What's more, part of that ActualVCE OGA-031 dumps now are free: [https://drive.google.com/open?id=1d\\_6JJ2hf4mGt\\_QNn00M1imoX6vq2JoIs](https://drive.google.com/open?id=1d_6JJ2hf4mGt_QNn00M1imoX6vq2JoIs)

We are doing our utmost to provide services with high speed and efficiency to save your valuable time for the majority of candidates. The The Open Group OGA-031 materials of ActualVCE offer a lot of information for your exam guide, including the questions and answers. ActualVCE is best website that providing The Open Group OGA-031 Exam Training materials with high quality on the Internet. With the learning information and guidance of ActualVCE, you can through The Open Group OGA-031 exam the first time.

The Open Group is a global consortium that provides IT standards and certifications to organizations worldwide. One of their most popular certifications is the ArchiMate 3 Part 1 exam, also known as OGA-031. OGA-031 exam is designed to test an individual's understanding of the ArchiMate modeling language, which is used to describe and analyze enterprise architectures.

The ArchiMate 3 Part 1 Exam is divided into two parts. Part 1 is a multiple-choice exam that consists of 40 questions, which must be completed within 60 minutes. OGA-031 exam covers the basics of the ArchiMate modeling language, including the concepts, notation, and syntax for creating enterprise architecture models. OGA-031 Exam also tests the candidate's knowledge of the different layers of the ArchiMate framework, including the business, application, and technology layers. A passing score of 60% is required to obtain ArchiMate 3 Part 1 certification.

The Open Group is a leading consortium of organizations that develops open standards for enterprise architecture, cloud computing, security, and other areas. Its ArchiMate 3 standard is widely used by organizations around the world. The OGA-031 (ArchiMate 3 Part 1) Certification Exam is an official certification offered by The Open Group. It is a globally recognized credential that demonstrates your expertise in ArchiMate 3.

**Free PDF Quiz Marvelous OGA-031 - ArchiMate 3 Part 1 Exam Valid Test Dumps**

In cyber age, it's essential to pass the OGA-031 exam to prove ability especially for lots of office workers. Our company, with a history of ten years, has been committed to making efforts on developing OGA-031 exam guides in this field. We have won wonderful feedback from customers and ceaseless business and continuously worked on developing our OGA-031 Exam prepare to make it more received. Moreover, our understanding of the importance of information technology has reached a new level. Efforts have been made in our experts to help our candidates successfully pass OGA-031 exam.

## The Open Group ArchiMate 3 Part 1 Exam Sample Questions (Q50-Q55):

### NEW QUESTION # 50

What relationship is allowed from a technology function to an application function?

- A. Aggregation
- B. Influence
- C. Realization
- D. Assignment

**Answer: D**

Explanation:

According to the ArchiMate 3.2 Specification<sup>1</sup>, an application function describes the internal behavior of an application component, and an application component may be assigned to an application function, which means that the application component performs the application function. Therefore, the correct answer is A. Assignment. This relationship indicates that an instance of a technology function performs (part of) the behavior of an instance of an application function<sup>1</sup>.

### NEW QUESTION # 51

What element types are defined in the top-level hierarchical structure of the language?

- A. Behavior, Composite, Motivation, Structure
- B. Abstract, Core, Object
- C. Application, Business, Strategy, Technology
- D. Active, Behavior, Passive

**Answer: D**

Explanation:

Comprehensive and Detailed in Depth Explanation: The ArchiMate Core Framework categorizes elements into three primary types:

- \* Active Structure Elements- Represent entities that perform behavior (e.g., business actors, applications).
- \* Behavior Elements- Represent functions, processes, or services.
- \* Passive Structure Elements- Represent objects or information (e.g., data objects, artifacts).

