There is no doubt that having a H19-401_V2.0 certificate is of great importance to our daily life and daily work, it can improve your comprehensive strength when you are seeking for a decent job or competing for an important position, mainly because with H19-401_V2.0 certification, you can totally highlight your resume and become more confident in front of your interviewers and competitors. There are many advantages of our H19-401_V2.0 question torrent that we are happy to introduce you and you can pass the exam for sure.

For candidates who will attend the exam, some practice is necessary. H19-401_V2.0 exam materials are valid and high-quality. We have a professional team to search for the first-hand information for the exam. We also have strict requirements for the questions and answers of H19-401_V2.0 exam materials, we ensure you that the H19-401_V2.0 Training Materials are most useful tool, which can help you pass the exam just one time. In addition, we offer you free update for one year after purchasing, we also have online service stuff, if you have any questions, just contact us.

Valid Braindumps H19-401_V2.0 Free - Latest Study H19-401_V2.0

Questions

It doesn't matter if it's your first time to attend H19-401_V2.0 practice test or if you are freshman in the IT certification test, our latest H19-401_V2.0 dumps guide will boost your confidence to face the challenge. Our dumps collection will save you much time and ensure you get high mark in H19-401_V2.0 Actual Test with less effort. Come and check the free demo in our website you won't regret it.

Huawei HCSP-Presales-Campus Network Planning and Design V2.0 Sample Questions (Q23-Q28):

NEW QUESTION # 23

Which of the following VLAN assignment modes are supported on a network?

- A. VLAN assignment by geographic area
- B. VLAN assignment by service type
- C. VLAN assignment by logical area
- D. VLAN assignment by workforce structure

Answer: A,B,C,D

Explanation:

Effective VLAN planning is a cornerstone of campus design. Huawei supports all four methods:

- * Service Type (B): Segregating Voice, Data, and Management traffic.
 - * Geographic Area (C): Assigning VLANs per floor or building.
 - * Logical Area (A): Grouping by functional zones (e.g., Server zone, DMZ).
 - * Workforce Structure (D): Mapping VLANs to departments (e.g., HR, R & D, Finance).
- Modern designs often use a combination, which can be further simplified using Free Mobility (Security Groups).

NEW QUESTION # 24

Huawei iMaster NCE-Campus supports hierarchical templates, enabling child templates to inherit the configurations of parent ones.

- A. False
- B. True

Answer: B

Explanation:

To manage massive-scale deployments (such as retail chains with thousands of stores), iMaster NCE- Campus utilizes Hierarchical Configuration. Administrators can define a Parent Template with global settings (e.g., DNS, NTP, Security standards) and create Child Templates for specific regions or sites. The child templates automatically inherit all settings from the parent, allowing the administrator to only configure the "differentiated" parts (e.g., local subnets or SSIDs), which drastically reduces configuration errors and deployment time.

NEW QUESTION # 25

Which of the following encryption modes is used in WAPI authentication?

- A. SM4
- B. CCMP
- C. TKIP
- D. Web

Answer: A

Explanation:

WAPI (WLAN Authentication and Privacy Infrastructure) is a Chinese national standard for wireless security. Unlike the international WPA standards that use AES (CCMP) or the legacy TKIP, WAPI utilizes the SM4 (formerly SMS4) symmetric block cipher algorithm for data encryption and the SM3 hash algorithm for integrity. Huawei enterprise APs support WAPI to meet specific regulatory and security requirements in the Chinese market.

NEW QUESTION # 26

MIMO technology enables multiple antennas to send and receive spatial streams (multiple signals) simultaneously and to differentiate the signals sent to or received from different spatial orientations. By leveraging technologies such as SM and SD, MIMO boosts the system capacity, coverage scope, and SNR without occupying extra bandwidth.

- A. False
- **B. True**

Answer: B

Explanation:

MIMO (Multiple-Input Multiple-Output) is a core pillar of modern WLAN planning. It utilizes two main techniques:

- * Spatial Multiplexing (SM): Increases system capacity by transmitting different data streams over different antennas simultaneously.
- * Spatial Diversity (SD): Improves coverage scope and SNR (Signal-to-Noise Ratio) by transmitting the same data stream over multiple paths to ensure reliability through redundancy (e.g., using MRC or STBC).

The statement is True because these benefits are achieved using the same frequency channel (no extra bandwidth) by exploiting the spatial dimension of the radio environment.

NEW QUESTION # 27

Which of the following cannot be monitored by the controller?

- A. Traffic statistics of different applications on links
- B. VPN topology information
- **C. Devices' original flow information collected using NetStream**
- D. Link traffic statistics of sites

Answer: C

Explanation:

The iMaster NCE-Campus controller monitors the network via protocols like SNMP, NETCONF, and Telemetry to provide visibility into application traffic (A), topology (B), and link stats (D). However, original

/raw NetStream flow information (C) is typically too voluminous for a management controller to process.

Instead, these raw packets are sent to a dedicated Analyzer (like iMaster NCE-CampusInsight) which performs deep data mining.

The controller only receives summarized reports or metadata from the analyzer.

NEW QUESTION # 28

.....

DumpsKing is a real dumps provider that ensure you pass the different kind of IT exam with offering you exam dumps and learning materials. You just need to use your spare time to practice the H19-401_V2.0 Real Dumps and remember H19-401_V2.0 test answers skillfully, you will clear Huawei practice exam at your first attempt.

Valid Braindumps H19-401_V2.0 Free: https://www.dumpsking.com/H19-401_V2.0-testking-dumps.html

Our H19-401_V2.0 practice engine with passing rate up to 98 percent can build a surely system to elude any kind of loss of you and help you harvest success effortlessly, The Huawei H19-401_V2.0 certification exam offers a great opportunity for professionals to demonstrate their expertise and knowledge level, Actually, H19-401_V2.0 practice exam test are with high hit rate, which can ensure you 100% pass.

Thomas, Minneapolis, MN, and is Leverhulme Visiting Professor H19-401_V2.0 at the London Business School, Add custom business logic to forms, and integrate them with other applications.

Our H19-401_V2.0 practice engine with passing rate up to 98 percent can build a surely system to elude any kind of loss of you and help you harvest success effortlessly.

Valid HCSP-Presales-Campus Network Planning and Design V2.0 Exam Dumps 100% Guarantee Pass HCSP-Presales-Campus Network Planning and

Design V2.0 Exam

The Huawei H19-401_V2.0 Certification Exam offers a great opportunity for professionals to demonstrate their expertise and knowledge level. Actually, H19-401_V2.0 practice exam tests are with high hit rate, which can ensure you 100% pass.

So our company is focused on reforming preparation ways of the H19-401_V2.0 exam. Now passing Huawei certification H19-401_V2.0 exam is not easy, so choosing a good training tool is a guarantee of success.
