

# Free PDF 2026 Professional Pure Storage Reliable FlashArray-Implementation-Specialist Braindumps Pdf

DOWNLOAD the newest Pass4sures FlashArray-Implementation-Specialist PDF dumps from Cloud Storage for free:  
[https://drive.google.com/open?id=1Uzf7hJ2UfQ\\_DuXiFuJEs9jRUv6YhnLeg](https://drive.google.com/open?id=1Uzf7hJ2UfQ_DuXiFuJEs9jRUv6YhnLeg)

You must want to know your scores after finishing exercising our FlashArray-Implementation-Specialist study materials, which help you judge your revision. Now, our windows software and online test engine of the FlashArray-Implementation-Specialist study materials can meet your requirements. You can choose from two modules: virtual exam and practice exam. Then you are required to answer every question of the FlashArray-Implementation-Specialist Study Materials. In order to make sure you have answered all questions, we have answer list to help you check.

## Pure Storage FlashArray-Implementation-Specialist Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Installation: This section of the exam measures the skills of Enterprise Infrastructure Technicians and focuses on executing a successful installation of FlashArray systems. It tests the ability to perform physical setup, cabling, configuration of network settings, and the application of initial system configurations necessary for full deployment.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Pre-Installation</li><li>• Upgrade: This section of the exam measures the skills of Enterprise Infrastructure Technicians and covers all preparation activities before deploying or upgrading a Pure Storage FlashArray. It includes understanding environmental requirements, verifying prerequisites, checking compatibility, and validating system readiness through appropriate tools and documentation.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Post-Installation</li><li>• Upgrade: This section of the exam measures the skills of FlashArray Implementation Specialists and evaluates how professionals confirm system functionality after installation or an upgrade. It involves validating connectivity, running health checks, confirming configurations, and ensuring that the deployment meets operational expectations.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Upgrades: This section of the exam measures the skills of FlashArray Implementation Specialists and focuses on tasks involved in managing firmware and software upgrades. Candidates must demonstrate knowledge of upgrade planning, verification steps, and rollback procedures, ensuring that systems are updated with minimal disruption to service.</li></ul>

## FlashArray-Implementation-Specialist Testing Center | Latest FlashArray-Implementation-Specialist Exam Discount

We are stable and Reliable FlashArray-Implementation-Specialist Exam Questions providers for persons who need them for their exam. We have been staying and growing in the market for a long time, and we will be here all the time, because our excellent quality and high pass rate. As for the safe environment and effective product, there are thousands of candidates are willing to choose our Pure Storage Certified FlashArray Implementation Specialist study question, why don't you have a try for our study materials, never let you down!

### Pure Storage Certified FlashArray Implementation Specialist Sample Questions (Q53-Q58):

#### NEW QUESTION # 53

A customer would like to consolidate their SAS shelves and wants to evacuate multiple shelves in parallel. What is a prerequisite for this procedure?

- A. Purity must be upgraded to 6.x
- B. The array chassis must be fully populated with modules.
- C. The array usage percentage must be lower than 60%

**Answer: C**

Explanation:

To evacuate multiple shelves in parallel safely during consolidation, the array's usage must be sufficiently low (under 60%) to ensure enough free capacity for data movement.

#### NEW QUESTION # 54

Which PCIe slot supports 4-port FC cards on FlashArray//XL?

- A. 0
- B. 1
- C. 2

**Answer: A**

Explanation:

On FlashArray//XL, the PCIe slot 8 supports installation of 4-port Fibre Channel cards, allowing higher port density for SAN connectivity.

#### NEW QUESTION # 55

An Implementation Engineer is onsite to install a new DFM data pack (DP) to CH0.BAY10-CH0.BAY19 of a FlashArray.

After adding the drives to the chassis, which command should the Implementation Engineer run to verify if the new DP is in a wide write group?

- A. `puredrive list --pack CH0.BAY10`
- B. `puredb list drives`
- C. `find_drive.py`

**Answer: A**

Explanation:

The `puredrive list --pack` command shows detailed information about the specified data pack, including whether its drives are part of a wide write group.

### NEW QUESTION # 56

A customer has ordered several FlashArrays and wants to have ActiveCluster configured. What is the maximum quantity of arrays supported with ActiveCluster?

- A. 0
- B. 1
- C. 2

**Answer: C**

Explanation:

FlashArray ActiveCluster is designed for synchronous replication between two FlashArray systems, enabling active-active configurations across two sites. This setup allows both arrays to serve I/O simultaneously, providing high availability and zero RPO (Recovery Point Objective). Each array in the ActiveCluster configuration maintains identical volume identities, ensuring seamless access for hosts regardless of the array they connect to. The configuration supports metro-area clustering, with a maximum round-trip latency of 11 milliseconds between arrays. Additionally, the Pure1 Cloud Mediator or an on-premises mediator is utilized to manage failover and prevent split-brain scenarios, eliminating the need for a third site or external gateway.

While ActiveCluster supports a two-site configuration, it does not support additional arrays within the same synchronous setup. For scenarios requiring protection across more than two sites, asynchronous replication solutions like ActiveDR™ can be employed. ActiveDR allows for asynchronous replication to a third site, providing broader disaster recovery capabilities. Therefore, the maximum number of arrays supported in a single ActiveCluster configuration is two.

### NEW QUESTION # 57

Which enablement feature will cause Mirrored Write statistics to appear in the Analysis section of the FlashArray Purity 6.x GUI?

- A. ActiveDR
- B. FA File
- C. ActiveCluster (AC)

**Answer: C**

Explanation:

Mirrored Write statistics appear in the Purity GUI's Analysis section when ActiveCluster is enabled, as it tracks synchronous replication activity between clusters.

### NEW QUESTION # 58

.....

Evaluate your own mistakes each time you attempt the desktop Pure Storage Certified FlashArray Implementation Specialist (FlashArray-Implementation-Specialist) practice exam. It expertly is designed FlashArray-Implementation-Specialist practice test software supervised by a team of professionals. There is 24/7 customer service to help you in any situation. You can customize your desired FlashArray-Implementation-Specialist Exam conditions like exam length and the number of questions.
