NEW QUESTION # 31

How many cases are required to test the tax system specification as described below, using a decision table which is not collapsed?
Tax system

A tax system needs to be updated due to new legislation. For a person with a salary of less than € 20.000 and who is married, the tax needs to be recalculated. If the person also has more than two and less than five children, an additional 10% reduction is applicable.

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:
Eight cases are required to test the tax system specification using a decision table that is not collapsed. A decision table is a technique that shows the combinations of conditions and actions for a given scenario. A decision table that is not collapsed contains all possible combinations of conditions and actions, regardless of whether they are valid or not. The conditions for this scenario are:
* Salary less than €20 000
* Married
* Number of children more than two and less than five
The number of cases is equal to the number of possible combinations of these conditions, which is 2
