- A. Four
- B. Fourteen
- **C. Seven**
- D. Three
- E. Five

Answer: C

NEW QUESTION # 82

After meeting with the program sponsor and stakeholders, the program manager is asked by the sponsor to accelerate the program to replace two legacy financial systems. The legacy systems are at risk of premature failure. What should the program manager do next?

- A. Create several "what-if" scenarios of alternatives to present to the program sponsor
- **B. Analyze the impact of accelerating the program, and present the pros and cons to the program sponsor**
- C. Identify the parts of the program that need to be accelerated and, if it is cost effective and increases benefits realization, implement the change
- D. Accelerate the projects and components of the program that replace the two legacy systems

Answer: B

NEW QUESTION # 83

An IT program manager is concerned that a program is not achieving its defined incremental benefits due to a lack of delivery by the business team. The IT team has several dependencies on the business team throughout the program. However the business team does not report to the IT program manager and only two business team resources with the appropriate skills are available to complete the required program tasks. To address this issue, what should the IT program manager do next?

- A. Escalate the lack of commitment by the business team to the program steering committee; hire a new project resource to complete the required tasks; update the program risk register to include risk mitigation steps
- B. Schedule a meeting with the business team to discuss transferring the two business team resources to the IT team, update the program risk register to include risk mitigation steps
- C. Modify the program milestone dates to include a larger contingency, determine the impact on the project implementation date, and update the benefits management plan
- **D. Review and clarify the business team's program roles and responsibilities determine the schedule impact on benefits Delivery direct the IT project manager to meet with the business team to ensure dependencies are understood and that the appropriate resources can be made available.**

Answer: D

NEW QUESTION # 84

A new program manager joins a multi-year program that has been underway for almost a year. During interviews, several stakeholders state that they do not understand how the program will help the organization. At the next stakeholder meeting, what should the program manager present to address their concerns?

- A. Expected program benefits management plan
- **B. Business case and program roadmap**
- C. Program scope assessment results
- D. Program charter

Answer: B

NEW QUESTION # 85

Exhibit:
