最新的 GInI Professional CInP 免費考試真題 (Q24-Q29):

問題 #24

The aim of _____ is to collect feedback from a large number of respondents in order to reveal specific patterns in their responses that yield new insights for researchers.

Select one correct answer from the list

- A. qualitative market research
- B. design research
- **C. quantitative market research**
- D. user research

答案：C

問題 #25

A cardinal rule for Project Leaders leading their teams in needfinding is to never pursue innovation for the sake of being innovative. Why is this?

Select one correct answer from the list:

- A. It may raise different stakeholders' expectations too high beyond what the business can safely deliver
- B. Because being innovative is now looked down upon by most customers
- C. Without a clear understanding of the deeper market need involved, it usually just results in another "me too" offering
- D. They must also combine the innovation with effective marketing if they really want to look innovative

答案： C

解題說明：

GInI's CInP Handbook underscores that innovation must address a genuine market need, particularly during needfinding in the Front End. Pursuing innovation merely to appear innovative-without grounding it in a deep understanding of customer or market needs-often leads to uninspired, incremental "me too" offerings that fail to differentiate or deliver value. Option B, raising stakeholder expectations, is a potential risk but not the core reason GInI highlights. Option C, combining with marketing, shifts focus to execution rather than the root issue of needfinding. Option D, suggesting innovation is undesirable, contradicts GInI's entire philosophy. A aligns with GInI's principle that innovation must solve real problems, not chase novelty for its own sake, confirming the original answer.

問題 #26

Why do we tell stories within our businesses?

Select one correct answer from the list:

- A. To influence a particular outcome.
- B. Because it allows us to change the world.
- C. To ensure our voices have been heard.
- D. Because it gives us a creative outlet.

答案： A

問題 #27

Since each Mechanism of Engagement will resonate with a different audience in the business, a portfolio approach to their use allows a program to maximize its overall engagement, while also benefiting from what?

Select one correct answer from the list:

- A. A breadth of different demographics
- B. A range of intellectual capacities
- C. A diversity of personalities, styles, perspectives, and capabilities
- D. A variety of languages

答案： C

解題說明：

GInI emphasizes that a portfolio approach to engagement mechanisms-such as Innovation Kits, Tournaments, or Panels-enhances participation by appealing to varied groups within an organization. The CInP Handbook notes that this approach leverages "a diversity of personalities, styles, perspectives, and capabilities" to ensure broad and effective engagement. This diversity allows the innovation program to tap into different ways of thinking and working, maximizing creativity and involvement. "A variety of languages" (A) is too narrow and not a focus of GInI's framework. "A breadth of different demographics" (C) and "A range of intellectual capacities" (D) are less specific and not directly cited as the primary benefit in GInI documentation.

問題 #28

An Innovation Team's story must convey a true sense of purpose in resolving their challenge, and must relate that to something that truly matters at a fundamentally human level, not just at a business level.

Select one correct answer from the list:

- A. A true sense of pride
- B. A sense of ownership
- C. A sense of wonder
- D. A true sense of purpose

答案：D

解題說明：

GInI's CInP Handbook stresses that an Innovation Team's narrative must go beyond business metrics (e.g., profit, efficiency) to connect with stakeholders on a human level-addressing needs, emotions, or societal impact. This requires "a true sense of purpose," which ties the team's challenge to a meaningful "why" that resonates deeply, such as improving lives or solving pressing problems. Option B, "a sense of ownership," is team-centric and lacks the broader human connection GInI seeks. Option C, "a true sense of pride," reflects an outcome, not the driving force. Option D, "a sense of wonder," is inspirational but too vague for GInI's focus on purpose-driven innovation. Option A aligns with GInI's storytelling framework, where purpose links the challenge to human significance, enhancing stakeholder buy-in. The original answer (A) is correct, reflecting GInI's holistic approach that elevates innovation beyond mere business objectives to create lasting impact, a principle rooted in Design Thinking influences within GInI's methodology.
