Our Salesforce Certified Tableau Data Analyst exam prep has taken up a large part of market. with decided quality to judge from customers' perspective. If you choose the right Analytics-DA-201 Practice Braindumps, it will be a wise decision. Our behavior has been strictly ethical and responsible to you, which is trust worthy.

### Salesforce Certified Tableau Data Analyst Sample Questions (Q72-Q77):

#### NEW QUESTION # 72

Open the link to Book1 found on the desktop. Open the CategoryPercentage worksheet.

Modify the bar chart show the percentage of sales for each Subcategory within every Category. The total percentage for every Category must be 100%.

□

#### Answer:

Explanation:

check the steps below in explanation.

Explanation:

To modify the bar chart to show the percentage of sales for each Subcategory within every Category, you need to do the following steps:

- \* Open the link to Book1 found on the desktop. This will open the Tableau workbook that contains the CategoryPercentage worksheet.
- \* Click on the CategoryPercentage tab at the bottom of the workbook to open the worksheet. You will see a bar chart that shows the total sales for each Subcategory across all Categories.
- \* Right-click on Sales on the Columns shelf and select Add Table Calculation from the menu. This will open a dialog box that allows you to apply a calculation to your measure.
- \* Select Percent of Total from the Calculation Type drop-down list. This will calculate the percentage of sales for each Subcategory out of the total sales for all Subcategories.
- \* Select Category from the Compute Using drop-down list. This will calculate the percentage of sales for each Subcategory within every Category, instead of across all Categories. The total percentage for every Category will be 100%.
- \* Click OK to apply the table calculation. You will see that the bar chart now shows the percentage of sales for each Subcategory within every Category.

#### NEW QUESTION # 73

A Data Analyst has a workbook that uses an extracted data source.

The analyst publishes the workbook to Tableau Server.

Which three actions can the analyst perform from the Extract Refresh page in Tableau Server? (Choose three.)

- A. Change the refresh from full to incremental
- B. Delete the refresh
- C. **Modify the frequency of the refresh**
- D. Run a refresh
- E. Change the priority of the refresh

**Answer: C,D,E**

#### **NEW QUESTION # 74**

A Data Analyst needs to update an existing dashboard. The current dashboard shows financial results data, and users have asked for a comparison of budgets to be added to the dashboard. A new data source has been created that includes both the actual costs and budgets and was published to the corporate Tableau site.

How should the analyst update the existing dashboard?

- A. **Edit the existing workbook on the Tableau site and connect to the new data source. From the Data menu, choose Replace Data Source.**
- B. Edit the existing workbook on the Tableau site and connect to the new data source. Blend the new data source with the existing data source.
- C. Create a copy of the existing workbook, open it in Tableau Desktop, and connect to the new data source. Update each sheet, using fields from the new data source.
- D. Create a new workbook in Tableau Desktop and connect to the new data source. Copy and paste all the tabs from the old workbook into the new one.

**Answer: A**

#### **NEW QUESTION # 75**

You are the owner of an alert.

You receive an email notification that the alert was suspended

From where can you resume the suspended alert?

- A. The Shared with Me page
- **B. The My Content area of Tableau web pages**
- C. The Data Source page of Tableau Desktop
- D. The Notification area of Tableau Prep

**Answer: B**

Explanation:

To resume a suspended alert, you need to go to the My Content area of Tableau web pages, where you can see all the alerts that you own or subscribe to. You can click on the alert name and then select Resume from the menu. You can also edit or delete the alert from there. References: <https://help.tableau.com/current/pro/desktop/en-us/alerts.htm>

[https://help.tableau.com/current/pro/desktop/en-us/alerts\\_manage.htm](https://help.tableau.com/current/pro/desktop/en-us/alerts_manage.htm) In Tableau, the "My Content" area on the web interface is the place where a user can manage their content, including workbooks, data sources, and alerts. If an alert is suspended, the owner of the alert can go to the "My Content" area to resume it.

#### **NEW QUESTION # 76**

You want to add a draft watermark to a dashboard as shown in the following exhibit.

□ Which type of object should you use?

- A. Sheet
- B. Horizontal
- C. Web page
- **D. Image**

**Answer: D**

### Explanation:

References: <https://help.tableau.com/current/pro/desktop/en-us/dashboards.htm> [https://help.tableau.com/current/pro/desktop/en-us/dashboards\\_create\\_layouts.htm](https://help.tableau.com/current/pro/desktop/en-us/dashboards_create_layouts.htm) [https://help.tableau.com/current/pro/desktop/en-us/dashboards\\_create\\_watermarks.htm](https://help.tableau.com/current/pro/desktop/en-us/dashboards_create_watermarks.htm)

To add a draft watermark to a Tableau dashboard, you would use an image object. You can overlay this image across your dashboard, possibly with some transparency, to achieve the watermark effect without interfering with the readability of the dashboard content.

## NEW QUESTION # 77
