It explores international labour standards set by organizations such as the UN and ILO, and labour codes like the Ethical Trading Initiative and SA800. Candidates also examine external environmental frameworks, industry accreditations, and their role in meeting ESG goals. Finally, this section addresses fair trade principles, organizations such as WFTO and Fairtrade International, and the need to align internal governance with global standards.</li> </ul>                               |

## 최신 CIPS Level 5 Advanced Diploma in Procurement and Supply L5M5 무료 샘플문제 (Q42-Q47):

### 질문 # 42

A procurement team runs a tender for new office furniture, prioritising cost. What is the main risk of this approach?

- A. Receiving too many bids
- B. Suppliers may sacrifice sustainability agenda
- C. Not receiving any bids
- D. Rushed tender process

정답: B

### 설명:

Comprehensive and Detailed Explanation From Exact Extract of Documents:

When cost is the overriding priority, suppliers may compromise on sustainability. The L5M5 study guide explains that cheap materials may be unsustainably sourced (e.g., timber from non-certified forests). This is particularly highlighted in the old syllabus under LO 3.4, which noted risks when cost or speed is prioritised over ESG. Procurement professionals must balance cost, quality, speed, and sustainability to avoid reputational damage and unethical practices. Focusing solely on cost undermines long-term ESG commitments.

### 질문 # 43

What is the primary purpose of a supplier code of conduct?

- A. To establish the expectations and standards for supplier behavior and practices

- B. To define the penalties for non-compliance in supplier contracts
- C. To outline the payment terms and delivery schedules for suppliers
- D. To ensure suppliers take full responsibility for product quality

**정답: A**

**설명:**

Choice B- A supplier code of conduct sets clear guidelines on ethical, social, environmental, and legal responsibilities that suppliers are expected to follow. Therefore B is the correct answer.

Incorrect answer:

Choice A- This is not the primary purpose of a supplier code of conduct. While the code may mention consequences for non-compliance, its primary focus is on establishing ethical and operational standards rather than detailing penalties.

Choice C- Payment terms and delivery schedules are typically included in contractual agreements, not in a supplier code of conduct. The code focuses more on ethical and sustainability standards rather than logistical or financial details.

Choice D- While product quality may be a part of a supplier's responsibilities, it is usually addressed in specific quality agreements or technical specifications rather than the supplier code of conduct. The code primarily deals with broader principles such as ethical labor practices, environmental impact, and compliance with laws.

**질문 # 44**

Labour standards facilitate international trade and there are international regulations to secure this. Is this statement TRUE?

- A. No - labour standards vary from country to country
- B. Yes - there is a minimum labour standard governing pay and conditions
- C. Yes - labour standards are regulated by the UN and other multi-national bodies
- D. No - no countries have established labour standards

**정답: A**

**설명:**

Comprehensive and Detailed Explanation From Exact Extract of Documents:

The correct answer is that labour standards vary from country to country. According to the L5M5 study guide (p.85), while international conventions exist (e.g., ILO conventions), there is no single binding international law regulating labour standards across all nations. Instead, each country enforces its own rules regarding wages, hours, and working conditions. Some countries have strict protections, while others may have weak or poorly enforced standards. Therefore, procurement professionals must apply due diligence and supplier audits when sourcing internationally, as ethical risks arise in jurisdictions with lower labour protections.

**질문 # 45**

Which of the following strategies can procurement professionals use to effectively manage language and cultural barriers in global sourcing?

1. Improving foreign language skills
2. Think and act with an open mind
3. Insisting that English is the only business language used
4. Ensuring proper documentation for all the imports to comply with regulations

- A. 4 and 1
- B. 2 and 4
- C. 1 and 2
- D. 2 and 3

**정답: C**

**설명:**

Managing language and cultural barriers

View culture within the language

Choose location carefully

Know and communicate business goals

- O Check and monitor relationships
- O Communicate well
- O Improve foreign language skills
- O Think and act with an open mind
- O Have patience
- O Be respectful

The correct answer is Option A.

#### 질문 # 46

In the power dominance model, which factor is most likely to strengthen the buyers' power relative to suppliers?

- A. Low price sensitivity among buyers
- B. High switching costs for buyers
- C. A small number of suppliers for a large number of buyers
- D. High availability of substitute products

정답: D

설명:

Choice D is the correct answer. When numerous substitute products are available, buyers can easily switch suppliers if dissatisfied, increasing their bargaining power in negotiations.

Incorrect answer:

Choice A- This typically increases supplier power, as a limited number of suppliers can dictate terms to a larger pool of buyers.

Choice B- This would decrease the power of buyers, as they would be less likely to change suppliers due to the costs involved.

Choice C- If buyers are not sensitive to price, they are less likely to negotiate strongly or switch suppliers based on cost, which decreases their bargaining power.
