## 1z0-1057-25 Vce File & 1z0-1057-25 New Study Plan

Several advantages we now offer for your reference. On the one hand, our 1z0-1057-25 learning questions engage our working staff in understanding customers' diverse and evolving expectations and incorporate that understanding into our strategies, thus you can 100% trust our 1z0-1057-25 Exam Engine. On the other hand, the professional 1z0-1057-25 study materials determine the high pass rate. According to the research statistics, we can confidently tell that 99% candidates after using our products have passed the 1z0-1057-25 exam.

## Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q71-Q76):

### NEW QUESTION # 71

Your organization has a requirement to create and apply a new theme for the application user interface. Which option allows you to achieve this requirement?

- A. Structure Page
- B. User Interface Text
- C. Appearance Page
- D. Setup and Maintenance Work Area

**Answer: C**

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench. Reference:

#### NEW QUESTION # 72

Which two statements are true about a project in "Draft" status? (Choose two.)

- **A. Project managers can view draft projects on the Project Manager Dashboard and use the projects for requirements planning.**
- **B. Team members cannot see the tasks from draft projects on the Team Member Dashboard or in the My Work area.**
- C. Project managers can neither view draft projects on the Project Manager Dashboard nor use the projects for requirements planning.
- D. Team members can see the tasks from draft projects on the Team Member Dashboard or in the My Work area.

**Answer: A,B**

Explanation:

Reference [https://docs.oracle.com/cloud/latest/projectcs\\_gs/OAPEM/OAPEM1122096.htm](https://docs.oracle.com/cloud/latest/projectcs_gs/OAPEM/OAPEM1122096.htm) The following table lists the project statuses and what you can do with projects in that status.

Project Status

What you can do?

Draft

- \* Project managers can view draft projects in the Project Manager Dashboard and use the projects for requirements planning.
- \* Team members can't see the tasks from draft projects on the Team Member Dashboard or in the My Work area.

Active

- \* Project managers can view active projects in the Project Manager Dashboard and use the projects for requirements planning, project execution, and reporting.
- \* Team members can view task assignments on active projects on the Team Member Dashboard and My Work area.

Pending Close

- \* Project managers can view pending projects in the Project Manager Dashboard and use the projects for project tracking, and reporting.
- \* Team members can view task assignments on pending projects on the Team Member Dashboard and My Work area.

Submitted

- \* Project managers can view submitted projects in the Project Manager Dashboard and use the projects for project tracking, and reporting.
- \* Team members can view task assignments on submitted projects on the Team Member Dashboard and My Work area

- \* Project managers can't view closed projects in the Project Manager Dashboard or use the projects for requirements planning, project execution, and reporting.
- \* Team members can't view tasks of closed projects on the Team Member Dashboard or in the My Work area.

#### NEW QUESTION # 73

Which two attributes are available while enabling a task as a business object for social networking?

- A. Project Number
- **B. Project**
- C. Creation Date
- **D. Task**
- E. Task Number

**Answer: B,D**

Explanation:

To enable a task as a business object for social networking, you need to select the task and the project attributes. These attributes allow you to identify the task and the project it belongs to, and to view the social conversations related to them. Task number and creation date are not available as attributes for social networking. Project number is available, but it is not required to enable a task as a business object. Reference:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-tasks.html#OAPFM2355891>

#### **NEW QUESTION # 74**

You are set up as a Follower in Manage Tasks. Which two abilities can you accomplish? (Choose two.)

- **A. Receive email notifications about changes that team members make to a task.**
- B. Edit task details.
- C. Enter progress for tasks.
- **D. View task details and the task activity stream**

**Answer: A,D**

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapem/execute-project-tasks-and-deliverables.html#OAPEM1122082> Followers are persons who aren't working on the task but have an interest in reviewing the task progress. Only the resources and other followers can add followers to a task. If a resource assigns the task to another team member, the application automatically changes the original resource to a follower.

What's the difference between my tasks and tasks that I follow?

\* You can edit task details and enter progress for your tasks on the Manage Tasks page. If a task has multiple resources, only the primary resource can edit the task.

\* When you follow a task, you can view the task details and see the task activity stream. You receive e-mail notifications of changes that team members make to the task.

\* If a resource reassigns the task to another team member, then the previous resource automatically becomes a follower.

#### **NEW QUESTION # 75**

Which application generates external roles to grant both function and data security? (Choose the best answer .)

- A. Functional Setup Manager
- B. Authorization Policy Manager
- **C. Oracle Identity Manager**
- D. Business Process Manager

**Answer: C**

Explanation:

Authorization Policy Manager (APM)

APM greatly simplifies the creation, configuration, and administration of application policies. APM does not support the management of users and external roles; these artifacts can only be viewed with the tool. Their provision and management is typically accomplished using Oracle Identity Manager. Oracle Identity Manager (OIM) In regard to enterprise users and external roles, Authorization Policy Manager provides viewing and searching functionality only. To manage users and external roles, use Oracle Identity Manager or some other identity management tool.

OIM provision users, roles, and defines what a user can do in Oracle Cloud. Duty Roles are mapped to jobs and assigned access privileges (Data Security)

#### **NEW QUESTION # 76**

.....

Different from all other bad quality practice materials that cheat you into spending much money on them, our 1z0-1057-25 exam
