## New CCDAK Test Vce Free | Reliable CCDAK Exam Materials

If you buy and use the CCDAK study materials from our company, we believe that our study materials will make study more interesting and colorful, and it will be very easy for a lot of people to pass their exam and get the related certification if they choose our CCDAK study materials and take it into consideration seriously. Now we are willing to introduce the CCDAK Study Materials from our company to you in order to let you have a deep understanding of our study materials. We believe that you will benefit a lot from our CCDAK study materials.

## Confluent Certified Developer for Apache Kafka Certification Examination Sample Questions (Q24-Q29):

### NEW QUESTION # 24

You need to correctly join data from two Kafka topics.  
What will allow for the co-partitioning? (Choose 2.)

- A. Both topics have the same value schema.
- B. Both topics have the same key and partitioning strategy.
- C. Both topics have the same retention time.
- D. Both topics have the same number of partitions.

**Answer: B,D**

#### NEW QUESTION # 25

We have a store selling shoes. What dataset is a great candidate to be modeled as a KTable in Kafka Streams?

- A. Items returned
- B. Money made until now
- C. The transaction stream
- D. Inventory contents right now

**Answer: A,B**

Explanation:

Aggregations of stream are stored in table, whereas Streams must be modeled as a KStream to avoid data explosion

#### NEW QUESTION # 26

You have an existing topic t1 with four partitions.

Which statement is correct about changing the number of partitions for this topic?

- A. You may decrease the partition count if you increase the replication count.
- B. You may increase the partition count and Kafka will ensure the message ordering remains the same.
- C. You may decrease the partition count if you change the partitioning algorithm.
- D. You may increase the partition count and Kafka will leave the existing data on the original partitions.

**Answer: D**

#### NEW QUESTION # 27

What is accomplished by producing data to a topic with a message key?

- A. It provides a mechanism for encrypting messages at the partition level to ensure secure data transmission.
- B. Messages with the same key are routed to a deterministically selected partition, enabling order guarantees within that partition.
- C. Consumers can filter messages in real time based on the message key without processing unrelated messages.
- D. Kafka brokers allow you to add more partitions to a given topic, without impacting the data flow for existing keys.

**Answer: B**

Explanation:

When a message key is specified in Kafka, the producer uses a partitioner (typically the default hash-based partitioner) to deterministically map all records with the same key to the same partition. Kafka guarantees order within a partition, so this enables per-key ordering.

From Kafka Producer Concepts:

"If a key is present, the producer will always route records with the same key to the same partition. Kafka preserves the order of records within a partition." This is essential for ordered processing and join semantics.

Reference: Kafka Producer Design > Partitions and Keys

#### NEW QUESTION # 28

Which statement describes the storage location for a sink connector's offsets?

- A. In a file specified by the `offset.storage.file.filename` configuration parameter
- B. In memory which is then periodically flushed to a RocksDB instance

- C. The topic specified in the offsets.storage.topic configuration parameter
- D. The \_\_consumer\_offsets topic, like any other consumer

**Answer: D**

Explanation:

Kafka Connect sink connectors use the standard Kafka consumer mechanism to track offsets, which means offsets are stored in the \_\_consumer\_offsets internal topic.

From Kafka Connect Documentation:

"Sink connectors are regular Kafka consumers and store their offsets in the \_\_consumer\_offsets topic like any other consumer." The other options refer to source connectors or worker configuration.

offsets.storage.topic is relevant for source connectors.

Reference: Kafka Connect Concepts > Sink Connectors and Offset Storage

## NEW QUESTION # 29

.....

We have always been known as the superior after sale service provider, since we all tend to take lead of the whole process after you choose our CCDAK exam questions. So you have no need to trouble about our CCDAK study materials, if you have any questions, we will instantly response to you. Our CCDAK Training Materials will continue to pursue our passion for better performance and comprehensive service of CCDAK exam.
