to collect input from stakeholders on process details.
- \* Conduct process interviews to gather in-depth insights from key process owners or performers." (SAP Signavio Process Manager User Guide, section on "Process Documentation Methods").
- \* Explanation:
- \* Option A (Running workshops with process participants):Workshops bring together stakeholders to collaboratively map processes, identify steps, and document roles, often using tools like SAP Signavio Process Manager for modeling.
- \* Option D (Creating process-related surveys):Surveys collect feedback from a broader group of process participants, capturing details about tasks, challenges, or variations that may not emerge in workshops.
- \* Option E (Conducting process interviews):Interviews with process owners or key performers provide detailed, qualitative insights into process execution, helping to refine documentation.
- \* Option B (Creating task descriptions)is incorrect as task descriptions are an output of documentation, not a method to start capturing it.

\* Option C (Verifying customer data) is incorrect because customer data verification is related to data quality, not process documentation.
