2026 100% Free EAPA_2025 –The Best 100% Free Fresh Dumps | New ArcGIS Pro Associate 2025 Exam Answers

Download Esri EAPA_2025 Real Exam Dumps Today. Today is the right time to learn new and in demands skills. You can do this easily, just get registered in Esri EAPA_2025 certification exam and start preparation with Esri EAPA_2025 exam dumps. The ArcGIS Pro Associate 2025 EAPA_2025 PDF Questions and practice test are ready for download. Just pay the affordable EAPA_2025 authentic dumps charges and click on the download button. Get the ArcGIS Pro Associate 2025 EAPA_2025 latest dumps and start preparing today.

Esri ArcGIS Pro Associate 2025 Sample Questions (Q12-Q17):

NEW QUESTION # 12

A GIS analyst is working with LAS data with 17 million points on the map. The points are too big and cover the underlying areas completely. The analyst needs to change the dimensions of the points.

Which action should the analyst take to meet this requirement?

- A. Decrease the symbol scale
- B. Increase the point density
- C. Decrease the display limit

Answer: A

Explanation:

Symbol scale determines the size of points when displayed. When LAS points appear too large, decreasing the symbol scale

(making symbols smaller) will reduce the visual footprint of each point and prevent them from obscuring underlying map content.

* Increasing point density (Option A) adds more points but doesn't reduce size.

* Decreasing display limit (Option B) reduces how many points are drawn but does not solve the issue of size.

* Decreasing symbol scale directly reduces the size of each point.

Therefore, the correct answer is C.

-

NEW QUESTION # 13

An organization with many editors needs to know when features have been created and edited, as well as who edited the features.

Where should the GIS administrator enable this capability?

- A. The Manage options accessed by right-clicking the feature dataset
- B. The Manage options accessed by right-clicking geodatabase
- C. The Design options accessed by right-clicking the shapefile

Answer: A

Explanation:

Editor tracking (which records who edited a feature and when) is enabled on individual feature classes or feature datasets in a geodatabase under the Manage menu. Shapefiles do not support editor tracking.

* The geodatabase (Option A) controls higher-level administrative functions but not editor tracking.

* Shapefiles (Option B) do not support editor tracking.

* The feature dataset (Option C) allows enabling editor tracking for included feature classes.

Therefore, the correct answer is C.

-

NEW QUESTION # 14

A GIS analyst has various datasets, maps, database connections, and toolboxes. The analyst plans on sharing this to their ArcGIS Online organization for easy access by coworkers.

Which package should be shared to the analyst's ArcGIS Online organization to facilitate collaboration by a coworker?

- A. Mobile map package
- B. Map package
- C. Project package

Answer: C

Explanation:

Project packages (.ppkx) contain all components of a project-including maps, layouts, database connections, styles, toolboxes, and models-making them ideal for sharing complete workspaces with coworkers who need access to everything.

* Mobile map packages (Option A) are designed for offline use on mobile devices.

* Map packages (Option B) include maps and data but do not include toolboxes, database connections, or project-level configurations.

Therefore, the correct answer is C.

-

NEW QUESTION # 15

Which raster format can ArcGIS Pro display but not write?

- A. GIF
- B. IMAGINE Image
- C. MrSID

Answer: C

Explanation:

ArcGIS Pro can read and display MrSID format rasters but cannot write or export data into MrSID format because it is a proprietary format that requires special licensing for encoding.

- * IMAGINE Image (Option A) is fully supported for both reading and writing.
 - * GIF (Option B) can be written for exporting simple images but is not ideal for full raster datasets.
 - * MrSID (Option C) is read-only by default in ArcGIS Pro.
- Therefore, the correct answer is C.

-

NEW QUESTION # 16

A GIS specialist has a feature class of flights that contains information such as origin city, destination city, and the length of time that the flight was delayed. The specialist needs to display this information in a chart and aggregate the delayed time as an average.

- A. Scatter plot
- B. Box plot
- C. Matrix heat chart

Answer: C

Explanation:

ArcGIS Pro's Matrix Heat Chart is designed for visualizing relationships between two categorical fields- such as origin and destination cities- and summarizing a numeric field, like delay time, using aggregate functions (e.g., mean). This type of chart aligns perfectly with the requirement:

- * It allows you to set Column to the destination city and Row to the origin city.
- * Then choose the Number field as delay time and the Aggregation method as "Mean" to calculate average delay.
- * The chart displays each origin#destination pair as a cell, color-coded by the calculated average delay.

Official documentation highlights this example explicitly:

"Create a matrix heat chart to identify the flights that have the highest average arrival delay time between origin and destination city by setting the following properties... Aggregation-Mean; Number-DelayTime" Other chart types don't fit the requirement:

- * Box plots are used to display distributions and identify outliers; it doesn't aggregate by category pairs.
 - * Scatter plots show relationships between numeric variables on a continuous axis- not suitable for categorical city#pair aggregation.
- Therefore, the most appropriate choice for summarizing average journey delay by city pairs is the Matrix Heat Chart (C).

NEW QUESTION # 17

.....

It means that our EAPA_2025 test questions are very useful for all people to achieve their dreams, and the high quality of our EAPA_2025 exam prep is one insurmountable problem. If you decide to choose our products as your study tool, you will be easier to pass your exam and get the EAPA_2025 Certification in the shortest time. So do not hesitate and buy our EAPA_2025 test torrent, an unexpected surprise is awaiting you, we believe you will prefer to our EAPA_2025 test questions than other study materials.
