## EPIC EDI101 Bridges Interfaces Questions and Answers

Does every HL7 message have to be encoded with the characters 1A-8?

ANSWER: No, the encoding characters can be any printable character.

Imagine that your message begins with MSH1A81. How would you encode the string "The result is positive & has a value of 2.7 x 10A3."?

ANSWER: The result is positive \T\ has a value of 2.7 x 10\S\3.

Why is the NTE segment special?

ANSWER: Context; its meaning depends on the segment it follows

What is the difference between receiving an empty field |I and the delete sequence?

ANSWER: An empty field is ignored by the interface, whereas the delete character will delete information from the database, assuming the field in question supports the delete character.

Aside from HL7 Version 2, name two other standards supported in Bridges?

ANSWER: X12, FHIR, NCPDP, DICOM, and Direct.

What is Bridges?

ANSWER: Epic's interfacing messages along with the application. It consists of both the interface infrastructure to build, send, receive, and file messages along with the tools and utilities to maintain those interfaces

What are stored in the Event Queue, Data Queue, and Control Queue?

ANSWER: The Event Queue contains the information needed to build a message. Usually this is a patient ID, an encounter DAT, and the type of message to be built, amongst other information.

The Data Queue contains the text of HL7 messages and additional metadata. The Control Queue is a to-do list of message numbers to send or file.

Are messages ever manually deleted from the Data Queue?

ANSWER: No, never. They are purged only by an automated purge job.

What are two ways that interface messages are sent and received?

Up to now, there are three versions of EDI101 exam materials for your choice. So high-quality contents and flexible choices of EDI101 learning mode will bring about the excellent learning experience for you. Though the content of these three versions of our EDI101 study questions is the same, their displays are totally different. And you can be surprised to find that our EDI101 learning quiz is developed with the latest technologies as well.

This EDI101 exam material contains all kinds of actual EPIC EDI101 exam questions and practice tests to help you to ace your exam on the first attempt. A steadily rising competition has been noted in the tech field. Countless candidates around the globe aspire to be EPIC EDI101 individuals in this field.

## Quiz 2026 EDI101: CEE: Bridges Interfaces Application Essentials Exam (2026 Version) – Professional Certification Exam Infor

Selecting the right method will save your time and money. If you are preparing for EDI101 exam with worries, maybe the professional exam software provided by IT experts from BraindumpsPrep will be your best choice. Our BraindumpsPrep aims at helping you successfully Pass EDI101 Exam. If you are unlucky to fail EDI101 exam, we will give you a full refund of the cost you purchased our dump to make up part of your loss. Please trust us, and wish you good luck to pass EDI101 exam.

# EPIC CEE: Bridges Interfaces Application Essentials Exam (2026 Version)

## Sample Questions (Q11-Q16):

### NEW QUESTION # 11

All Triggers in Interface System Defaults can only be configured to trigger messages to a single interface.

- A. False
- B. True

**Answer: A**

Explanation:

Epic 's trigger logic is highly flexible. A single event in Chronicles (such as a patient admission) can be configured within the System Defaults or specialized trigger tables to send data to multiple interfaces simultaneously. This is common when an admission needs to notify a Lab system, a Pharmacy system, and a Dietary system all at once.

### NEW QUESTION # 12

Why does Epic strongly recommend or require Patient Validation on incoming interfaces?

- A. Help maximize revenue
- B. Ensure data files to the correct patient
- C. File data into the system faster
- D. Prevent the creation of duplicate patients

**Answer: B**

Explanation:

Patient Validation is a critical safety feature. Its primary purpose is to cross-reference multiple identifiers (like Name, DOB, and Sex) received in a message against the record found via the ID. If the ID points to " John Doe " but the message text says " Jane Smith, " validation will fail and prevent clinical data from filing to the wrong patient record , which is a major patient safety risk.

### NEW QUESTION # 13

Editing a message in the messages activity can overwrite existing messages on the data queue.

- A. False
- B. True

**Answer: A**

Explanation:

When you edit a message within the Bridges Messages activity, you are not overwriting the original message on the data queue. Instead, Bridges typically creates a new version of the message for resubmission or processing, preserving the original message 's history and integrity for auditing purposes. The original data remains intact as part of the interface 's message log.

### NEW QUESTION # 14

For incoming interfaces using Interconnect, which process puts the message on the data queue?

- A. Filer Daemon
- B. Interconnect
- C. Communications Daemon
- D. Event Daemon

**Answer: B**

Explanation:

When an interface uses Interconnect (Epic 's HTTPS-based framework) for incoming data, Interconnect receives the message directly via a web service call. Because it is an HTTPS connection rather than a standard TCP/IP socket, Interconnect handles the initial receipt and places the message directly onto the Bridges Data Queue for the Filer Daemon to process.

### NEW QUESTION # 15

Which queue is unique to outgoing interfaces?

- A. Holding Queue
- **B. Event Queue**
- C. Control Queue
- D. Data Queue

**Answer: B**

Explanation:

The Event Queue is the first stop for outgoing data. When an action occurs in Epic (like a discharge), a trigger is placed in the Event Queue. The Event Daemon then picks up this trigger to build the actual message.

Incoming interfaces do not use an Event Queue because the message is already built by the external system when it arrives.

### NEW QUESTION # 16

.....

Our EPIC EDI101 desktop-based practice software is the most helpful version to prepare for CEE: Bridges Interfaces Application Essentials Exam (2026 Version) exam as it simulates the real certification exam. You can practice all the difficulties and hurdles which could be faced in an actual CEE: Bridges Interfaces Application Essentials Exam (2026 Version) EDI101 Exam. It also assists you in boosting confidence.
