## NVIDIA NCP-OUSD Desktop Practice Test Software- Ideal for Offline Self-Assessment

The prime objective of our NVIDIA NCP-OUSD PDF is to improve your knowledge and skills to the level that you get attain success easily without facing any difficulty. For this purpose, Prep4King hired the services of the best industry experts for developing exam dumps and hence you have preparatory content that is unique in style and filled with information. Each Prep4King brain dump, included in the NCP-OUSD Brain Dumps PDF is significant and may also be the part of the actual exam paper.

## NVIDIA-Certified Professional: OpenUSD Development (NCP-OUSD) Sample Questions (Q51-Q56):

### NEW QUESTION # 51

Which of the following statements about Subcomponents is correct?

- A. They are formal kinds in OpenUSD
- B. They act as assemblies
- C. They can exist outside of Components
- D. They mark important prims inside a Component

**Answer: D**

Explanation:

Subcomponents highlight significant prims inside Components, but they are not formal kinds.

#### NEW QUESTION # 52

Which of these data is lost when flattening a stage?

- A. variant sets
- B. prim metadata
- C. class prims
- D. scenegraph instancing

**Answer: A**

Explanation:

Flattening a stage resolves the composed result into a single merged layer, baking the effects of composition into authored scene description. The critical loss here is variant-set structure . OpenUSD's UsdStage::

Flatten() documentation states that flattening removes most composition metadata and that "all VariantSets are removed and only the currently selected variants will be present in the resulting layer." This means the flattened output preserves the currently selected representation, but the ability to switch among alternate variants is lost.

Option C is therefore correct. Option A is not the best answer because flattening authors resolved values and can preserve relevant composed metadata, although composition metadata is removed. Option B is incorrect because modern OpenUSD flattening preserves native scenegraph instancing by flattening prototypes and adding internal references from instances to their corresponding prototypes. Option D is incorrect because class prims still exist after flattening, although inherit arcs are removed and inherited data is copied onto consuming prims. This aligns with Composition # Flattening, Variant Sets, Composition Metadata, Inherits, and Scenegraph Instancing .

#### NEW QUESTION # 53

What is the difference between inherits and specializes in terms of strength?

- A. Inherits are weaker than specializes
- B. Inherits are stronger than specializes
- C. Both are equal strength

**Answer: B**

Explanation:

In LIVRPS ordering, Inherits come before Specializes, so they are stronger.

#### NEW QUESTION # 54

Which of the following can be animated with time samples?

- A. All of the above
- B. radius
- C. custom float attributes
- D. displayColor

**Answer: A**

Explanation:

Any attribute with Set(value, time=...) can be animated.

#### NEW QUESTION # 55

What command-line tool was used to launch usdview on Windows in the activities?

- A. usdview.exe
- B. .\scripts\usdview.bat

- C. usd\_inspect.bat
- D. python usdview.py

**Answer: B**

Explanation:

The provided workflow used the wrapper script .\scripts\usdview.bat for launching usdview on Windows.

## NEW QUESTION # 56

.....

We present our NCP-OUSD real questions in PDF format. It is beneficial for those applicants who are busy in daily routines. The NVIDIA NCP-OUSD PDF QUESTIONS contains all the exam questions which will appear in the real test. You can easily get ready for the examination in a short time by just memorizing NCP-OUSD Actual Questions. Prep4King PDF questions can be printed. And this document of NCP-OUSD questions is also usable on smartphones, laptops and tablets. These features of the NVIDIA NCP-OUSD PDF format enable you to prepare for the test anywhere, anytime.

**NCP-OUSD Test Simulator Fee:** <https://www.prep4king.com/NCP-OUSD-exam-prep-material.html>