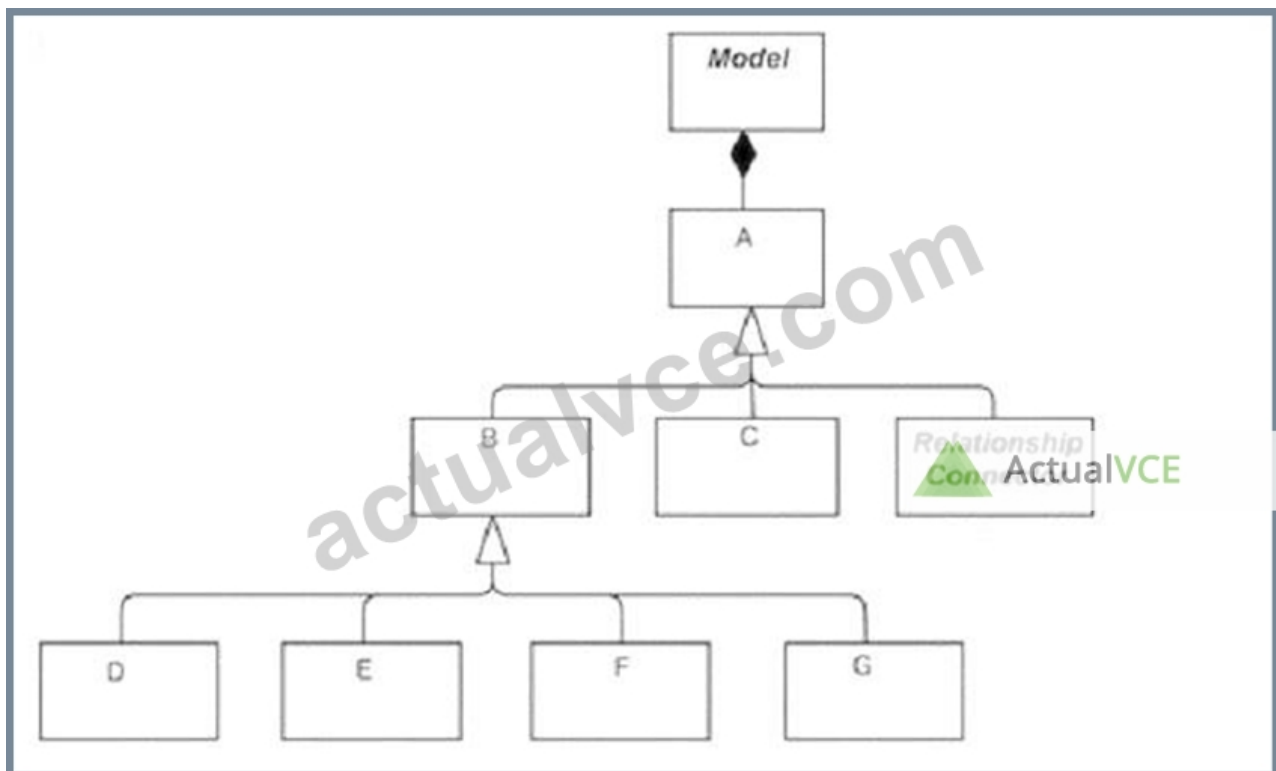

The ArchiMate 3.2 Specification explicitly defines these three primary element types.

References:

- \* Archi User Guide
- \* ArchiMate 3.2 Specification

### NEW QUESTION # 52

Consider the top-level hierarchical structure of the ArchiMate Language shown below:

What do A and B denote?

- A. A-Concept, B-Element
- B. A-Metamodel, B-Event
- C. A=Element, B=Relationship
- D. A=Element, B=Core Element

