To pass the DSCI Certified Privacy Lead Assessor DCPLA certification test in a short time, you must prepare with DCPLA Exam Questions that are real and updated. Without studying with DCPLA actual questions, candidates fail and waste their time and money.

DSCI Certified Privacy Lead Assessor DCPLA certification Sample Questions (Q72-Q77):

NEW QUESTION #72

Which of the following provisions of Information Technology (Amendment) Act, 2008 deal with protection of PI or SPDI of Individuals?

- A. Section 43 Aand Section 65
- B. Section 43 Aand Section 72 A
- C. Section 43A
- D. Section 65

Answer: B

Explanation:

The Information Technology (Amendment) Act, 2008 introduced critical provisions for data protection:

- * Section 43A: Mandates compensation for failure to protect personal data by a body corporate handling sensitive personal data or information (SPDI).
- * Section 72A: Imposes penalties for disclosure of information in breach of lawful contracts.

These two sections form the legal basis for protection of personal data under the IT Act in India.

NEW QUESTION #73

Which of the following is not an objective of VPI?

- A. Assess the current state of data spread and transactions of the organization to map this against its privacy objectives
- B. To enable identification of processes, functions and relationships handling personal information
- C. Enable an organization to map its data operations and categorization of PI
- D. None of the above

Answer: D

NEW QUESTION #74

Which of the following factors is least likely to be considered while implementing or augmenting data security solution for privacy protection?

- A. Security controls deployment at the database level
- B. Information security infrastructure up-gradation in the organization
- C. Classification of data type and its usage by various functions in the organization
- D. Training and awareness program for third party organizations

Answer: D

Explanation:

While training third-party organizations is a relevant privacy governance function, it is not a primary technical or operational consideration when implementing data security solutions.

The other options (A, B, and C) directly relate to core security architecture, system-level controls, and data governance - all essential for privacy protection at a system level.

Hence, D is least likely to be considered in technical implementation.

NEW QUESTION #75

As a newly appointed Data Protection Officer of an IT company gearing up for DSCI's privacy certification, you are trying to understand what data elements are involved in each of the business process, function and if these data elements can be classified as sensitive personal information. What is being accomplished with this effort?

- A. Organization to get "Visibility" over its exposure to sensitive personal information
- B. It is a part of the annual exercise per the organization's privacy policy / processes
- C. Information security controls for confidential information being reviewed
- D. Gathering inputs to restructure privacy function

Answer: A

Explanation:

The described activity directly aligns with the objectives of the "Visibility over Personal Information (VPI)" practice area of the DSCI Privacy Framework. VPI involves:

- * Mapping personal data across all business processes and functions
- * Identifying whether such data qualifies as personal or sensitive personal information (SPI)
- * Establishing a baseline understanding of data exposure and privacy risk This is the first and foundational step in privacy governance to ensure all subsequent controls are accurately targeted.

NEW QUESTION #76

Can a DSCI Certified Lead Assessor for Privacy, not currently an employee of a DSCI Accredited Organization, conduct external assessment leading to DSCI Privacy certification?

- A. True
- B. False

Answer: A

NEW QUESTION #77

Disposable vapes
