

Reliable UiPath-TAEPv1 Dumps Ppt, Reliable UiPath-TAEPv1 Learning Materials

 **Get the Greatest UiPath-TAEPv1 Exam PDF Questions**
— Clear on Your First Try!

Are you aiming to succeed the UiPath-TAEPv1 exam questions on your very first try? Certification exams in 2025 are demanding than ever, demanding extensive knowledge and practical experience. To strengthen your chances of achievement, you need reliable and modern learning materials. **HelloDumps** provides [UiPath UiPath-TAEPv1 dumps](#) and expert-reviewed study materials to help you get ready effectively. The premier part? You can now enjoy an exclusive 35% promotion on all study materials!

Why Choose HelloDumps for Your UiPath-TAEPv1 Exam Preparation?

 **Valid UiPath-TAEPv1 Exam Questions – Secure an Lead Over Others**
HelloDumps offers actual exam-like questions, closely matched with the latest UiPath-TAEPv1 composition, difficulty level, and syllabus of the UiPath-TAEPv1 - UiPath Test Automation Engineer Professional v1.0 Exam certification. Practicing these questions helps you understand the test structure and enhances your results.

 **Retrieve UiPath-TAEPv1 - UiPath Test Automation Engineer Professional v1.0 Exam Questions 2025 Here:**
<https://hellodumps.com/uipath-taepv1-pdf-dumps.html>

 **Three User-Friendly Learning Formats**
We provide study materials in various formats to suit different learning styles:

-  **PDF Composition** – Study on any device, anytime, anywhere.
-  **Desktop Drill Test** – Simulates real exam conditions with customizable mock tests.
-  **Web-Based Exercise Test** – No installation required—practice directly

Our UiPath-TAEPv1 exam review contains the latest test questions and accurate answers along with the professional explanations. A little attention to prepare UiPath-TAEPv1 practice test will improve your skills to clear exam with high passing score. For most busy IT workers, UiPath-TAEPv1 Dumps PDF is the best alternative to your time and money to secure the way of success in the IT filed.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Environments, Applications, and• or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 2	<ul style="list-style-type: none">• UiPath Robot: This section of the exam measures the skills of RPA Developers and explains the role of testing robots and their connectivity with UiPath Orchestrator. It discusses the execution of test cases using both on-premises and cloud-based robots and highlights how different robot types support automation testing in a scalable environment.

Topic 3	<ul style="list-style-type: none"> • UiPath Studio - Data-driven Testing: This section of the exam measures the skills of RPA Developers and centers around managing test data variations using data-driven testing approaches. It explains how to add test data through queues, activities, or data sources, and how to create reusable test cases based on this data. The section also highlights connecting UiPath Studio projects to Test Manager to enhance traceability and visibility of test progress.
Topic 4	<ul style="list-style-type: none"> • UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing • exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:
Topic 5	<ul style="list-style-type: none"> • UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.
Topic 6	<ul style="list-style-type: none"> • UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.
Topic 7	<ul style="list-style-type: none"> • UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 8	<ul style="list-style-type: none"> • CI • CD Implementation: This section of the exam measures the skills of RPA Developers and introduces the concepts of Continuous Integration and Continuous Delivery (CI • CD). It covers how to implement pipelines and perform tasks using the UiPath Command Line Interface (CLI) for streamlined and automated deployments of test workflows and processes.

We stress the primacy of customers' interests, and make all the preoccupation based on your needs. We assume all the responsibilities our practice materials may bring. They are a bunch of courteous staff waiting for offering help 24/7. You can definitely contact them when getting any questions related with our UiPath-TAEPv1 practice materials. If you haplessly fail the exam, we treat it as our blame then give back full refund and get other version of practice material for free.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q90-Q95):

NEW QUESTION # 90

How can the activities covered during a test case execution in UiPath Studio be checked?

- A. By opening the Activity Coverage panel and double-clicking the test case.
- B. By opening the Descriptor Coverage panel and double-clicking the test case.

- C. By checking the Run tab under Robot Executor.
- D. By checking the Output tab in UiPath Studio.

Answer: A

Explanation:

The Activity Coverage panel in UiPath Studio shows which activities were executed during a test case run. By double-clicking the test case in this panel, you can review coverage and identify untested or redundant activities.

NEW QUESTION # 91

What is the main purpose of conducting Regression Testing in application development?

- A. Regression Testing is conducted to validate whether the software application is secure from threats.
- **B. Regression Testing is conducted to ensure that changes in the code have not affected existing functionalities.**
- C. Regression Testing is conducted to ensure the application's compatibility with different environments.
- D. Regression Testing is conducted to ensure the application's performance under high load conditions.

Answer: B

Explanation:

The main purpose of Regression Testing is to ensure that recent changes or additions to the code have not negatively impacted existing functionality. It helps maintain application stability after updates.

NEW QUESTION # 92

Considering the provided configuration for Workflow Analyzer Settings, which of the testing rules applied will be classified as a "Warning"?

□

- A. Test Case Without Annotations
- **B. Unused Mocking**
- C. Test Case Name not unique within the Project
- D. Activity Restrictions

Answer: B

Explanation:

According to the Workflow Analyzer Settings shown in the image "Unused Mocking" (code TA-DBP-004) has its Default action set to "Warning".

NEW QUESTION # 93

Which of the following activities are in scope when creating CI/CD Pipelines?

- A. Packing Studio projects Deploying NuGet packages to Orchestrator Running jobs in Orchestrator Running Test Sets in Orchestrator Creating Orchestrator Queues
- **B. Packing Studio projects Deploying NuGet packages to Orchestrator Running jobs in Orchestrator Running Test Sets in Orchestrator**
- C. Packing Studio projects Deploying NuGet packages to Orchestrator Running jobs in Orchestrator Creating Orchestrator Queues
- D. Packing Studio projects Deploying NuGet packages to Orchestrator Setting Triggers in Orchestrator Running Test Sets in Orchestrator

Answer: B

Explanation:

When creating CI/CD pipelines in UiPath, the following activities are in scope:
These actions enable automated build, test, and deployment of RPA solutions.

NEW QUESTION # 94

A developer needs to design a coded automation that approves or denies a loan application based on the loan rate. How should the Execute() entry point method be declared if it needs to return the value for (IsLoanApproved), based on the loan rate (LoanRate)?

- A. public bool Execute (bool IsLoanApproved, int loanRate)
- B. public (bool IsLoanApproved) Execute(int LoanRate)
- C. public (int LoanRate) Execute(bool IsLoanApproved)
- D. public int Execute (bool IsLoanApproved)

Answer: A

Explanation:

The correct method signature for a coded automation in UiPath that needs to process input (loanRate) and return a value (IsLoanApproved) is:

```
**public bool Execute(bool IsLoanApproved, int loanRate)**
```

This follows the standard format where input parameters are passed to the method, and the result is returned via the method's return type.

NEW QUESTION # 95

• • • • •

Many candidates are interested in our software test engine of UiPath-TAEPv1. This version is software. If you download and install on your personal computer online, you can copy to any other electronic products and use offline. The software test engine of UiPath-TAEPv1 is very practical. It can be used on Phone, Ipad and so on. You can study any time anywhere you want. Comparing to PDF version, the software test engine of UiPath UiPath-TAEPv1 also can simulate the real exam scene so that you can overcome your bad mood for the real exam and attend exam casually.
