

# ASVAB Latest Study Notes | Reliable ASVAB Exam Brindumps

2026 Latest DumpsValid ASVAB PDF Dumps and ASVAB Exam Engine Free Share: [https://drive.google.com/open?id=1isj\\_8BTHkst85gq\\_Xse3Dm\\_lrJnuVgib](https://drive.google.com/open?id=1isj_8BTHkst85gq_Xse3Dm_lrJnuVgib)

We offer free demos and updates if there are any for your reference beside real ASVAB real materials. By downloading the free demos you will catch on the basic essences of our ASVAB guide question and just look briefly at our practice materials you can feel the thoughtful and trendy of us. About difficult or equivocal points, our experts left notes to account for them. To fill the void, we simplify the procedures of getting way, just place your order and no need to wait for arrival of our ASVAB Exam Dumps or make reservation in case people get them all, our practice materials can be obtained with five minutes.

Our ASVAB exam questions are totally revised and updated according to the changes in the syllabus and the latest developments in theory and practice. We carefully prepare the ASVAB test guide for the purpose of providing high-quality products. All the revision and updating of products can graduate the accurate information about the ASVAB Guide Torrent you will get, let the large majority of student be easy to master and simplify the content of important information. Our product ASVAB test guide delivers more important information with fewer questions and answers.

## Types of DumpsValid College Admission ASVAB Practice Questions

Our ASVAB practice test is designed to accelerate your professional knowledge and improve your ability to solve the difficulty of ASVAB real questions. Well preparation of certification exam is the first step of passing ASVAB Exam Tests and can save you lots time and money. Our latest ASVAB dumps torrent contains the valid questions and answers which updated constantly.

## College Admission Armed Services Vocational Aptitude Battery (ASVAB) Sample Questions (Q270-Q275):

### NEW QUESTION # 270

The students were scheduled to observe a plenary session of Congress.

- A. full
- B. scheduled
- C. example
- D. special

Answer: A

### NEW QUESTION # 271

The bottoms of four boxes are shown above. The boxes all have the same volume. If postal regulations state that the sides of a box must meet a minimum height, which box is most likely to be too short to go through the mail?

- A. No. 4
- B. No. 3
- C. No. 2
- D. No. 1

Answer: B

Explanation:

volume, and all the boxes have equal volume, then the sides must be shortest on the box with the largest area on the bottom.

Calculate the area of each box bottom: No. 1 = 20 square inches; No. 2 = 35 square inches; No. 3 = 48 square inches; and No. 4 = 27 square inches. No. 3, which has the largest area, will have the shortest sides.

### NEW QUESTION # 272

A circle passes through the four vertices of a rectangle that is 8 feet long and 6 feet wide. How many feet are there in the radius of the circle?

- A.  $2\frac{1}{2}$
- B. 0
- C. 1
- D. 2

Answer: C

Explanation:

If the circle passes through all four vertices of the rectangle, its diameter will be a diagonal of the rectangle.

Since a rectangle's angles are right angles, the diagonal forms a right triangle with two sides of the rectangle. Let  $x$  = the length of the diagonal. By the Pythagorean Theorem, in a right triangle the square of the length of the hypotenuse is equal to the sum of the squares of the legs.

$$x^2 = 8^2 + 6^2$$

$$x^2 = 64 + 36$$

$$x^2 = 100$$

$x^2 = 100$  means that  $x \times x = 100$ . Therefore  $x = 10$  feet. But 10 is a diameter of the circle. A radius of a circle is one-half the diameter. Hence, the radius is 5 feet.

#### NEW QUESTION # 273

If  $2x - 3 = 37$ , what is the value of  $x$ ?

- A. 0
- B. 1
- C. 2
- D. 3

**Answer: C**

Explanation:

The equation  $2x - 3 = 37$  means that "twice a number minus 3 is equal to 37." To arrive at a value for  $x$ , we first eliminate  $-3$  on the left side. This can be done by adding 3 to both sides of the equation, thus undoing the subtraction.

$$2x - 3 + 3 = 37 + 3$$

$$2x = 40$$

To eliminate the 2 that multiplies  $x$ , we undo the multiplication by dividing both sides of the equation by 2.

$$2x / 2 = 40 / 2$$

$$x = 20$$

#### NEW QUESTION # 274

Heather bought a rectangular Persian rug with an outer perimeter measurement of 45 feet. If the long sides measure 15 feet each, how long is each short side of the rug?

- A. 10 ft
- B. 12.5 ft
- C. 7.5 ft
- D. 15 ft

**Answer: C**

Explanation:

The formula for the perimeter of a rectangle is

$$P = 2l + 2w$$

If the long sides of the rug measure 15 feet each, then both long sides together equal 30 feet. Subtract the length of both long sides from the total perimeter measurement.

$$45 - (2 \times 15) = 45 - 30 = 15 \text{ ft}$$

Now we have the part of the perimeter made up by the short sides, but we need to divide it by two to get the length of each short side.

$$15 \text{ ft.} + 2 \cdot 7.5 \text{ ft}$$

### NEW QUESTION # 275

• • • • •

The most important is that you just only need to spend 20 to 30 hours on practicing ASVAB exam questions before you take the exam, therefore you can arrange your time to balance learning and other things. Of course, you care more about your test pass rate. We offer you more than 99% pass guarantee if you are willing to use our ASVAB test guide and follow our plan of learning. If you fail to pass the exam with our Armed Services Vocational Aptitude Battery (ASVAB) torrent prep, you will get a full refund. However, if you want to continue studying our course, you can still enjoy comprehensive services through ASVAB Torrent prep. We will update relevant learning materials in time. And we guarantee that you can enjoy a discount of more than one year.
