Once you have tried our technical team carefully prepared for you after the test, you will not fear to 156-521 Exam. What we have done is to make you more confident in 156-521 exam.

## CheckPoint Check Point Certified Automation Specialist - R81.20 (CCAS) Sample Questions (Q249-Q254):

### NEW QUESTION # 249

Which tools are typically used by administrators to automate security policy changes using APIs?  
(Choose two)

- A. Python scripts
- B. Ansible playbooks
- C. cphaprob
- D. cpstat

**Answer: A,B**

Explanation:

Python scripts and Ansible playbooks are widely used to automate API-driven operations like adding rules or deploying configurations. Tools like cphaprob or cpstat are used for monitoring, not automation.

### NEW QUESTION # 250

Which of the following are required fields when adding a new host using the API? (Choose two)

- A. MAC address
- B. DNS zone
- C. IP address
- D. name

**Answer: C,D**

Explanation:

Creating a new host requires specifying a name and IPv4 address. Other fields like MAC address or DNS zone are optional and used for more specific configurations.

#### **NEW QUESTION # 251**

Which of the following scripting environments are suitable for automating Gaia API operations?

(Choose two)

- A. Python with requests library
- B. SmartView
- C. Bash with curl
- D. Excel VBA

**Answer: A,C**

Explanation:

Python (using the requests module) and bash scripts (using curl) are commonly used for automating Gaia API tasks such as system configuration, interface changes, or routing updates.

#### **NEW QUESTION # 252**

If a gateway loses connection to the management server, it:

- A. Stops passing traffic
- B. Continues with the last installed policy
- C. Installs the last backup configuration
- D. Deletes all policies

**Answer: B**

#### **NEW QUESTION # 253**

What is the impact of using --format json for error responses in a script?

- A. Output is suppressed
- B. Errors are logged to the firewall
- C. You receive only numeric error codes
- D. Detailed errors can be programmatically handled

**Answer: D**

Explanation:

Error responses in JSON format include structured fields like message, code, and sometimes suggested\_action, making it easy to programmatically diagnose and respond to failures in scripts.

#### **NEW QUESTION # 254**

.....

How can you get the 156-521 certification successfully in the shortest time? We also know you can't spend your all time on preparing for your exam, so it is very difficult for you to get the certification in a short time. Don't worry, our 156-521 question torrent is willing to help you solve your problem. We have compiled such a 156-521 Guide torrents that can help you pass the 156-521 exam easily, it has higher pass rate and higher quality than other study materials. So, are you ready?
