NEW QUESTION # 331

The International Integrated Reporting Council (IIRC) was formed in August 2010 and brings together a cross- section of representatives from a wide variety of business sectors.

The primary purpose of the IIRC's framework is to help enable an organisation to communicate how it:

- A. creates value in the short, medium and long term.
- B. minimises the environmental impact of its business processes.
- C. ensures that the conflicting needs of different stakeholder groups are met in an optimal manner.
- D. contributes positively to the economic well being of the environment in which it operates.

Answer: A

Explanation:

The primary purpose of the IIRC's Integrated Reporting Framework is to help organisations explain how they create value in the short, medium and long term. That wording is taken directly from how integrated reporting is framed conceptually. So B is correct.

NEW QUESTION # 332

NEW QUESTION # 333

WX, an advertising agency, has just completed the all-cash acquisition of a competitor, YZ. This was seen by the market as a positive strategic move by WX.

Which THREE of the following will WX's shareholders expect the company's directors to prioritise following the acquisition?

- A. The regulatory approval required to complete the acquisition.
- **B. The realisation of anticipated post-acquisition synergies.**
- C. The development of a dividend policy to meet the expectations of the YZ's shareholders.
- **D. The integration and retention of key employees of YZ.**
- **E. The retention of YZ's key customers.**

Answer: B,D,E

Explanation:

CIMA F3 emphasises that shareholders expect directors to focus on value creation after an acquisition, particularly in the areas that protect and enhance the cash flows and synergies that justified the deal.

Following an all-cash acquisition, the target's former shareholders have exited, so the acquirer's shareholders will not prioritise tailoring dividends to meet the target shareholders' preferences (B is not relevant). Also, the question states the acquisition has just been completed, so regulatory approval needed to complete the acquisition (C) is no longer a priority stage item. What matters immediately is executing post-deal integration to secure the expected benefits. First, directors must ensure integration and retention of key employees from the acquired firm (A), especially in service/knowledge businesses where people drive client relationships and operational capability. Second, they must protect revenues by retaining the acquired firm's key customers (D); losing customers can destroy acquisition value quickly. Third, they must deliver the deal logic by realising anticipated post-acquisition synergies (E), such as cost savings, higher capacity utilisation, cross-selling, and process improvements. These priorities align with F3's post-merger integration focus: preserve the earnings base, then convert strategic fit into measurable synergy cash flows.