**Answer: A**

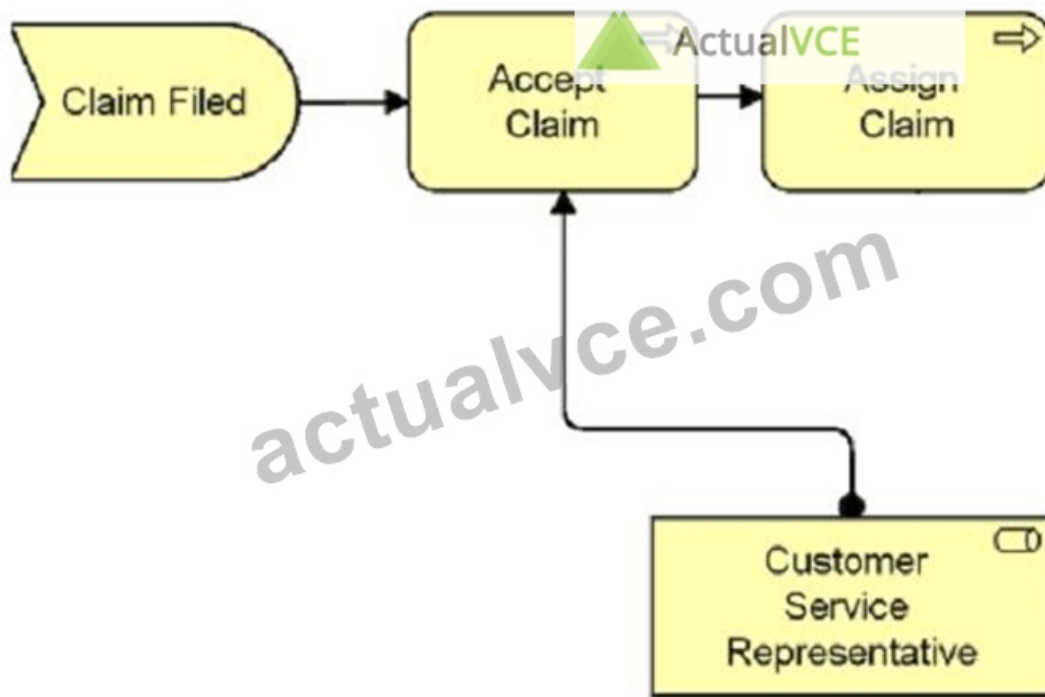

Explanation:

According to the ArchiMate language structure, a concept is either an element or a relationship. An element is either a behavior element, a structure element, a motivation element, or a composite element. A and B in the diagram correspond to these concepts respectively.

References: ArchiMate 3.2 Specification, Chapter 3: Language Structure, Section 3.2 Top-Level Language Structure; ArchiMate 3.0 Specification, Chapter 3: Language Structure, Section 3.2 Top-Level Language Structure.

### NEW QUESTION # 53

Consider the following diagram which shows part of the ArchiSurance Claims Administration:

Which of the following correctly describes this diagram?

- A. Business event Claim Filed triggers a business process Accept Claim which in turn triggers an Assign Claim process.
- B. The Claim Filed event assigns the Customer Service Representative to participate in the Accept Claim and Assign Claim processing.
- C. The information that flows from Claim Filed to Accept Claim and then to Assign Claim is reviewed by the Customer Service Representative role.
- D. The event Claim Filed triggers the Accept Claim process which is serviced by the Customer Service Representative role before the Assign Claim process.

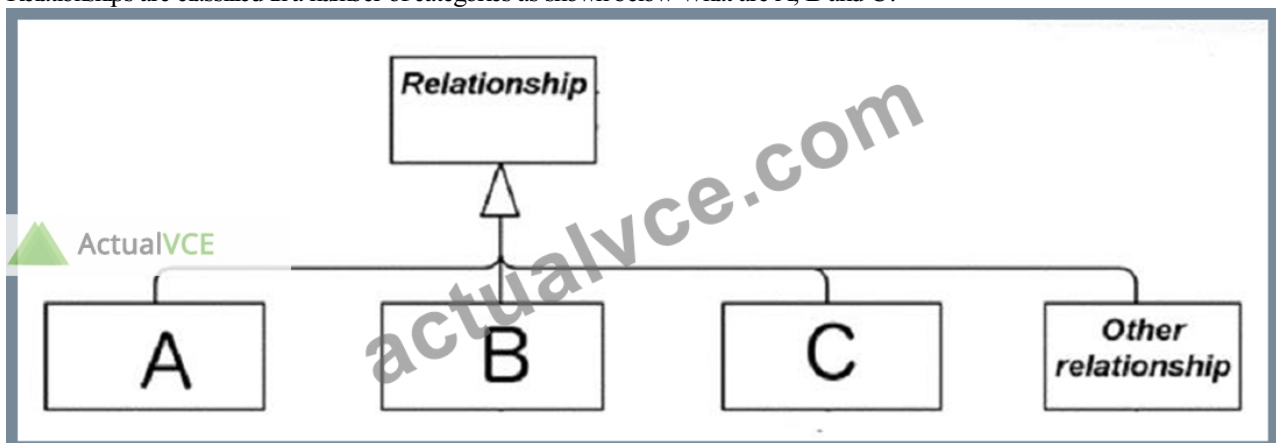

**Answer: A**

Explanation:

The correct answer is D. Business event Claim Filed triggers a business process Accept Claim which in turn triggers an Assign Claim process. This is because the diagram shows a business event (Claim Filed) that initiates a business process (Accept Claim) which is performed by a business role (Customer Service Representative). The business process then triggers another business process (Assign Claim) which is also performed by the same business role. The diagram does not show any information flow or assignment relationships between the elements.

#### NEW QUESTION # 54

Relationships are classified in a number of categories as shown below What are A, B and C?

- A. Passive, Behavior, Active
- B. Structural, dependency, dynamic

- Answer: B**

This is because the diagram shows the three main categories of relationships in ArchiMate: structural relationships, which model the static construction or composition of concepts; dependency relationships, which model how elements depend on or use other elements; and dynamic relationships, which model the temporal or causal connections between elements.
