

Exam D-PWF-OE-00 Tests - Free D-PWF-OE-00 Vce Dumps

BONUS!!! Download part of PassExamDumps D-PWF-OE-00 dumps for free: <https://drive.google.com/open?id=1z6sT8J4Zs2I1rKJJobpNBKgnjtaS-6-3>

As is known to us that pass rate is one of the most important standards when candidate choose the practice materials. The pass rate is 98.95% for D-PWF-OE-00 training materials, and you can pass and get a certificate successfully. In addition we also pass guarantee and money back guarantee if you fail to pass the exam after using D-PWF-OE-00 Exam Dumps. Free update for one year is also available, namely in the following year, you can get latest information about the D-PWF-OE-00 training materials. We also have online and offline chat service to solve your confusions.

Our D-PWF-OE-00 study materials combine the key information about the test in the past years' test papers and the latest emerging knowledge points among the industry to help the clients both solidify the foundation and advance with the times. We give priority to the user experiences and the clients' feedback, D-PWF-OE-00 Study Materials will constantly improve our service and update the version to bring more conveniences to the clients and make them be satisfied.

D-PWF-OE-00 Exam Torrent - Dell PowerFlex Operate Exam Prep Torrent & D-PWF-OE-00 Test Braindumps

If you prefer to have your practice online, then you can choose us. D-PWF-OE-00 PDF version is printable and you can print them into hard one and take some notes on them. In addition, D-PWF-OE-00 exam dumps have free demo for you to have a try, so that you can have a deeper understanding of what you are going to buy. You can receive your download link and password within ten minutes for D-PWF-OE-00 Exam Dumps. We have online and offline chat service stuff for D-PWF-OE-00 exam materials, and if you have any questions, you can have a conversation with us, and we will give you reply as soon as we can.

EMC Dell PowerFlex Operate Exam Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which components can be monitored via the PowerFlex GUI? (Choose two).

- A. System performance metrics
- B. Network latency
- C. Virtual machine backups
- D. Storage pool health

Answer: A,D

Explanation:

The PowerFlex Dashboard provides a high-level view of the storage environment.

Storage pool health (Option B): The GUI displays the capacity usage (Used vs. Free) and the health status (Green/Red) of all Storage Pools. It highlights if a pool is running out of space or has failed drives.

System performance metrics (Option D): The dashboard features real-time graphs showing IOPS (Input/Output Operations Per Second), Bandwidth (MB/s), and Latency (ms) for the overall cluster, as well as for individual volumes and SDS nodes.

NEW QUESTION # 14

Enabling Maintenance Mode on a node allows it to be removed from the cluster without impacting data availability. True. False.

- A. True
- B. False

Answer: A

Explanation:

* True: The specific purpose of Protected Maintenance Mode (PMM) is to ensure data availability.

* How it works: When you enable PMM on a node, the system checks the data chunks residing on that node. Before the node is allowed to effectively "leave" the cluster (stop serving I/O), PowerFlex copies (mirrors) that data to other nodes in the cluster. This ensures that even when the node is physically removed or rebooted, the cluster retains the required number of data copies (redundancy), ensuring no data is unavailable (DU) or lost (DL).

NEW QUESTION # 15

Which steps are necessary before initiating a PowerFlex upgrade? (Choose two).

- A. Create snapshots of all volumes
- B. Reconfigure fault sets for redundancy
- C. Back up the cluster configuration
- D. Verify node hardware compatibility

Answer: C,D

Explanation:

Preparation is key to a safe upgrade.

* Back up the cluster configuration (Option C): Before making any changes, administrators should perform a backup of the MDM Cluster configuration. This creates a recovery point for the system's metadata (mappings, settings, user accounts) in case a catastrophic failure occurs during the upgrade.

* Verify node hardware compatibility (Option A): Administrators must ensure that the hardware (server model, CPU, NICs) and the current firmware levels are compatible with the new PowerFlex software version. Running the Health Check or Pre-Upgrade Validation tool will confirm if the nodes meet the strict requirements (HCL) for the target version.

Incorrect Options: Creating snapshots of all volumes (B) is not a system upgrade requirement (though good for data safety, it's not part of the upgrade procedure itself). Reconfiguring fault sets (D) is a structural change, not a pre-upgrade step.

NEW QUESTION # 16

What are the benefits of using shared file systems in PowerFlex? (Choose two).

- A. Simplifies data sharing between nodes
- B. Provides high availability for shared data
- C. Enhances fault tolerance
- D. Enables deduplication and compression

Answer: A,B

Explanation:

PowerFlex File (NAS) is designed for concurrent access.

* Simplifies data sharing between nodes (Option A): The core benefit of a shared file system (NFS /SMB) is that multiple compute nodes (Clients) can access the exact same files simultaneously. This is essential for clustered applications, user home directories, or shared logs.

* Provides high availability for shared data (Option D): PowerFlex File uses clustered NAS headers (NAS Nodes). If one NAS node fails, the IP address and file handles are automatically failed over to a surviving NAS node. This ensures that clients do not lose access to the data, maintaining high availability.

NEW QUESTION # 17

Which task is a valid operation for manipulating volumes in PowerFlex?

- **A. Create snapshots of the volume**
- B. Assign volumes to fault sets
- C. Configure VLAN tagging for the volume
- D. Add volumes to metadata managers

Answer: A

Explanation:

Administrators perform various operations on Volumes to manage data lifecycles.

Create snapshots of the volume (Option B): This is a standard Day-2 operation. A user can select a volume and trigger a snapshot (or a consistency group snapshot). This creates a point-in-time, writable copy of the volume instantly.

NEW QUESTION # 18

.....

Under the support of our study materials, passing the exam won't be an unreachable mission. More detailed information is under below. We are pleased that you can spare some time to have a look for your reference about our D-PWF-OE-00 test prep. As long as you spare one or two hours a day to study with our laTest D-PWF-OE-00 Quiz prep, we assure that you will have a good command of the relevant knowledge before taking the exam. What you need to do is to follow the D-PWF-OE-00 exam guide system at the pace you prefer as well as keep learning step by step.
