Google Cloud Certified - Professional Google Workspace Administrator Sample Questions (Q60-Q65):

NEW QUESTION # 60

The security team for your organization is concerned about phishing attacks against your end user base. What two actions should you take to configure the strongest possible preventative measure against phishing attacks? (Choose two.)

- A. Force encryption on all inbound and outbound emails from your Workspace domain.

- B. Configure spoofing and authentication controls to warn end users about messages that are perceived as threats.
- C. Configure spoofing and authentication controls to quarantine messages that are perceived as threats.
- D. Train end users to mark messages as spam when they see something suspicious.
- E. Enforce confidential mode for all messages sent and received from your Workspace domain.

Answer: B,C

NEW QUESTION # 61

You manage Chrome Enterprise browsers for your large organization. You want to ensure that specific extensions are automatically installed on all managed Chrome Enterprise browsers. What should you do?

- A. Allowlist the specific Chrome browser extensions.
- B. Force-install the extensions through Chrome browser policies.
- C. Configure a script to deploy the extensions upon user login.
- D. Publish the extensions in the Chrome Web Store.

Answer: B

Explanation:

Using Chrome browser policies, you can force-install specific extensions on all managed Chrome Enterprise browsers. This ensures that the desired extensions are automatically installed on users' browsers without requiring manual installation. This approach is the most efficient and scalable solution for managing extensions across a large organization.

NEW QUESTION # 62

By using Account Activity reports, you have flagged several users who are uploading large files.

You want to ensure you don't run out of pooled storage and you want to stop the abuse. What should you do first?

- A. Email flagged users with a warning of possible abuse.
- B. Use the Security Investigation Tool to set alerts on the flagged users.
- C. Warn the flagged users, and purchase more pooled storage to avoid hitting storage quotas.
- D. Place the flagged users in a configuration group and set storage limits for the group.

Answer: D

NEW QUESTION # 63

Your organization has been using Google Workspace for almost a year, and your annual security and risk assessment initiative is approaching in preparation for the risk assessment you want to quickly review all the security-related settings for Gmail, Drive and Calendar and identify the ones that may be posing risk. What should you do?

- A. Review all settings for each organizational unit (OU) separately because it is the only way to see the security settings for Workspace apps.
- B. Review the Gmail Drive, and Calendar reports in the Reporting section in the Admin console.
- C. Review the Security health page in the Admin console.
- D. Review all the alerts in the Alert center.

Answer: C

Explanation:

* Access Admin Console: Log in to the Google Admin console using your administrator account.

* Navigate to Security Health Page: In the Admin console, go to the Security section and select Security health. This page provides a comprehensive overview of your organization's security settings.

* Review Security Settings: The Security health page lists various security settings for Gmail, Drive, and Calendar. It highlights settings that might pose a risk and provides recommendations for improvement.

* Identify and Mitigate Risks: Carefully review the highlighted settings. Follow the recommendations to enhance your organization's security posture. This ensures that any potential risks are identified and

* mitigated promptly.
