#### NEW QUESTION # 29

Marvin's user account appears in many locations throughout Jira.

You want to deactivate his user account.

Which location must you definitely update before deactivating him?

- A. Watchers
- **B. Reporter field**
- C. Project lead
- D. Assignee field
- E. Project permissions

**Answer: B**

#### NEW QUESTION # 30

A team of technical writers works in the WRITE project. The project uses a single, shared workflow.

To better match the team's way of working they request a workflow change:

\* The initial status of their project's workflow should be changed from Open to Awaiting Inspiration.

You navigate to the Workflows section of the administration, update the Name of the status in the workflow designer and publish your change.

What are two implications of this change? (Choose two.)

- A. Filters and Gadgets that referred to the Open status by name will be broken.
- B. The Open Status will be changed to Awaiting Inspiration in all workflows using that status.
- **C. Awaiting Inspiration will be created as a new Status in Jira.**
- **D. The workflow scheme for the WRITE project will need to be published before the change takes effect.**
- E. Transitions to the Awaiting Inspiration status will fail until the post functions for those transitions are updated.

**Answer: C,D**

#### NEW QUESTION # 31

A medical clinic has decided to use Jira. Their project will allow patients to file medical complaints.

The requirements for the project are as follows:

\* Members of the group (jira-patients) must be able to see only their own complaints.

\* Members of the group (medical-board) must be able to see all complaints.

Based only on these two requirements, which two configurations used together will satisfy them? (Choose two.)

- **A. In the permission scheme, add Group (jira-patients) and Group (medical-board) to Browse Projects and Create Issues permissions.**
- **B. Implement an issue security scheme with two levels: (#1) Reporter and (#2) Group (medical-board).**
- C. Implement an issue security scheme with one level: Reporter and Group (medical-board).
- D. Implement an issue security scheme with three levels: (#1) Group (jira-patients), (#2) Reporter, and (#3) Group (medical-board).
- E. In the permission scheme, add Reporter and Group (anonymous) to Browse Projects and Create Issues.

**Answer: A,B**

#### NEW QUESTION # 32
